Good Afternoon Tiffany,

Thank you for providing the information. Attached are the applications supporting documents and information for our event.

Cirque Italia @ Orland Square Mall - 288 Orland Square Dr. Orland Park, IL 60462

Event Dates: Apr 25 - Apr 28, 2024

Please let me know if we need to provide you with any further information to proceed with permitting, schedule inspection and pay the permit fees.

Thank you for your assistance.

Sincerely,

Hi Rosa,

Here are the applications needed for your event:

- Electrical permit application (for the generators)
- Tent application (for any tents, and tents over 400 square feet require a flame spread certificate)
- Structure permit (for any other structures, fences, etc.)
- Temporary food service application

We will also need permission from the property owner. It can be a letter or email, something stating they approve the event. The cost for the event is \$100 per day and the cost per inspection, food and tents, is \$100 per inspection if it's done during Village hours, outside Village hour inspections are \$300.

I have cc'd our Health Inspector, Kyle Moy, on this email if you have questions regarding the food service application.

Please let me know if you have any questions!

Thank you,

SPECIAL EVENT - TENT RULES & REQUIREMENTS

- ✓ A site plan is required showing where the tent/event will be set up and the dimensions of the tent.
- ✓ The tent shall not obstruct any accessible parking spaces, fire lanes, fire hydrants or fire department connections.
- ✓ A flame resistant certificate per NFPA 701 or ASTM E 84 by an acceptable testing laboratory for tents in excess of 400 square feet.
- ✓ If you are leasing your business space, written permission from your landlord is required!
- ✓ Tents are only allowed on the site where your business is located. No off site tents are allowed.
- ✓ A note on the submitted plans stating, "No smoking, no fireworks, no open flames or devices emitting open flame or fire will be used in the tent."
- ✓ A note on the submitted plans stating "a 4A 60BC fire extinguisher will be provided and mounted no higher than 48" above finished floor to the handle."
- ✓ If you are using a tent with the side down, defined exits shall be required to be shown on the plans based on the number of attendants.
- ✓ Occupant load signs will be printed by the Building Division and placed at the tent entrances/exits.

PRODUCT EVALUATED: Precontraint 702 Opaque
EVALUATION PROPERTY: NFPA 701-10, METHOD 2
STANDARD METHODS OF FIRE TESTS FOR FLAME
PROPAGATION OF TEXTILES AND FILMS with a Flat Sheet (Section 13.1.3)

Report of Testing Precontraint 702 Opaque for compliance with the applicable requirements of the following criteria: NFPA 701-10, METHOD 2 Standard Methods of Fire Tests for Flame Propagation Of Textiles and Films for Flat Sheets (Section 13.1.3)

"This report is for the exclusive use of Intertek's Client and is provided pursuant to the agreement between Intertek and its Client. Intertek's responsibility and liability are limited to the terms and conditions of the agreement. Intertek assumes no liability to any party, other than to the Client in accordance with the agreement, for any loss, expense or damage occasioned by the use of this report. Only the Client is authorized to permit copying or distribution of this report and then only in its entirety. Any use of the Intertek name or one of its marks for the sale or advertisement of the tested material, product or service must first be approved in writing by Intertek. The observations and test results in this report are relevant only to the sample tested. This report by itself does not imply that the material, product, or service is or has ever been under an Intertek certification program."

2 Introduction

Intertek has conducted testing for Serge Ferrari on Preconstraint 702 Opaque to assess the propagation of flame beyond the area exposed to the ignition source. Testing was conducted in accordance with NFPA 701-10, Method 2 - Standard Methods of Fire Tests for Flame Propagation of Textiles and Films for Flat Sheets (See section 13.1.3). This evaluation began April 27, 2015 and ended April 27, 2015.

3 Test Samples

3.1. SAMPLE SELECTION

Samples were submitted to Intertek directly from the client. Samples were not independently selected for testing. Samples were received at the Evaluation Center on April 21, 2015 in good condition.

3.2. SAMPLE AND ASSEMBLY DESCRIPTION

Sample Name: Preconstraint 702 Opaque

Sample Description: Polyester yarns coated with PVC flame retardant on both sides and varnished. Weight: $830\text{g/m}^2 \pm 5\%$, Thickness: $0.63\text{mm} \pm 10\%$, Polyester 1100 dtex: 24% - PVC flame retardant 76%

The test specimen identified as Preconstraint 702 Opaque was cut into 5.25 in. by 47.25 in. samples by Intertek. Ten of the twenty samples cut were leached per Section 16.5. All samples were then conditioned in an oven at $105^\circ\text{C} \pm 3^\circ\text{C}$ for no less than 1 hour but no more than 3 hours before testing.

Test room conditions: 72.8°F and 48% R.H.

4 Testing and Evaluation Methods

4.1. TEST STANDARD 1

Ten specimens of material 5.25 inches by 47.25 inches were cut with their long dimension parallel to the length direction ("with" machine). The test specimens were conditioned to 220-225°F (105-108°C) for not less than one hour and not more than 3 hours. Specimens were removed from the oven one at a time and tested immediately. The specimens were supported with clips in a three-sided vertical column and exposed to an 11" flame for two minutes. The flame impinged approximately 7 inches on the specimen.

No specimen should continue flaming for more than two seconds. Length of char should not exceed 17.1 inches from the bottom edge of the specimen for Flat Sheets (See section 13.1.3). No flaming on floor of apparatus should last longer than two seconds.

Serge Ferrari
Report No: 102083832MID-001f

April 28, 2015
Page 5 of 5

6 Conclusion

Intertek has conducted testing for Serge Ferrari on Precontraint 702 Opaque to assess the propagation of flame beyond the area exposed to the ignition source. Testing was conducted in accordance with NFPA 701-10, Method 2 - Standard Methods of Fire Tests for Flame Propagation of Textiles and Films for flat sheets (See section 13.1.3).

The sample PASSED the testing criteria for NFPA 701-10, Method 2 - Standard Methods of Fire Tests for Flame Propagation of Textiles and Films for flat sheets (See section 13.1.3).

The conclusions of this test report may not be used as part of the requirements for Intertek product certification. Authority to Mark must be issued for a product to become certified.

Security Plan

To whom it may concern,

Cirque Italia has its own crew of traveling Certified Crowd managers / Security Staff. Their main responsibilities include but are not limited to; Crowd Control, Patrolling the Grounds (crew takes turns to provide overnight 24-hour surveillance) and General Public Safety.

- 1.** One hour before the public arrives, they check the grounds to make sure all is in place for the event and the means of egress.
- 2.** During the event they remain both in and around the Tent to make sure all is running smoothly.
- 3.** At the end of the event, they are assigned by the exits to facilitate and assist the public as they exit the tent.
- 4.** They are instructed to report any suspicious or unusual activity directly to the show manager who then decides the appropriate course of action.

At **Cirque Italia** the safety and well being of the patrons is our main goal and responsibility, we want to ensure the patrons have an enjoyable and memorable experience with us.

- ★ Emergency lights located. Powered by generator.
 - No Smoking Signs are located and Fire Extinguishers
- CONCESSION:**
- Holding Tank
 - Hand washing Station
 - Warmer, hot holder
 - Popcorn Machine
 - Snowcone Machine
 - Nacho Warmer

PERMIT # _____

SPECIAL EVENTS – STAGE/PLATFORM, PORTABLE TOILETS, DUMPSTERS, FENCING, AND OTHER STRUCTURES

You must include a detailed Site Map showing the location of the following: tents and canopies; stages; signage; portable toilets; dumpsters; fences; any other structures; alcohol, food, and merchandise service/sale; and proposed street/sidewalk closures.

Will your event include the use of **PORTABLE TOILETS**? Yes

The Village recommends two portable toilets, one handicapped stall, and two hand-washing stations per 100 people. All portable toilets must be removed from Village property within 24 hours after your event.

Company Name: Perfect Potty Phone # _____
Number of Portable Toilets: 2 Number of Handicapped Stalls: 1 Number of Hand-Washing Stations: inside Restroom trailer

Will your event include the use of **DUMPSTERS on village property**? **YES** **Event provides a 12 stall Restroom trailer for the use of the event**

The Village requires that all areas must be clean of debris. Attach plan of how garbage and waste will be removed from event site. Dumpster placement at Centennial Park will be in parking spaces 577 to 580 in the Metra East Daily Parking Lot. Dumpsters must be removed within 24 hours after your event.

Waste Company Name: Budget Dumpsters Phone # _____
Number of Dumpsters: 1 30yd

Will your event include the installation of **FENCING or OTHER STRUCTURES**? YES

Description(s): Event owned fencing sets up around the event

Will your event be **publicly advertised**?

How will your event attendees be notified or invited to the event? Radio, Newspaper and Social Media

If your event is requesting a **street or sidewalk closure**, attach map noting what type of traffic control devices (i.e., traffic signal, Police, barricades, specialized equipment, cones or signs) will be used to close the area. Also note if there will be any control fencing. No markings on paths are allowed. Signage must be used and removed. NO

If your event is a **run, walk**, or other activity in which participants will be following a course, then you must attach a map and a written description of the proposed route. Additionally, the Village is not responsible for any costs associated with the denial of a proposed route. NO

Have you made provisions for **onsite security** services? Any event requiring the use of the Orland Park Police Department will be billed per officer per hour. For more information, contact the Police Department at (708) 349-4111, ask for the Patrol Commander. YES, one officer per show.

Depending on the size and activities of your proposed event, The Village of Orland Park may require the presence of security personnel. Event organizers are responsible for the actions and conduct of any and all persons and organizations (participants, spectators, sponsoring organization, its Officers, Employees or agents or any person under their control insofar as permitted by law) associated with the permitted event. Furthermore, the event organizer is responsible for and will bear all costs related to policing, cleaning, and restoring the park upon conclusion of the event or activity and will reimburse the Village for any such costs incurred by the Village.

EMERGENCY FIRE AND EVACUATION PLAN

The safety of audience and employees at Cirque Italia and its locations is of paramount importance to management and toward that end, we have developed the following procedure to deal with emergencies and evacuation of the tent – whether due to fire or any other public safety emergency. This procedure consists of three specific actions that all staff must be familiar with, and while concerned only with Cirque Italia, similar procedures are in place for other sites or locations as well.

1. In the event of an evacuation due to fire or other public safety emergency, you are to follow the protocol in Section A of this plan as well as the directions of the Fire Safety Teams at each exit. They will provide emergency directions.
2. Once safely out of tent, staff must proceed to a predetermined external location a safe distance away from Cirque Italia tent. We will designate the mall building as a safe location at this point in time.
3. Fire Safety Team members will be at each external location to take attendance and to provide directions regarding return to the tent or alternate instructions. They will also have two-way radios to communicate with management and obtain the most up to date information regarding the status of the tent and instructions for staff.

A. EMERGENCY INSTRUCTIONS

1. In the event of fire or emergency, 911 will be notified first. All staff will be notified in one of three ways or a combination

There of:

- a) The tent fire alarm at every exit will light up and notify of emergency exit. Please listen to instructs from sound crew when they notify public of the emergency exit.
- b) Verbal instructions over the tent PA system.
- c) Direct verbal instructions from members of the Fire Safety Team in the tent.

In addition to the three conditions above, if you personally see a fire or smell smoke, try to immediately contact a member of the Fire Safety Team. If there is a fire, remove anyone from the immediate area but do not try to fight the fire and do not order any kind of evacuation. If the Fire Safety Team cannot be reached, then push panic alert on walkies or notify ticket office. There are fire extinguishers at every exit and emergency exit signs next to each entrance and exit of tent.

2. After notifying staff or receiving instructions to evacuate, try to quickly do as many of the following things as possible:

- Terminate all performances, music, phone conversations, meetings, and vacate both tents, and restrooms ASAP.

- Close any cabinet drawers; secure any monies, checks or funds in areas that have such requirements.
 - In colder months, take outeroat. Women take your purse or handbag. Take any needed medications or valuables from area. If you keep comfortable shoes for emergencies, take them with you.
 - Close any box office doors behind you; remain calm and head for the emergency safe zone.
 - Walk away from tent to safe zone that is notified from Fire Safety Team.
 - 3. Leave TENTS quickly and proceed to your predestinated assembly point and attempt to check in with Fire Safety Team personnel at that location. Remain there until further instructions.
 - 4. It is important for you to check in with Fire Safety Team staff once you have arrived safely as they will have two-way radios and be in touch with emergency service personnel so that they can advise when and if, it is safe to return to the tent. Checking in will also enable Fire Safety Teams to determine any staff who might still be in the tent.
 - 5. Do not leave or attempt to return to the tent unless you get instructions from the Fire Safety Team staff or via the special phone numbers.
- In the event of a non-fire emergency, follow the same instructions as above. If you see other tent staff evacuating the tent or see emergency service personnel on site, do not panic and do not start rumors. Only the Fire Safety Team members or Emergency Service personnel have the authority to order an evacuation. If, however, at any time, you feel that your personal safety is in danger, you may leave the tent on your own. If necessary, to allay your fears or you have any questions, contact any member of the Fire Safety Teams.

TECHNICAL INFORMATION

In the event of a fire or smoke situation, Fire safety teams have portable flashlights. Each exit has fire extinguishers. There is also a PA system throughout the tent, connected to a main tent through which emergency exits are located as well and directions may be given. Staff will correspond with Fire safety and security staff in the tent or outside in designated safe meet zones. Meet zones are determined by the occurrence of any event to arise. Team will correspond to fire and police workers who might have to enter various locations in the event of an emergency.

D. FIRE SAFETY TEAMS AND THEIR DUTIES

At the direction of The Emergency Manager, each tent has a Fire Safety Team composed of responsible staff from that area who undergo training in fire safety and evacuation. The names of the Fire Safety Team members are always in Box office. The members of the Fire Safety Team are periodically trained by a class which certifies them as a Crowd Manager. The fire safety personnel as well as Fire Department, Police, or any government personnel notified in case of emergency are familiar with the fire safety plan, location of exits and the operation of plan.

The Fire Safety Teams will direct evacuations of the tent in any emergency – including fires, high winds, gas leaks, blackouts, bomb threats or any other situation that requires evacuating the tent.

In the event of fire or evacuation, the staff shall ascertain the location of the fire or source of smoke if possible and immediately assume a emergency and notify staff immediately. Fire Safety Director in the tent, when necessary, the tent will be evacuated in accordance with directions from the PA Speaker via phone or the following guidelines:

- a) The most critical area for immediate evacuation is the tent and immediately all audience members in all locations in or near tent. Evacuation from the locations shall be instituted when instructions from the Crowd Control Managers or conditions indicate such action. Evacuation should be via uncontaminated areas. Staff will keep areas vacant being used by the Fire Department. If this is not possible, they shall try to consult Fire Department personnel before entering or relocating.
- b) Crowd Control Managers and staff shall see that all occupants are notified of the fire or other Emergency and those they proceed immediately to execute the Fire Safety or Evacuation Plan.
- c) The Crowd Control Managers on the premises shall, as soon as practicable, notify the Fire Department and 9-1-1 Station of the particulars of the emergency.
- d) The Crowd Control Managers, shall, execute the Fire Safety Plan and notify the Fire Department of the means being used for evacuation and any other particulars.
- e) In the event that exits are affected by fire or above are unusable due to a contamination or cut off by fire and/or smoke, or that several exits fire involving large numbers of occupants must be evacuated, The accordance with directions from Fire Department and local police will be followed.
- f) Although the tent uses detection system with emergency backup power, Cirque Italia staff member makes rounds several times a day to manually check for fires and smoke conditions.
- g) Fire safety teams will wear fluorescent green vest during an emergency. They will also have flashlights and portable radios to communicate with the emergency control director.

E. DISABLED EMPLOYEES OR PUBLIC

1. It is each Crowd Control Managers responsibility to periodically meet with staff to discuss any employees or number of disabled public attendees who needs assistance during an evacuation because of physical disability.

Fire Teams are responsible for maintaining an updated list of such personnel or public and to assign "buddies" to assist during an evacuation. Advance plans must be worked out between the Crowd Control Managers and the individual.

2. With the assistance of the designated Crowd Control Manager or co-worker, a disabled audience member or employee

should proceed to the ramp exit if assemble to assure safe exit and await assistance by authorized personnel.

3. If exits are determined to be unusable, you will be so informed over the PA System or radio handsets System or by Crowd Control Managers, and you will either be met by Emergency Personnel or your assigned helper, and they will assist you to the nearest exit and the nearest safe assembly area.

4. Crowd Control Manager teams will be trained in the use of this equipment and will have authority to use them. The disabled people will need to be sure they are assistance and can walk with the help of Cirque Italia staff or personnel.

High Wind Action Plan:

Team Leader Designation: Edmundo Cortes/Drew Aslesen

In the case of a High Winds of more than 55mph, Edmundo Cortes & Drew Aslesen will start to Evacuate the tent by notifying the staff that will assist in this measure. The general public will be notified by overhead sound speaker from my sound crew which has a headset on to easily notify them without sound conflict.

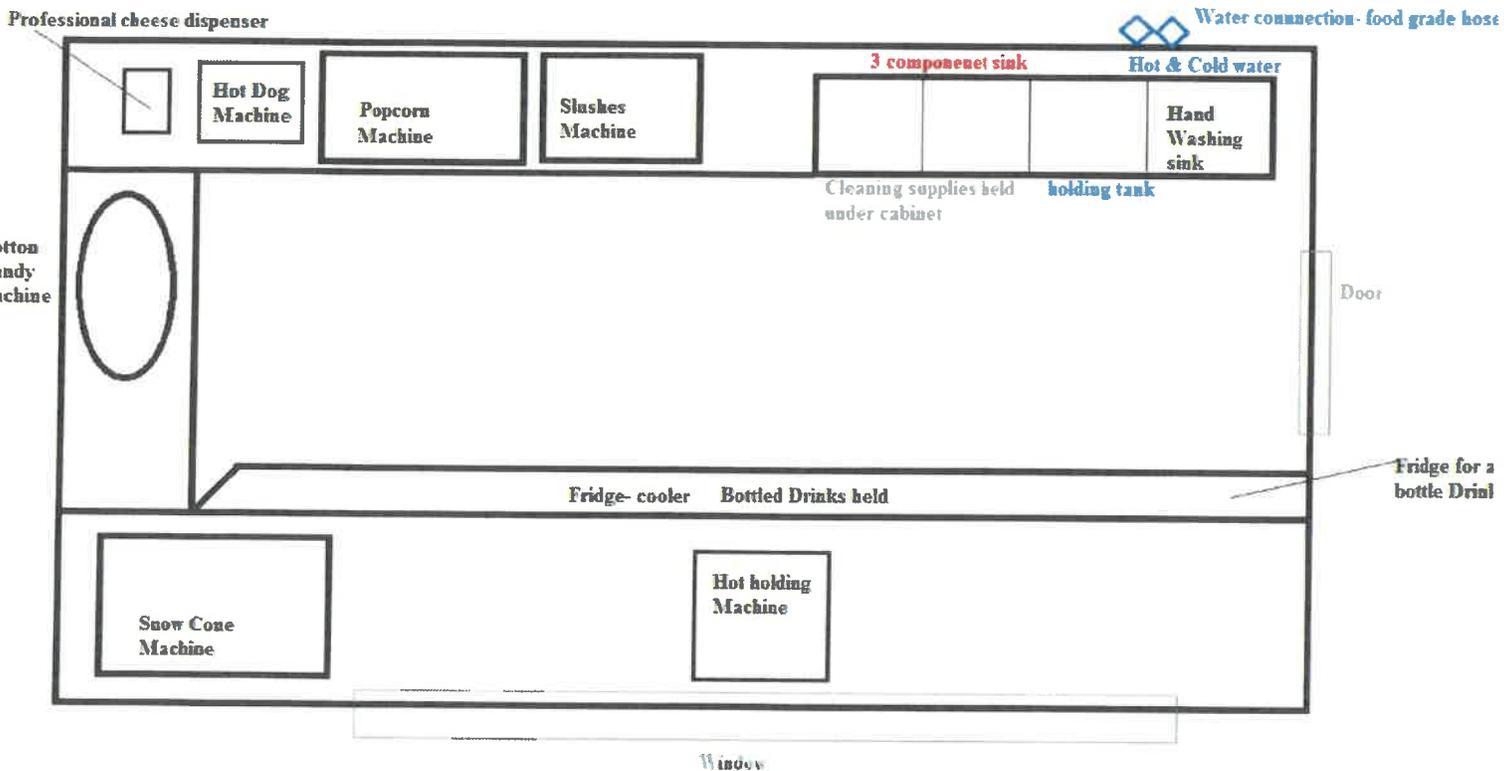

The public will hear the following instructions:

“Please listen to following instructions: WE ARE REQUESTING IMMEDIATE EVACUATION. PLEASE LEAVE AT THE NEAREST EXIT WHERE YOU ARE LOCATED. THERE ARE SEVEN EXITS IN THE TENT. WE ASK TO WALK AND NOT RUN TO THE EXIT WHICH LEADS OUTSIDE OF THE TENT TO SAFETY. THERE ARE USHERS WITH CIRQUE ITALIA SHIRTS THAT WILL HELP ASSIST YOU. “

The ushers at every seven exits will then assist audience out of both tents safely by communicating a safe location away from structure of tent. All staff will have handheld devices to communicate clear and quickly in the case of emergency exit. Staff will have clothing that is easily identified from general public with flashlights.

The emergency Exit signs will be on if this situation were to occur. All staff leaders are certified in Crowd manager certificates as well.

The staff will all leave tent and tent boss will oversee tent structure in determining if it is safe to disassemble or remove from site due to severity of weather. The installation of wind monitoring devices will help determine the extent that Cirque Italia staff will decide in either removal of tent or evacuate all personnel from premises to safety.
