Attention: Dennis Wokurka

Re: Dry Pipe Valve Replacement

Mr. Wokurka:

Per your request and our visit to the site we are pleased to quote the following price for work to be performed at the Orland Park Cultural Center in Orland Park, Illinois.

New Dry Pipe Valve:

\$4,430.00

Provide labor to disconnect and remove the existing 4" dry pipe valve and trim.

Provide labor and material to install a new 4" Viking dry pipe valve with trim.

Trip Test:

ADD \$980.00 "NTE"

Provide a trip test of the new valve once installation has been completed. This is a 'not to exceed' price for the test which includes up to 8 hours of labor. We will bill only the time used for the test.

For clarification, our price does not include:

1. Overtime.
2. Review fees/Permit fees/Sales Tax.
3. Repairs to existing system other than stated above.
4. Electrical work.
5. New compressor.
6. Engineering/shop drawings.

Thank you for requesting our quotation. We look forward to working with you on this project.

Very Truly Yours,

Charlie Hrebic, Jr.
Fire Protection Company
