Mad Bomber Fireworks is in its thirty third year of producing professional fireworks displays. In the beginning we quickly earned the reputation as someone who catered to smaller customers that other fireworks companies would dictate terms to. We would not lose customers once we had them. It was always going above and beyond the call of duty that we were able to compete with the big family companies that dominated the fireworks industry and had the benefit of generations of loyal customers. We approached growth cautiously while not losing sight of what had put us above the crowd for our clients. Today we produce around 500 displays a year throughout the Midwest.

We produce traditional, electric fired, choreographed to music, computer fired, indoor and close proximity displays. We have eight full time employees. Summer have another ten to twelve college students who work. Near Forth of July we again ramp up for our displays with 400-500 workers producing displays throughout the Midwest.

Andrew James, President. Started Mad Bomber Fireworks in 1991. He started the company do to his love for fireworks. He has produced thousands of displays over the years. He has grown Mad Bomber Fireworks into the premiere display company in the Midwest.

Randy McCasland, Director of Operations. He had his start working with his dad on displays at a young age. He has been lead on well over a thousand displays throughout fourteen states. Randy has designed, produced and worked on displays for professional baseball, professional basketball, concerts, towns, cities, festivals, and special events.

Randy will be the contact person for any qeustions concerning contract negotiations and display design. He will produce the sound track and choreography of fireworks to the music. He will make sure all necessary permit paperwork is turned in and permits are approved.

There will be one of our experience Illinois licensed operators in charge of display the day of the show. They will have a minimum of five years experience and has the knowledge to produce a pyro-musical display. They will follow all safety procedures and understand all products. They will work with the Village and Fire Department to give the people of Orland the very best in pyrotechnic entertainment.

All assistants will be registered with the State Fire Marshal's office.

Mad Bomber Fireworks understanding of said "Scope of Work" is as follows: to provide a high-quality pyro-musical display with creativity and variety at said location for the maximum enjoyment for the spectators of The Village of Orland Park. The total proposed contract price is \$50,000.00 per year for three years.

ON SITE SAFETY INSTRUCTIONS

Rules must be adhered to on each and every site.

EMERGENCY CONTACT INFORMATION:

MAIN OFFICE- 219-393-5051

CHEMTEL: 800-255-3924 CONTRACT#MIS0005800

All PERSONS on site MUST be at least 18 years or older. NO EXCEPTIONS.

Once a show is delivered to a site.. it shall NEVER be left unattended. Site security should be properly maintained at all times.

EMERGENCY ACTION PLAN: Upon arriving on the display site, the Operator is to devise an EAP- Emergency Action Plan for the display. Prior to setting up any equipment, the Operator is to communicate the plan to all other workers. Each display will have its own site-specific plan due to locale and geographic features. The EAP must include the following:

- . Emergency escape routes away from the display fireworks
- . A safe location away from the fireworks to account for all workers
- . A plan to notify emergency personnel and whom will direct them to the site.
- . Instruct all workers on the location of emergency response information and MSDS

right to know information.

This plan may be given verbally, and Operator shall confirm each worker understands.

FIRE AND EXPLOSION HAZARD DATA

Do not attempt to fight fire in vicinity of Special Fireworks – Evacuate Areas. Evacuate fire area immediately and seek shelter. Follow established emergency action plan. Fireworks may mass explode in a fire situation.

NO SMOKING OR OPEN FLAME- smoking, open flame, smoking materials (ie. lighters, matches) are forbidden in the loading or un-loading and display areas. No smoking signs may be posted in a conspicuous area upon set up of site. A minimum of 25' in all directions, from the perimeter surrounding the site is to be maintained as non-smoking.

LOADING AND UNLOADING:

- .Vehicle engine must not be running, and hand brake must be set.
- .No smoking, open flame or source of static discharge shall be allowed, ie. cell phones, pagers, lighters, etc.
- .Boxes must **NEVER** be thrown, slid or dropped. Be especially careful when boxes contain fireworks with igniters attached.
- . Never use bale hooks or other metal tools to load or unload boxes of explosives.

SAFETY EQUIPMENT AND CLOTHING: Non-synthetic clothing must always be worn. This prevents the possibility of static build-up and discharge, as well as the possibility of material 'melting' on to the skin in the event of hot fall-out or fire. After set-up of site, pants must be worn, no shorts. Eye protection, ear protection and closed toe shoes are required. Hats or head coverings should be used to protect the head, but must not impede your vision, or 'contain' the force of a blast in the event of spontaneous explosion.

ASSURE PROPER INSTALLATION AND SET UP OF SITE:

All mortar boxes, racks and drums shall be properly installed on each show.

Maintaining a safe Display Site is top priority. These reminders, along with your training, should assist you in performing a safe and spectacular show. If you have any questions, address the Operator right away.

Safety Data Sheet

acc. to OSHA HCS (29 CFR 1910.1200)

Printing date: 01/06/2017

Revision: 01/06/2017

1 Identification

· **Product identifier** FIREWORKS, DIVISION 1.3 EXPLOSIVE

· **Trade name:**

· **Product code:**

· **Recommended use and restriction on use**

· **Recommended use:** Explosive product for professional use for entertainment and technical purposes

· **Restrictions on use:** Contact manufacturer/supplier

· **Details of the supplier of the Safety Data Sheet**

· **Manufacturer/Supplier:**

· **Emergency telephone number:**

ChemTel Inc.

(800)255-3924, +1 (813)248-0585

2 Hazard(s) identification

· **Classification of the substance or mixture**

Expl. 1.3 H203 Explosive; fire, blast or projection hazard.

· **Label elements**

· **GHS label elements**

The product is classified and labeled according to the Globally Harmonized System (GHS).

· **Hazard pictograms:**

GHS01

· **Signal word:** Danger

· **Hazard statements:**

H203 Explosive; fire, blast or projection hazard.

· **Precautionary statements:**

P210 Keep away from heat/sparks/open flames/hot surfaces. No smoking.

P250 Do not subject to grinding/shock/friction.

P280 Wear protective gloves/protective clothing/eye protection/face protection.

P373 DO NOT fight fire when fire reaches explosives.

P370+P380 In case of fire: Evacuate area.

P372 Explosion risk in case of fire.

(Cont'd. on page 2)

Safety Data Sheet

acc. to OSHA HCS (29 CFR 1910.1200)

Printing date: 01/06/2017

Revision: 01/06/2017

Trade name:

P401 Store in accordance with local/regional/national/international regulations.
P501 Dispose of contents/container in accordance with local/regional/national/international regulations.

(Cont'd. of page 1)

· **Other hazards** There are no other hazards not otherwise classified that have been identified.

· **Explosive Product Notice**

PREVENTION OF ACCIDENTS IN THE USE OF EXPLOSIVES - The prevention of accidents in the use of explosives is a result of careful planning and observance of the best known practices. The explosives user must remember that he is dealing with a powerful force and that various devices and methods have been developed to assist him in directing this force. He should realize that this force, if misdirected, may either kill or injure both him and his fellow workers.

WARNING - All explosives are dangerous and must be carefully handled and used following approved safety procedures either by or under the direction of competent, experienced persons in accordance with all applicable federal, state, and local laws, regulations, or ordinances. If you have any questions or doubts as to how to use any explosive product, DO NOT USE IT before consulting with your supervisor, or the manufacturer, if you do not have a supervisor. If your supervisor has any questions or doubts, he should consult the manufacturer before use.

3 Composition/information on ingredients

· **Chemical characterization: Mixtures**

· **Components:**

Components for product possessing only physical hazards do not require reporting. These components are considered proprietary.

4 First-aid measures

· **Description of first aid measures**

· **General information:**

Information is only applicable to product contents, and not to product as normally supplied. This information is applicable to damaged, leaking, or spilled product as contact with contents is possible under these conditions.

· **After inhalation:** Supply fresh air; consult doctor in case of complaints.

· **After skin contact:**

Wash with soap and water.

In case of minor burns, flush with cool water.

If skin irritation is experienced, consult a doctor.

· **After eye contact:**

Remove contact lenses if worn.

Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor.

· **After swallowing:**

Unlikely route of exposure.

Do not induce vomiting; immediately call for medical help.

(Cont'd. on page 3)

Safety Data Sheet

acc. to OSHA HCS (29 CFR 1910.1200)

Printing date: 01/06/2017

Revision: 01/06/2017

Trade name:

(Cont'd. of page 2)

- **Most important symptoms and effects, both acute and delayed:**
Blast injury if mishandled.
Thermal burns, if mishandled.
- **Danger:** Danger of blast or crush-type injuries.
- **Indication of any immediate medical attention and special treatment needed:**
Product may produce physical injury if mishandled. Treatment of these injuries should be based on the clinical presentation.

5 Fire-fighting measures

- **Extinguishing media**
- **Suitable extinguishing agents:**
DO NOT fight fire when fire reaches explosives.
Flood area with water. If no water is available, carbon dioxide, dry chemical or earth may be used. If the fire reaches the cargo, withdraw and let fire burn.
- **For safety reasons unsuitable extinguishing agents:** None.
- **Special hazards arising from the substance or mixture**
Explosive; fire, blast or projection hazard.
During heating or in case of fire poisonous gases are produced.
- **Advice for firefighters**
- **Protective equipment:**
Wear self-contained respiratory protective device.
Wear fully protective suit.
- **Additional information:**
Eliminate all ignition sources if safe to do so.
In case of fire: Evacuate area. Fight fire remotely due to the risk of explosion.
Cool endangered receptacles with water spray.
Flammability Classification: (defined by 29 CFR 1910.1200) Explosive. Can explode under fire conditions. Individual devices will randomly explode. Mass explosion of multiple devices is possible under certain conditions. Burning material may produce toxic and irritating vapors. In unusual cases, shrapnel may be thrown from exploding devices under containment. See 2012 Emergency response Guidebook for further information.

6 Accidental release measures

- **Personal precautions, protective equipment and emergency procedures**
Wear protective equipment. Keep unprotected persons away.
Remove persons from danger area.
Ensure adequate ventilation.
Isolate area and prevent access.
- **Environmental precautions**
Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system.
- **Methods and material for containment and cleaning up**
Pick up mechanically.

Send for recovery or disposal in suitable receptacles.

- **Reference to other sections**

See Section 7 for information on safe handling.

See Section 8 for information on personal protection equipment.

See Section 13 for disposal information.

7 Handling and storage

- **Handling**

- **Precautions for safe handling:**

Handle with care. Avoid jolting, friction and impact.

Restrict the quantity stored at the work place.

Keep out of reach of children.

- **Information about protection against explosions and fires:**

In case of fire: Evacuate area.

Explosion risk in case of fire.

Keep away from sparks and open flames. - No smoking.

Emergency cooling must be available in case of nearby fire.

- **Conditions for safe storage, including any incompatibilities**

- **Storage**

- **Requirements to be met by storerooms and receptacles:**

Avoid storage near extreme heat, ignition sources or open flame.

- **Information about storage in one common storage facility:**

Store in accordance with local/regional/national/international regulations.

Store away from foodstuffs.

Store away from flammable substances.

- **Further information about storage conditions:**

Store in cool, dry conditions in well sealed receptacles.

Store locked up.

- **Specific end use(s)** No relevant information available.

8 Exposure controls/personal protection

- **Control parameters**

- **Components with limit values that require monitoring at the workplace:**

The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace.

- **Exposure controls**

- **Personal protective equipment:**

- **General protective and hygienic measures:**

The usual precautionary measures for handling chemicals should be followed.

Keep away from foodstuffs, beverages and feed.

Wash hands before breaks and at the end of work.

- **Engineering controls:** Provide adequate ventilation.

(Cont'd. on page 5)

Safety Data Sheet

acc. to OSHA HCS (29 CFR 1910.1200)

Printing date: 01/06/2017

Revision: 01/06/2017

Trade name:

(Cont'd. of page 4)

- **Breathing equipment:** Not required under normal conditions of use.
- **Protection of hands:** When needed, wear gloves for protection against mechanical hazards.
- **Eye protection:**

Safety glasses

Follow relevant national guidelines concerning the use of protective eyewear.

- **Body protection:** When needed, wear protective clothing for protection against mechanical hazards.
- **Limitation and supervision of exposure into the environment**
No relevant information available.
- **Risk management measures**
Organizational measures should be in place for all activities involving this product.

9 Physical and chemical properties

· Information on basic physical and chemical properties

- | | |
|---|--|
| · Appearance: | |
| Form: | Outer shell containing powder, granular, or solid materials. |
| Color: | According to product specification |
| · Odor: | Odorless |
| · Odor threshold: | Not determined. |
| · pH-value: | Not applicable. |
| · Melting point/Melting range: | Not determined. |
| · Boiling point/Boiling range: | Not determined. |
| · Flash point: | Not applicable. |
| · Flammability (solid, gaseous): | Fire or projection hazard. |
| · Auto-ignition temperature: | Not determined. |
| · Decomposition temperature: | Not determined. |
| · Danger of explosion: | Heating may cause an explosion. |
| · Explosion limits | |
| Lower: | Not determined. |
| Upper: | Not determined. |
| · Vapor pressure: | Not applicable. |
| · Density: | Not determined. |
| · Relative density: | Not determined. |
| · Vapor density: | Not applicable. |
| · Evaporation rate: | Not applicable. |

(Cont'd. on page 6)

Safety Data Sheet

acc. to OSHA HCS (29 CFR 1910.1200)

Printing date: 01/06/2017

Revision: 01/06/2017

Trade name:

(Cont'd. of page 5)

- | | |
|---|------------------------------------|
| · Solubility in / Miscibility with Water: | Insoluble. |
| · Partition coefficient (n-octanol/water): | Not determined. |
| · Viscosity | |
| Dynamic: | Not applicable. |
| Kinematic: | Not applicable. |
| · Other information | No relevant information available. |

10 Stability and reactivity

- **Reactivity:** No relevant information available.
- **Chemical stability:**
- **Thermal decomposition / conditions to be avoided:** Risk of explosion if heated under confinement.
- **Possibility of hazardous reactions**
Explosive; fire, blast or projection hazard.
Toxic fumes may be released if heated above the decomposition point.
Reacts with strong acids and alkali.
- **Conditions to avoid**
Excessive heat.
Sources of ignition: sparks, open flame, incompatible materials
- **Incompatible materials** Oxidizers, strong bases, strong acids
- **Hazardous decomposition products**
Carbon monoxide and carbon dioxide
Nitrogen oxides
Sulfur oxides (SO_x)

11 Toxicological information

- **Information on toxicological effects**
- **Acute toxicity:**
- **LD/LC50 values that are relevant for classification:** None.
- **Primary irritant effect:**
- **On the skin:**
Not a skin irritant in unused form. Vapors/particles from used product are possibly irritating to skin.
- **On the eye:**
Not an eye irritant in unused form. Vapors/particles from used product are possibly irritating to eyes.
- **Sensitization:** Based on available data, the classification criteria are not met.
- **Carcinogenic categories**

· IARC (International Agency for Research on Cancer):
--

None of the ingredients are listed.

(Cont'd. on page 7)

Safety Data Sheet

acc. to OSHA HCS (29 CFR 1910.1200)

Printing date: 01/06/2017

Revision: 01/06/2017

Trade name:

(Cont'd. of page 6)

· **NTP (National Toxicology Program):**

None of the ingredients are listed.

· **OSHA-Ca (Occupational Safety & Health Administration):**

None of the ingredients are listed.

· **Probable route(s) of exposure:**

Skin contact.

Eye contact.

Inhalation.

· **Acute effects (acute toxicity, irritation and corrosivity):**

Danger of blast or crush-type injuries.

Risk of thermal burns.

· **Repeated dose toxicity:** From product as supplied: None.· **CMR effects (carcinogenicity, mutagenicity and toxicity for reproduction)**· **Germ cell mutagenicity:** Based on available data, the classification criteria are not met.· **Carcinogenicity:** Based on available data, the classification criteria are not met.· **Reproductive toxicity:** Based on available data, the classification criteria are not met.· **STOT-single exposure:** Based on available data, the classification criteria are not met.· **STOT-repeated exposure:** Based on available data, the classification criteria are not met.· **Aspiration hazard:** Based on available data, the classification criteria are not met.

12 Ecological information

· **Toxicity**· **Aquatic toxicity** No relevant information available.· **Persistence and degradability** No relevant information available.· **Bioaccumulative potential:** May be accumulated in organism· **Mobility in soil:** No relevant information available.· **Other adverse effects** No relevant information available.

13 Disposal considerations

· **Waste treatment methods**· **Recommendation:**

Must not be disposed of together with household garbage. Do not allow product to reach sewage system. Incinerate in accordance with local, state and federal regulations.

The user of this material has the responsibility to dispose of unused material, residues and containers in compliance with all relevant local, state and federal laws and regulations regarding treatment, storage and disposal for hazardous and nonhazardous wastes. Residual materials should be treated as hazardous.
