Such streets must be cleaned at least once a week, and more often if required by Village in its sole judgment. For each day that the streets are not cleaned as required hereunder during construction, Developer shall be subject to a fine as provided in the Land Development Code. If any such fine is not promptly paid, the Village shall have the right to stop any and all further construction until paid.

All interior streets to be located on the Subject Property shall be privately owned and perpetually maintained by the Owner and its successors in title.

With Developer's cooperation the Village will create a "fall back" or "dormant" Special Service Area pursuant to the Special Service Area Tax Law (35 ILCS 200/27-5, et seq.) to cover the Subject Property for the future maintenance, repair and replacement of the storm water detention and management facilities, private streets, sidewalks and street lights, if said maintenance, repair and replacement are not performed in accordance with the Code and Village Code by Developer, its successors in title or a Homeowners Association formed for such purposes. Developer will waive any statutory objections to the formation of said Special Service Area and will consent to the proposed future tax levy required for such maintenance, repair and replacement. Developer will provide, by recorded covenants, conditions, easements or other

appropriate recordable documents, for all necessary cross access and shared maintenance among future lot or property owners, including necessary access easements for the Village, in order to maintain, repair and replace the storm water detention and management facilities, private streets, sidewalks and street lights.

SECTION NINE: Developmental Codes and Ordinances and General Matters.

Except to the extent modified by the terms of this Agreement and the Village Ordinance granting a Special Use for a Planned Development, the development of the Subject Property, and of each lot respectively encompassed by this Agreement shall be in accordance with the existing building, zoning, subdivision, storm water retention and other developmental codes and ordinances of the Village as they exist on the date each respective permit for development of each lot is issued. Planning and engineering designs and standards, and road construction and dedication of public improvements, shall be in accordance with the then existing ordinances of the Village or in accordance with the statutes and regulations of other governmental agencies having jurisdiction thereof if such standards are more stringent than those of the Village of Orland Park at such time. Notwithstanding the foregoing, the dollar amounts for the contributions set forth in Section Two above shall not be increased during the term of this Agreement; however, all other fees, etc. set forth under the various ordinances of the Village shall be paid by the Developer at the rate set forth in the Village ordinances at the time each permit is issued.

No occupancy permit shall be issued for any building prior to the completion and approval by the Village Engineer of the required public improvements, except for the final surface course of pavement for the streets, street lights and landscaping. The Village will not finally accept any public improvements until after the final surface course of asphalt has been placed on the public streets. Provided, however, the construction and installation of the public improvements, including grading, to be done by Developer may be commenced at any time following MWRD approval and after Developer has delivered to Village a subdivision improvement/performance bond, in a form satisfactory to, and from a bank or other financial institution approved by, the Village in the amount of 132% of the Developer's Engineer's estimate of the cost of construction and installation of all such improvements as approved by the Village Engineer, or 110% of actual construction contract costs, including all required lighting, streets and street lights, sidewalks, landscaping, street trees, sewer and water lines and storm water management facilities both public and private. The Village Engineer may, in his

discretion, permit the amount of said subdivision improvement/performance bond to be reduced, from time to time, as major public improvements are completed.

All public and private improvements, subject to weather conditions, and not including the final lift (course) of street pavement and common area landscaping, shall be constructed and installed within three (3) years from the date of approval of the final Plat of Subdivision; however, if the completion date falls after September 30th, the date shall be the following May 30th. Further, no earthwork shall be done in any area tentatively identified as wetlands until an appropriate permit or permission has been obtained and such permit or permission is shown to the Village. The final Plat(s) of Subdivision shall contain such restrictive covenants, drainage covenants and easement provisions as are or were required by the President of the Board of Trustees as a condition to approval of the Plat(s) of Subdivision.

Developer, at Developer's own cost, agrees to provide the Village "as built" engineering plans and specifications upon substantial completion of the public and private improvements or at the request of the Village Engineer but in no event later than the time required by Ordinance No. 2084.

It is agreed that all of the public improvements contemplated and described in this Agreement shall upon acceptance thereof by the Village, become the property of Village and be integrated with the municipal facilities now in existence or hereafter constructed and Village thereafter agrees to maintain said public improvements. Acceptance of said public improvements shall be by resolution of the President and Board of Trustees only after the Village Engineer or Village Engineer Consultant has issued his Certificate of Inspection affirming that the improvements have been constructed in accordance with approved Engineering Plans and Specifications. The terms and conditions of this Agreement relative to the payment of monies to the various contributions to the Village, construction and/or dedication of public improvements, granting of easements to the Village, dedication of rights-of-way to the Village and the developmental standards established herein shall constitute covenants which shall run with the land.

In addition, the Village, after providing Developer with 10 days advance written notice, shall have the right to draw upon the subdivision improvement/performance bond provided for in this Agreement to relocate or remove any dirt stock pile which results from the development should they not be placed in an approved location or if the pile is causing a storm water drainage problem, or should it not be permitted to remain beyond the time period specified by the Village; provided, however, that the Village will not draw upon the subdivision improvement/performance bond if Developer relocates or removes the stock piles as directed by the Village within the 10 day notice period.

SECTION EIGHTEEN: Reimbursement of Village for Legal and Other Fees and Expenses.

A. To Effective Date of Agreement.

The Developer, concurrently with annexation and zoning of the property or so much thereof as required, shall reimburse the Village for the following expenses incurred in the preparation and review of this Agreement, and any ordinances, letters of credit, plats, easements or other documents relating to the Subject Property:

Such costs and expenses incurred by Village in the administration of the Agreement shall be evidenced to the Developer upon its request, by a sworn statement of the Village; and such costs and expenses may be further confirmed by the Owner at its option from additional documents relevant to determining such costs and expenses as designated from time to time by the Developer.

Notwithstanding the immediately preceding paragraph, Developer shall in no event be required to reimburse Village or pay for any expenses or costs of Village as aforesaid more than once, whether such are reimbursed or paid through special assessment proceedings, through fees established by Village ordinances or otherwise.

In the event that any third party or parties institute any legal proceedings against the Developer and/or the Village, which relate to the terms of this Agreement, then, in that event, the Developer, on notice from Village shall assume, fully and vigorously, the entire defense of such lawsuit and all expenses of whatever nature relating thereto; provided, however:

1. Developer shall not make any settlement or compromise of the lawsuit, or fail to pursue any available avenue of appeal of any adverse judgment, without the approval of the Village.

2. If the Village, in its sole discretion, determines there is, or may probably be, a conflict of interest between Village and Developer, on an issue of importance to the Village having a potentially substantial adverse effect on the Village, then the Village shall have the option of being represented by its own legal counsel. In the event the Village exercises such option, then Developer shall reimburse the Village from time to time on written demand from the President of Village and notice of the amount due for any expenses, including but not limited to court costs, reasonable attorneys' fees and witnesses' fees, and other expenses of litigation, incurred by the Village in connection therewith.

Developer or Village may, in its sole discretion, appeal any such judgment rendered in favor of the other party.

SECTION TWENTY-ONE: No Waiver or Relinquishment of Right to Enforce Agreement.

Failure of any party to this Agreement to insist upon the strict and prompt performance of the terms, covenants, agreements, and conditions herein contained, or either of them, upon any other party imposed, shall not constitute or be construed as a waiver or relinquishment of any party's right thereafter to enforce any such term, covenant, agreement or condition, but the same shall continue in full force and effect.

SECTION TWENTY-TWO: Village Approval or Direction.

Where Village approval or direction is required by this Agreement, such approval or direction means the approval or direction of the Corporate Authorities of the Village unless otherwise expressly provided or required by law, and any such approval may be required to be given only after and if all requirements for granting such approval have been met unless such requirements are inconsistent with this Agreement.
