### SECTION 3

In addition to the findings set forth in Section 1 hereof, this Board of Trustees further finds, in relation to the proposed special use permit for a public utility structure located less than 25 feet from a lot line as follows:

- A. The Subject Property contains approximately 9.83 acres and is located within the Village of Orland Park in Cook County, Illinois, at 10609 163rd Place. The Subject Property is of the type contemplated in Section 6-204 of the Land Development Code and is developed in accordance with a site plan best suited for the Subject Property. The property currently contains the Police Department's Firing Range and Emergency Operations Center, completed in 2025. The Petitioner proposes to install a new 80-foot lattice-style wireless communication tower in the west parking lot of the facility. The proposed tower will be located within the secure, fenced impound area and exceeds the required 500-foot separation from the nearest residential property.
- B. The proposed use of the Subject Property is consistent with the purposes, goals, objectives, and standards of the Comprehensive Plan, any adopted overlay plan, and the Land Development Code. The Comprehensive Plan designates the site within the Centennial Planning District with a Manufacturing–Employment Emphasis land use designation, which supports light industrial, public service, and utility functions such as the proposed facility.
- C. The proposed special use will be consistent with the character of the immediate vicinity of the Subject Property. The surrounding area includes light industrial uses to the north and west, open space to the east, and outdoor storage uses to the south. The facility is located in a secure area and designed to minimize visibility and impacts on adjacent properties.
- D. The proposed use of the Subject Property creates no adverse effects, including visual impacts, on adjacent properties. The tower's lattice design and neutral color minimize visual impact from surrounding areas, and the existing fencing and landscaping provide additional screening. The proposed special use will not adversely affect the value of adjacent property.
- E. The Petitioner has demonstrated that public facilities and services, including but not limited to roadways, utilities, police and fire protection, and drainage systems, are capable of serving the special use at an adequate level of service. Adequate measures have been taken to provide ingress and egress designed to minimize traffic conflicts within the facility.
- F. Petitioner has made adequate legal provision to guarantee the provision and preservation of all open spaces designated on the site plan and other improvements associated with the special use.
- G. The proposed use will not adversely affect a known archaeological, historical or cultural resource.

H. The proposed special use shall comply with all additional standards imposed on it by all other applicable requirements of the ordinances of the Village.
