EQUAL EMPLOYMENT OPPORTUNITY

Section I. This EQUAL EMPLOYMENT OPPORTUNITY CLAUSE is required by the Illinois Human Rights Act and the Rules and Regulations of the Illinois Department of Human Rights published at 44 Illinois Administrative Code Section 750, et seq.

Section II. In the event of the Contractor's noncompliance with any provision of this Equal Employment Opportunity Clause, the Illinois Human Right Act, or the Rules and Regulations for Public Contracts of the Department of Human Rights (hereinafter referred to as the Department) the Contractor may be declared non-responsible and therefore ineligible for future contracts or subcontracts with the State of Illinois or any of its political subdivisions or municipal corporations, and this agreement may be canceled or avoided in whole or in part, and such other sanctions or penalties may be imposed or remedies involved as provided by statute or regulation.

During the performance of this Agreement, the Contractor agrees:

- A. That it will not discriminate against any employee or applicant for employment because of race, color, religion, sex, national origin or ancestry; and further that it will examine all job classifications to determine if minority persons or women are underutilized and will take appropriate affirmative action to rectify any such underutilization.
- B. That, if it hires additional employees in order to perform this Agreement, or any portion hereof, it will determine the availability (in accordance with the Department's Rules and Regulations for Public Contracts) of minorities and women in the area(s) from which it may reasonably recruit and it will hire for each job classification for which employees are hired in such a way that minorities and women are not underutilized.
- C. That, in all solicitations or advertisements for employees placed by it or on its behalf, it will state that all applicants will be afforded equal opportunity without discrimination because of race, color, religion, sex, marital status, national origin or ancestry, age, or physical or mental handicap unrelated to ability, or an unfavorable discharge from military service.
- D. That it will send to each labor organization or representative of workers with which it has or is bound by a collective bargaining or other agreement or understanding, a notice advising such labor organization or representative of the Contractor's obligations under the Illinois Human Rights Act and Department's Rules and Regulations for Public Contract.
- E. That it will submit reports as required by the Department's Rules and Regulations for Public Contracts, furnish all relevant information as may from time to time be requested by the Department or the contracting agency, and in all respects comply with the Illinois Human Rights Act and Department's Rules and Regulations for Public Contracts.
- F. That it will permit access to all relevant books, records, accounts and work sites by

personnel of the contracting agency and Department for purposes of investigation to ascertain compliance with the Illinois Human Rights Act and Department's Rules and Regulations for Public Contracts.

G. That it will include verbatim or by reference the provisions of this Equal Employment Opportunity Clause in every subcontract it awards under which any portion of this Agreement obligations are undertaken or assumed, so that such provisions will be binding upon such subcontractor. In the same manner as the other provisions of this Agreement, the Contractor will be liable for compliance with applicable provisions of this clause by such subcontractors; and further it will promptly notify the contracting agency and the Department in the event any subcontractor fails or refuses to comply therewith. In addition, the Contractor will not utilize any subcontractor declared by the Illinois Human Rights Department to be ineligible for contracts or subcontracts with the State of Illinois or any of its political subdivisions or municipal corporations.

Section III. For the purposes of subsection G of Section II, "subcontract" means any agreement, arrangement or understanding, written or otherwise, between the Contractor and any person under which any portion of the Contractor's obligations under one or more public contracts is performed, undertaken or assumed; the term "subcontract", however, shall not include any agreement, arrangement or understanding in which the parties stand in the relationship of an employer and an employee, or between a Contractor or other organization and its customers.

Product Description

Diesel You Can Count On - Whether you're a distributor, a fleet operator or an everyday driver, our diesel fuels are blended to provide you with good ignition quality and good fuel economy. Plus, our low-temperature fluidity characteristics help keep your vehicle moving in the Winter.

We provide two quality grades each of Low Sulfur Diesel and Ultra Low Sulfur Diesel fuel. Each is produced and held up to the highest standards for you and your vehicle.

Our diesel fuels are also available to commercial and industrial accounts through a variety of sales channels, including bulk delivery.

For diesel-fueled vehicles, you'll be glad to know we are as dedicated to the quality of our diesel as we are to our gasolines. That's why we develop diesel fuels for engines that:

- Provide energy for power
- Provide good fuel economy
- Allow easy start-up
- Flow readily in cold temperatures
- Protect the fuel delivery system
- Provide low emissions

You'll find one of our diesel fuels at many service stations across the United States, and you can be confident that they will perform to meet your needs – as well as your expectations.

Ultra Low Sulfur Diesel Fuel No. 1

Our Ultra Low Sulfur Diesel Fuel No. 1 is usually used as a blending component to winterize the No. 2-D grade. This is the fuel you should use if you live in an area with abnormally low temperature conditions. Compared to the No. 2-D grade, our Ultra Low Sulfur Diesel No. 1 has a lower viscosity, and generally provides higher cetane number and better low-temperature operability for your vehicle. The sulfur content of ULSD No. 1 is 15 parts per million (ppm) maximum.

Low Sulfur Diesel Fuel No. 1

Low Sulfur Diesel Fuel No. 1 is similar to the Ultra Low Sulfur Diesel Fuel No. 1 except that its sulfur content is higher than 15 ppm. This diesel fuel must not be used in 2007 model year and newer vehicles/engines. Ultra Low Diesel Fuel No. 1 must be used in those vehicles/engines.

Ultra Low Sulfur Diesel Fuel No. 2

Our Ultra Low Sulfur Diesel Fuel No. 2 was formulated to be used by any diesel-fueled vehicle on the road today – including yours. Compared to the No. 1-D grade, our Low Sulfur Diesel No. 2 provides higher fuel economy, power, flash point, viscosity and lubricity for your vehicle. ULSD No. 2 must be used in 2007 model year and newer vehicles/engines to protect the performance of the emission controls.

Low Sulfur Diesel Fuel No. 2

Low Sulfur Diesel Fuel No. 1 is similar to the Ultra Low Sulfur Diesel Fuel No. 2 except that its sulfur content is higher than 15 ppm. This diesel fuel must not be used in 2007 model year and newer vehicles/engines. Ultra Low Diesel Fuel No. 2 must be used in those vehicles/engines.

For You, Your Vehicle And The World Around You

In order for your vehicle's diesel engine to start easily, the fuel must have a sufficiently high cetane number. All of our diesel fuels meet the minimum cetane number requirement of 40 to ensure easy start-up for your vehicle.

Values above this level haven't proven to significantly improve your engine's performance.

And, all of our ULSD and LSD fuels contain lubricity additives to improve protection against wear.

Our commitment to providing you with quality diesel fuel doesn't stop at the refinery. We check the fuel at key points as it is transported through the distribution system to your vehicle.

Product Description

Dedicated to enhance your life on the move, Mobil high-quality fuels are sold worldwide to provide you with the reliable and trusted fuels you've come to expect. Mobil gasolines are specially formulated for each market in which Mobil fuels are sold - including yours.

Mobil quality gasolines are available in three octane grades. All Mobil gasolines provide power, easy startup and help minimize emissions in your vehicles.

Gasolines blended for today's engines are required to:

- Provide energy for power
- Form a combustible mixture
- Ignite readily
- Burn smoothly
- Minimize harmful emissions
- Protect the fuel delivery system

And whenever you fill up at an Mobil service station, you can feel confident that Mobil gasolines will do everything they should do for your vehicle. We have developed three quality gasolines that will perform to the high standards you've come to expect.

Mobil Regular Unleaded - Our most popular gasoline has an octane level of 87 in most areas and is blended with a detergency package that helps keep your vehicle's fuel injectors and intake valves clean when used regularly.

Mobil Special - With an octane level of 89 in most areas, this gasoline was developed to meet the needs of drivers like you with vehicles that can benefit from a fuel with a higher octane.

Mobil Super+ - Formulated to meet the demands of today's engines, it generally has an octane level of 93, but is blended with an octane level of 91 on the West Coast and in some other geographic locations.

You can find out what octane your vehicle's engine needs by checking your owner's manual.

You can be sure Mobil gasolines meet all applicable regulatory standards and ASTM D 4814 in the US. And we go the extra mile by testing them at key points along the way to the service station so the gas you put in your vehicle will work unflinchingly.

Committed to Excellence

Providing you and your vehicle with a high-quality fuel takes more than technical leadership. Quality must first be designed into the fuel. After that, the fuel must be refined and blended properly, and then must be guarded against contamination as it moves through the distribution system. To help ensure your driving satisfaction, we have stringent quality control procedures to help protect Mobil fuels at every step of the process.

You can fill up your vehicle with confidence, knowing that we are also one of the few oil companies in the U.S. that maintains an active research organization dedicated to keeping the gasoline that goes into your vehicle in step with the latest vehicle testing technology. We're always on the lookout for anything that might give Mobil gasolines an extra "edge" for you.

We are committed to providing the highest quality of gasoline for your vehicle. If you have a problem with your vehicle that is related to the quality of our products, we invite you to call our Customer Assistance Center at 1-800-662-4592. Even if you want to ask a question or share a comment about our products or services, feel free to give us a call.
