**Bocce Ball Court removal** **\$4,210.13**

SCOPE OF WORK:

1. Remove existing barrier around court and two benches.
2. Excavate all existing base.
3. Install 4" layer of topsoil and finish grade area.
4. Install tall fescue grass seed with starter fertilizer.
5. Install erosion blanket to protect seeds and control erosion.

**Ground protection matting** **\$945.40**

**PROTECTIVE MATTING**

Ground Protective matting is used to minimize damage to turf areas during excavation. Matting will minimize damage but does not guarantee a 100% of the lawn will not be damaged. Any damage will be the responsibility of the client. Any repairs necessary will have to be authorized by the client and billed separately.
