**Estimate ID:** EST664020  
**Date:** Aug 01, 2017

## Retaining Wall Repair

**\$9,900.00**

Semmer Landscape will repair the retaining wall that has deteriorated over the years.

Semmer will remove the existing wall to check conditions and redo the gravel base while doing that we will excavate a foot in from the sidewalk in and install a drainage pipe next to the wall so the water doesn't stay there and has a place to go we will also install 4 drainage outlets throughout the wall so the water has access to get out and not cause the wall to tilt or fall within time. Geo Textile Fabric will be installed as well to help with drainage. Once the wall is rebuilt we will power wash it all to get all the mold out and make it look like new again.

We will try to use all existing material but in case we need new material there will be an additional cost to this proposal.

15	Each	Grade 8 Limestone - Ton
4	Each	Paver Adhesive - tube
4	4"	Tee - 4" Draintile - 4"
4	4"	Grate Cap - 4" Draintile - 4"
250		Geo Textile Fabric - sq ft,
