WHEREAS, the Plan Commission of this Village has filed its report of findings and recommendations that the requested special use be granted with this President and Board of Trustees, and this Board of Trustees have duly considered said report and findings and recommendations;

NOW THEREFORE, Be It Ordained by the President and Board of Trustees of the Village of Orland Park, Cook and Will Counties, Illinois, as follows:

SECTION 1

The Plan Commission of this Village has made its report of findings and recommendations regarding the proposed special use. The findings of the Plan Commission are herein incorporated by reference as the findings of this President and Board of Trustees, as completely as if fully recited herein at length. All exhibits submitted at the aforesaid public hearings are also hereby incorporated by reference as fully as if attached hereto. This President and Board of Trustees further finds that the proposed special use is in the public good and in the best interests of the Village and its residents and is consistent with and fosters the purposes and spirit of the Orland Park Land Development Code as set forth in Section 1-102 thereof. Said special use is also in accordance with the provisions of the Comprehensive Land Use Plan of the Village.

SECTION 2

In addition to the findings set forth in Section 1 hereof, this Board of Trustees further finds, in relation to the proposed special use permit to establish and operate two (2) medical office buildings in the MFG Manufacturing District, as follows:

(a) The Subject Property is located at 16045 S. 108th Avenue within the Village of Orland Park in Cook County, Illinois. The proposal is to establish and operate two (2) medical office

buildings on Lot 5 of the Southwest Business Center. The Subject Property is zoned MFG Manufacturing District. Two (2) buildings on a lot for one (1) principal use is permitted in the MFG Manufacturing District only via a special use permit pursuant to Section 6-208.C.12.

(b) The proposed development is consistent with the purposes, goals, objectives and standards of the Comprehensive Plan, any adopted overlay plan and the Land Development Code. The Comprehensive Plan designates this area for Office Employment Emphasis. Medical office buildings are appropriate in such an area.

(c) The proposed development will be consistent with the character of the immediate vicinity of the Subject Property, as the property to the north (Century Medical Park I), south (office of MPI Media Group) and east (vacant) are all zoned MFG Manufacturing District. To the west is Century Junior High School zoned LSPD Large Scale Planned Development District.

(d) The design of the development will minimize adverse effects, including visual impacts on adjacent properties. The Subject Property is not proposing any changes to lot coverage or building height. There is adequate provision for parking to support the proposed use. Because the property is neither adjacent to nor facing any residential property, the special use will not negatively impact the neighboring tenants. Finally, there will be no adverse effect on the value of the adjacent property, but rather will bring new development and employment to this area and fill vacant space.

(e) The Petitioner has demonstrated that public facilities and services, including but not limited to roadways, park facilities, police and fire protection, hospital and medical services, drainage systems, refuse disposal, water and sewers and schools will be capable of serving the special use at an adequate level of service. The site is directly accessible from 108th Avenue. The proposed site has sufficient mobility and parking. The proposed special use will not independently impact the public facilities and services affecting the property.

(f) Petitioner has made adequate legal provision to guarantee the provision and development of any open space and other improvements associated with the proposed development.

(g) The development will not adversely affect a known archaeological, historical or cultural resource.

(h) The proposed development shall comply with all additional standards imposed on it by all other applicable requirements of the ordinances and regulations of the Village.
