Please break down the individual costs per unit so if all are not updated I have accurate pricing for each unit

Hi Gary,

Sorry for the confusion on the bid documents. Basically, what I did was write the general installation info under each pump including basic plumbing, electrical set up and applying the application to the VFD. The line item I added at the end is all of the miscellaneous, mainly valves, molded pipe fittings (this is a bulk of the cost), , extra materials necessary and electrical labor, conduit etc. The total for the entire pump room, all labor, start-up, operator training, electrical work etc. is the same amount, which is what was submitted (\$214,732.42). Again, thank you for your cooperation and we look forward to working with you.

Regards,

Charlie Bartlett Aquatic Consultant

Good morning, in reviewing the bid submissions from yesterday I have several questions about you bid.

- 1. You have created a separate category of Miscellaneous (electrical, plumbing and valves) that totals out to \$39,732. Each pump you additionally listed parts and electrical are these different electrical and part requirements? What specifically are these funds purchasing?
- 2. Is the dollar amount that you created in this category strictly for the Water play Feature pump under which it is listed?
- 3. If the dollar amount is for all the pumps what is the breakdown for each pump? What does each include?

Please let me know your answers as soon as possible.

Respectfully

Gary W. Couch, Jr., Director of Parks & Grounds, CPRP Village of Orland Park 14700 Ravinia Ave, Orland Park, Il 60462 PH 708-403-6241 fax: 708-403-6292 gcouch@orland-park.org <a href="mage-quadratic-ground-color: ground-color: gro
