143rd Creek Maintenance Project

In Preparation for 143rd Widening Project

- In 2000, CBBEL last cleared out ditch. Permit approved by Forest Preserve.
- 143rd Street Widening project scheduled to begin construction in early 2027 will utilize this drainage ditch to convey stormwater from the pavement to the slough.
- IDOT requiring 143rd drainage ditch be restored back to the original cross section permitted in 2000. Permit remains open with Forest Preserve.
- Work must be done in August, lowest rain month of year.

Recommended Contractor

Thornton Equipment Services, New Lenox, IL

- Lowest bidder out of Texas didn't meet RBO's apprenticeship requirements
- 2nd Lowest bidder: Thornton Equipment
 - Bid \$145,000
 - Contingency \$ 15,000
