AT&T Business Solutions

Proposal for AT&T Managed Internet Service

Managed Internet Service is an Internet access service that combines a high-speed, dedicated connection with consolidated application management. It lets you reliably access information resources and communicate with Internet users worldwide. Managed Internet Service includes proactive, 24x7 network monitoring, enhanced network security features, and maintenance of the communications link between your locations and the AT&T network.

We provide service availability of 99.999% to ensure that your Internet traffic gets through. The network design and proactive monitoring of our nationwide backbone network make it highly reliable. We provide 24x7 expert technical assistance, and we back our service with strong Service Level Agreements (SLAs) and provisioning intervals. AT&T understands data transport—we own and operate world-class wireline, wireless, and IP data networks, including one of the world's most advanced and powerful IP backbones. Our networks offer local, national, and global coverage. AT&T is one of the strongest, most dependable communication providers in the industry. We monitor our network to identify and correct service issues quickly.

Total Solution Pricing Overview

Monthly Recurring Charges	\$1,206.40
Non-Recurring Charges	\$0.00
Contract Term	36 Months
Other Taxes, Fees, and Surcharges may apply.
