##### 5-2-1: PERMIT REQUIRED:

No person shall construct, erect, alter, install, add to, enlarge, repair, convert, remove, demolish, use, locate, occupy or maintain a building or structure or any part or appurtenance thereof, or alter the use of any building or structure or part or appurtenance thereof, on any real estate within the limits of the Village without first obtaining a separate building permit for each such building or structure or part or appurtenance thereof from the Development Services Department. (Ord. 1084, 3-9-81; Amd. Ord. 4491, 6-15-09)

##### 5-2-2: APPLICATION FOR PERMITS:

The owner or his agent of said real estate shall make application to the Development Services Department for said permit as above set forth and shall file with the Development Services Department a written application on a form furnished by said Development Services Department showing the name of the owner of the real estate, or his agent, the name of the contractor or contractors, if any, the names of all his subcontractors,

## Title 5 Chapter 2 Building Permits and Fees

if any, the location of the proposed building or buildings to be constructed, erected, altered, installed, added to, enlarged, repaired, converted, removed or demolished, the nature of the proposed construction, alteration or repairs. Said application shall also contain an undertaking by the owner or his agent or the contractor that if the permit is granted, the work will be done in accordance with the plans and specifications, the provisions of the permit and all pertinent ordinances of the Village. The application, except for repairs to demolish or removal of a building, shall be accompanied by a plat of survey made by a registered land surveyor. It shall show the location of the proposed building or structure or the proposed alteration on the real estate and complete plans and specifications for said construction shall be furnished with the application. The Development Services Department shall examine the application, along with a survey, if any, all plans and specifications and in the event that the said proposed construction, direction, ordinance, installation, addition, enlargement, conversion, repair, removal or demolition of said building or any part thereof conforms to all requirements of those pertinent ordinances of the Village, shall approve the issuance of a building permit for said building. If, after the Development Services Department shall issue said building permit a contractor and/or subcontractor, shall be employed in the construction of said building whose name is different than that furnished on said application, the owner and/or his agent shall provide the Development Services Department with the name of that newly employed contractor and/or subcontractor. (Ord. 932, 3-26-79; Amd. Ord. 4491, 6-15-09) In those instances where the request for a building permit relates to a business, commercial or industrial use for all or part of the real estate described in the permit application, the building permit shall not be issued until the Development Services Department shall approve the site plan and utilities. (Ord. 764, 5-23-77; Amd. Ord. 4491, 6-15-09)

### **5-2-3: PLANS AND SPECIFICATIONS:**

Plans and specifications filed with an application shall be filed in duplicate. Plans shall be drawn to a scale of not less than one-eighth inch (1/8") to the foot, except that for sheds or private garages not more than twelve feet (12') high and of not more than two hundred fifty (250) square feet in area and for ordinary alterations and repairs, scale drawings shall not be required. The plans shall show the location of all sources of water and sewage disposal facilities, the location, character and connection of plumbing and electrical fixtures, the location and dimensions of the foundation, basement or cellar, and of all floors and of the roof, and also show the elevation. Said plans shall also show the means by which storm water shall be drained from said real estate.

All plans and specifications shall be approved by the Building Director and each sheet thereof shall be so stamped before a permit is issued in connection therewith.

No plans and specifications shall be approved for a permit unless such plans are signed and sealed either by an architect licensed to practice architecture by the Illinois Architectural Act or by a structural engineer licensed to practice structural engineering by the Illinois Structural Engineering Act. (225 ILCS 305/1 et seq. and 225 ILCS 340/1 et seq.) (Ord. 330, 7-25-66; Amd. Ord. 4491, 6-15-09)

**5-2-11: COMPLIANCE TO PERMIT:**

## Title 5 Chapter 2 Building Permits and Fees

All work performed under a permit issued hereunder shall conform to the approved application and plans, and any approved amendments thereto. It shall be unlawful for any owner, agent, architect, structural engineer, contractor or builder engaged in erecting, altering or repairing any building to make any departure from the drawings or plans as approved by the Building Commissioner, of a nature which involves any violation of the provisions of this Chapter on which the permit has been issued. Any such departure from the approved drawings or plans involving a violation of requirements shall operate to annul the permit which has been issued for such work and shall render the same void.

### **5-2-12: TERMINATION OF PERMITS:**

Every permit issued hereunder shall expire six (6) months after its date unless work has been commenced under it within said six (6) month time period, and may be revoked or canceled by the Building Director, on notice, at any time after abandonment or discontinuance of the work for a continuous period of six (6) months. If a permit expires before any work is done, all fees and deposits made in connection therewith shall be returned, less a service fee of fifty dollars (\$50.00) which shall be retained by the Village in addition to any charges received for plan reviews performed. If a permit is terminated because of abandonment after work has commenced, the permittee shall restore the site to its condition prior to the beginning of the work, and if he fails to do so within a reasonable time, the Village may so restore the site at the permittee's expense and any representative of the Village may enter upon the real estate for that purpose. In such case, the Village shall reimburse itself, for any expenses incurred, from the amount received for fees and deposits on issuance of the permit, and the balance, if any, shall be returned to the permittee, less a service charge of fifty dollars (\$50.00) which shall be retained by the Village. If the expense incurred by the Village is more than the fees deposited, the permittee shall pay the excess to the Village on demand. (Ord. 3819, 10-6-03; Amd. Ord. 3911, 7-19-04)

### **5-2-13: RENEWAL OF PERMITS:**

A permit which has expired or has been revoked or canceled may be renewed, if the work thereby authorized <sup>(6/09)</sup> is permitted by ordinances in force at the time of renewal, upon filing an application for such renewal and upon the payment of all amounts remaining due for fees and deposits upon the original permit, and a renewal fee of fifty dollars (\$50.00). (Ord. 330, 7-25-66; Amd. Ord. 3819, 10-6-03; Amd. Ord. 3911, 7-19-04)

### **5-2-14: WORK BEGUN WITHOUT A PERMIT:**

When work has begun or is completed without a permit having been obtained, the fee for required inspections and plan reviews shall be doubled for the first seven hundred and fifty dollars (\$750.00) of the basic building permit fee. Any permit with basic fees of over \$750.00 shall be charged an additional 25% of the remaining portion of basic permit fees above \$750.00. (See Building Code Sec. 117.1.1) (Ord. 3819, 10-6-03)

See Village Code Title 5 Chapter 1 for references to violations and penalties, which may be applicable due to code updates. (Ord. 3911, 7-19-04)
