Somerglen (ID17-05) and Lakeside (ID 17-6) Ponds Shoreline Maintenance

Project Approach

www.cardno.com

Cardno would provide three years of maintenance on the basin buffer using herbicide application, spot mowing, hand wicking, and hand pulling, with a prescribed burn on a date to be determined jointly with the Village. The prescribed burn price includes a burn permit as well as all fire preparations such as burn breaks and supplemental water. Supplemental seeding could be used for filling areas where cattails are treated along slope edges, filling in any bare areas, and adding species diversity throughout the sites.

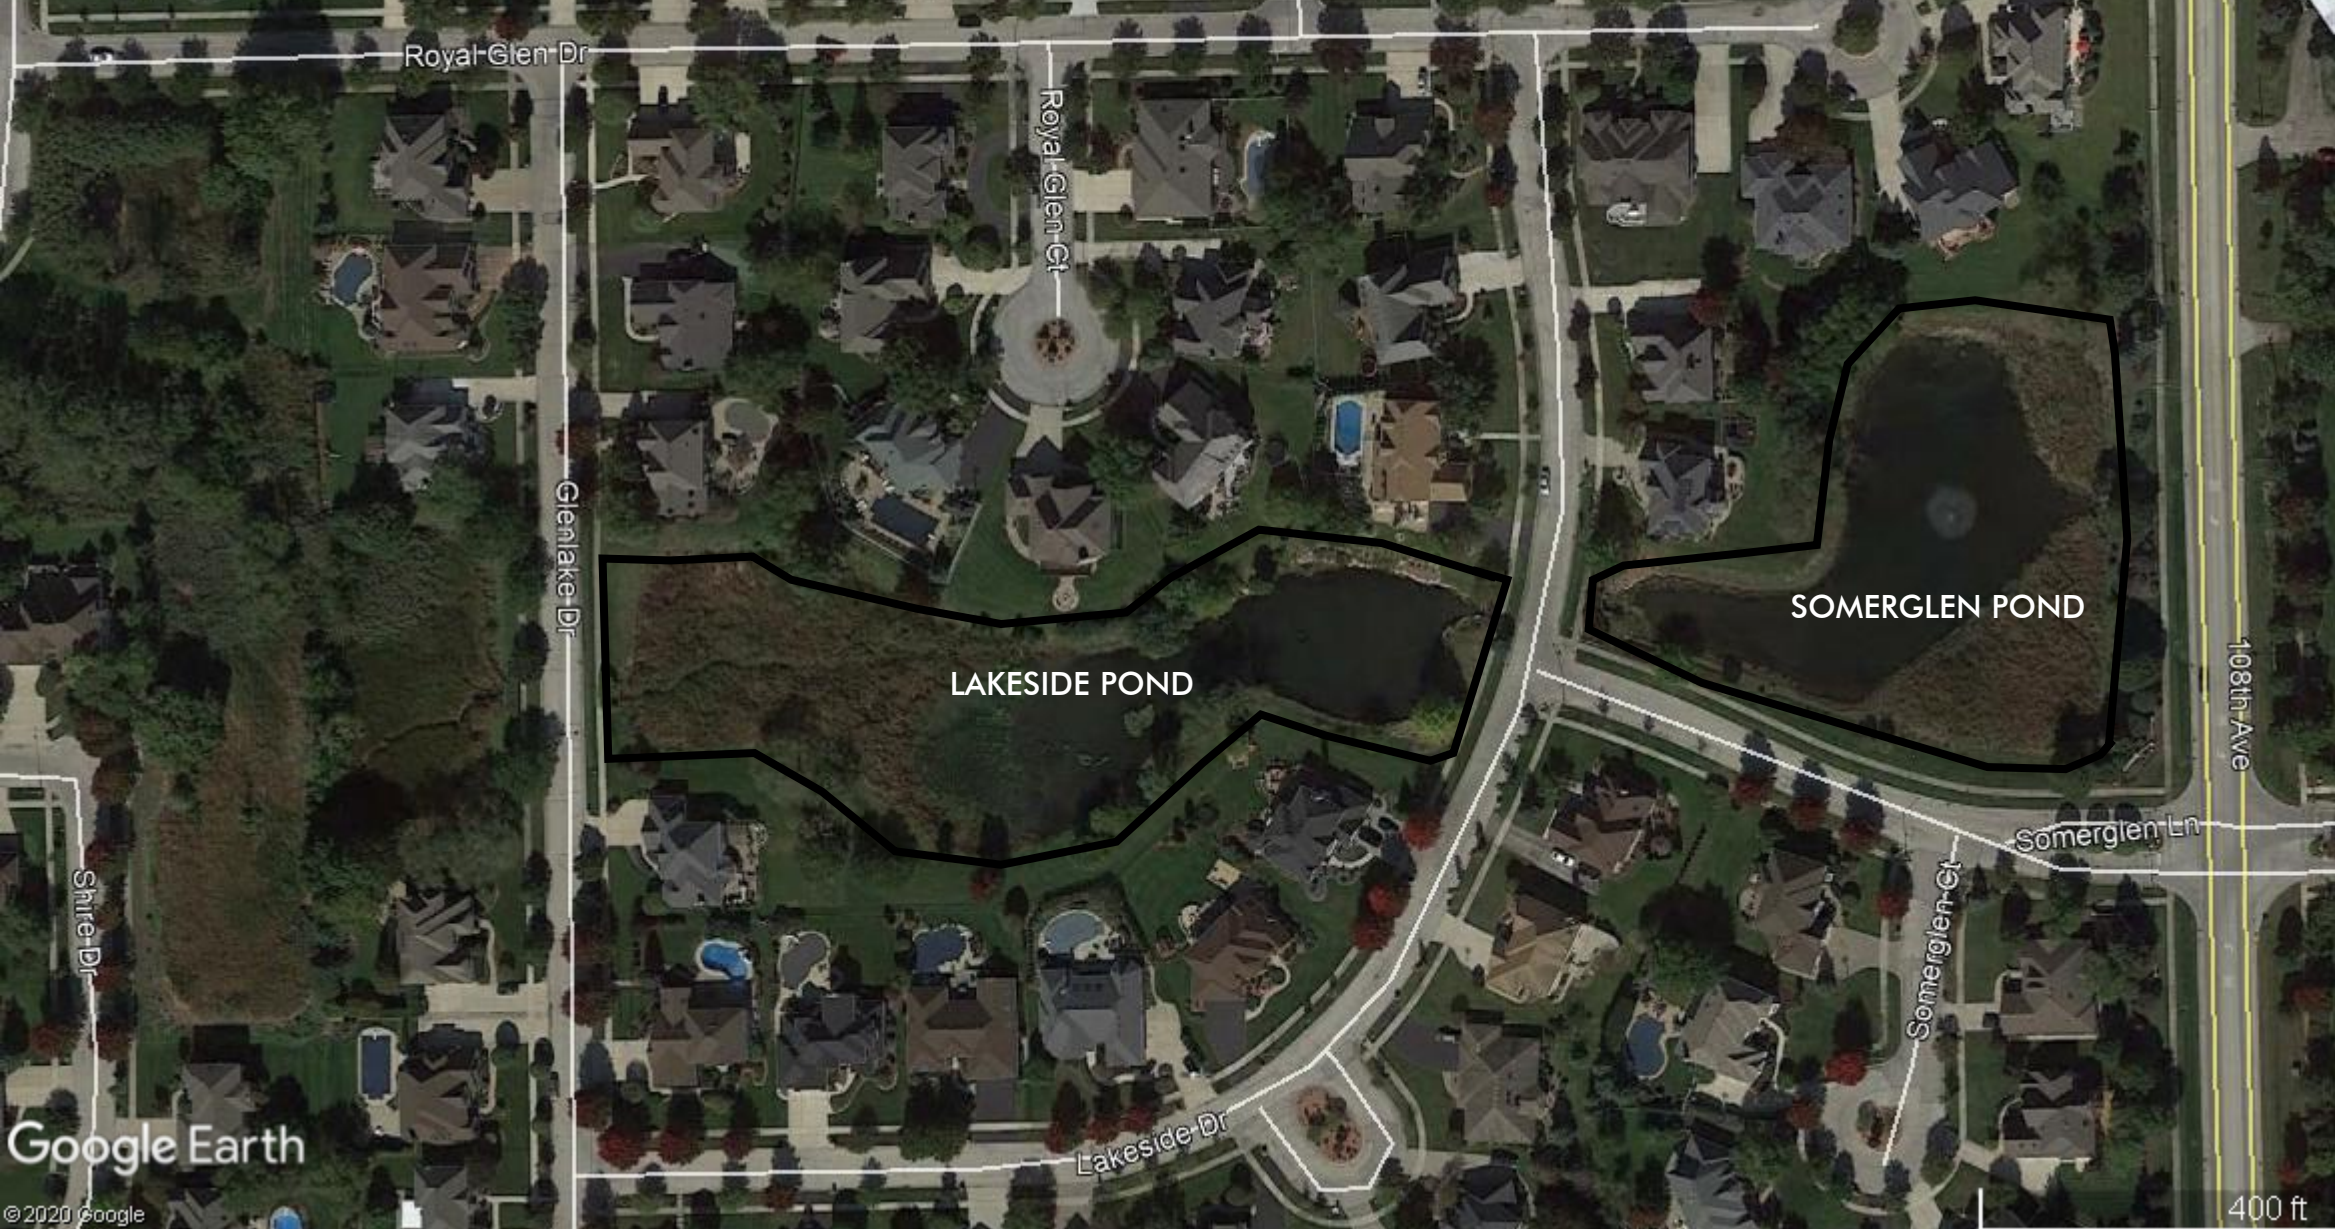

Scope of Work and Cost

GENERAL	Item Total
1)Supplemental Seeding	Not to Exceed \$3,000.00
2021 – Stewardship Year 1	Item Total
(2) Weed Control (5 Annual Visits) TOTAL	\$3,700.00
