CONTRACT TIPS:

- Get all estimates in writing.
- Do not be induced in to signing a contract by high-pressure sales tactics.
- Never sign a contract with blank spaces or one you do not fully understand.
- If you are taking out a loan to finance the work, do not sign the contract before your lender approves the loan.
- You have 3 business days from the time you sign your contract to cancel any contract if the sale is made at your home. The contractor cannot deprive you of this right by initiating work, selling your contract to a lender or any other tactic. If you are planning to file a claim with your insurance company to pay for the work, you may cancel the contract in one of two ways, which- ever occurs first: (1) within 5 business days after receiving written notice from the insurance company denying your claim, or (2) within 30 days after you sent a claim to the insurance company.
- If the contractor does business under a name other than the contractor's real name, the business must either be incorporated or registered under the Assumed Business Name Act. Check with the Secretary of State to see if the business is incorporated, or with the County Clerk to see if the business has registered under the Act.
- Homeowners should check with local and county units of government to determine if permits or inspections are required.
- Determine whether the contractor will guarantee his or her work and products.
- Determine if the contractor has the proper insurance.
- Do not sign a certificate of completion or make final payment until the work is done to your satisfaction.
- Know who provides supplies and labor for any work performed on your home. Suppliers and subcontractors have a right to file a lien against your property if the general contractor fails to pay them. To protect your property, request lien waivers from the general contractor.
