

Crime Free Housing

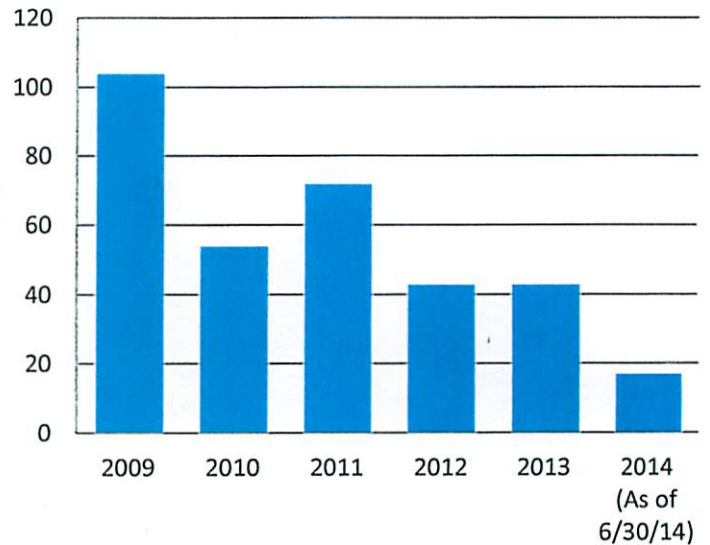

During the tenure of this program, we have had 129 Properties that have been voluntarily removed from Crime Free Program due to sales, foreclosures, or the decision to no longer rent, and yet we still maintain 752 current properties.

Since 2012, we have also assisted landlords/owners with the removal of 35 individuals. These removals stem from incidents that occurred on or around the property by an individual(s) that live at that property.
