1405776-17-11-16

This Contract calls for the construction of a “public work”, within the meaning of the Illinois Prevailing Wage Act, 820 ILCS 130/.01, et seq. (“the Act”). The Act requires contractors and subcontractors to pay laborers, workers and mechanics performing services on public works projects no less than the current “prevailing rate of wages” (hourly cash wages plus amount for fringe benefits) in the county where the work is performed. The Illinois Department of Labor (“IDOL”) publishes the prevailing wage rates on its website at <http://labor.illinois.gov/>. The IDOL may revise the prevailing wage rates from time to time and the contractor/subcontractor has an obligation to check the IDOL’s website for revisions to prevailing wage rates and comply with the most current prevailing wage rates. For information regarding current prevailing wage rates, please refer to the IDOL website. All contractors and subcontractors rendering services under this contract must comply with all requirements of the Act, including but not limited to, all wage requirements and notice and record keeping duties, including but not limited to each contractor and subcontractor who participates in public works to file with the Illinois Department of Labor (IDOL) certified payroll for those calendar months during which work on a public works project has occurred. The Act requires certified payroll to be filed with IDOL no later than the 15th day of each calendar month for the immediately preceding month through the Illinois Prevailing Wage Portal—an electronic database IDOL has established for collecting and retaining certified payroll. The Portal may be accessed using this link: <https://www2.illinois.gov/idol/Laws-Rules/CONMED/Pages/Prevailing-Wage-Portal.aspx>. The Village reserves the right to withhold payment due to Contractor until Contractor and its subcontractors display compliance with this provision of the Act. The Contractor shall also pay prevailing wages at rates not less than those prevailing under Davis-Bacon Wage Act Provisions as determined by the U.S. Department of Labor to all laborers, workmen and mechanics performing work under this Contract, if such Act is applicable, and, in such event, the more restrictive (i.e., higher) prevailing wage requirements shall be applicable.

The Contractor shall require all subcontractors (if any) to conform with said laws, and any rules or regulations now and thereafter issued pursuant to said laws by Contractor, his subcontractors, and/or anyone working through or on behalf of Contractor or Contractor’s subcontractors.

Who is your competition in the marketplace?

Although there are companies within the federal marketplace that assist in the vetting process of contractors to perform under specific vehicles, we feel that there are currently no other firms that provide a comprehensive program that meets the NCPA's needs.

What differentiates your company from competitors?

More than 10 years ago, the principals of LNC started working with cooperative purchasing agencies to help develop the methods of compliance and transparency that allowed them to provide cooperative purchasing services in a manner that met all state and local legal requirements. This new way of acquiring products and services within the strict regulatory framework of the ethical use of public funds allowed "co-ops" to expand their ability to provide services to members nationwide. Since then, we have assisted vendors, their affiliate contractors, and the "co-op" providers themselves with compliance, transparency, market penetration, streamlining their tracking and reporting process, and ultimately increasing revenues for the co-op and the contractor, while saving time and money for the clients.

In addition, LNC has a small business development program that assists clients in the procurement and management of Federal, State, and Local Government construction contracts. We offer tailored consulting services related to market intelligence, corporate registrations and compliance, opportunity identification, technical proposal writing, project management, and establishment of partnership opportunities. Our methods have proven successful for achieving our clients' goals pertaining to government contracting and increased revenues and profitability.

Our network of clients provides a nationwide base of vetted, successful contractors in various trades and industries that can be leveraged to provide added value services to existing vendors through affiliate program relationships.

Describe how your company will market this contract if awarded.

LNC currently works with a limited number of NCPA vendors and their affiliates. We intend to make the existing affiliate relationship model available to all current NCPA vendors. This will allow us to partner the NCPA vendors with vetted and verified affiliate contractors and suppliers, bringing additional value to the members of the NCPA. We will also utilize a dedicated staff of sales personnel to market the NCPA directly to new affiliate contractors and suppliers, bringing in their current client base and building the network with new clients for the NCPA.

Describe how you intend to introduce NCPA to your company.

LNC's principals have been working with the NCPA for more than 10 years.

Describe your companies' processes and procedures related to Compliance Management of Affiliates (subcontractors, vendors, third-party companies)

Considerable factors include:

- Estimating: **We have a staff of in-house estimators that are utilized to ensure that affiliate pricing is within industry standards per contract.**
- Auditing: **All affiliate contracts are audited to ensure that public agencies receive contract-compliant proposals that meet all applicable state and local procurement laws and pricing models per the NCPA's contract.**
- Certification: **Audits are submitted to the NCPA for review and certification per the contract prior to the delivery of the proposal to the member.**
- Reporting: **Tracking of submitted audits for certification, contract completions, and NCPA fees are reported on a monthly/quarterly basis. Once affiliate receives full payment for the completed work, filing fees are submitted to LNC, who then submits payment to the NCPA. LNC maintains a proprietary reporting software system, which will give the NCPA the ability to log in and track affiliate work in progress.**
- Customer Relationship Management: **LNC tracks all NCPA members and is continuously adding new and potential members into the CRM system. Our sales force is tasked with consistent communication via telephone, email, and/or site visits to ensure we are assisting with budgets, supply requirements, contract requirements, etc.**
- Coaching and Education: **LNC is committed to the success of the affiliate program, achieved through the education of the clients and affiliates. Our dedicated support staff will conduct regular meetings during which we discuss goals and responsibilities such as marketing ideas and platforms, process and procedure in the public sector marketplace, pipeline development and execution, and contract compliance.**
- Other Support and Resources: **LNC's team brings more than 35 years of experience in the cooperative purchasing marketplace, having mentored dozens of large and small businesses. Our network of experienced public service contractors throughout the U.S. includes various specialty trades, general contractors, service providers, material suppliers, and transportation providers in all ownership categories. We also have deep and long-standing relationships with bonding/surety and insurance firms who have helped our clients expand and increase revenues.**

Describe your company's technological tools that will be used in the administration and support of this contract. **LNC utilizes several itemized pricing platforms and has developed a proprietary software system for CRM and contract management tracking.**

Does your company currently have RS Means Facilities Construction, Sierra West Construction Cost Data Book, or other Construction Cost Method? If other, describe the method and how it related to RS Means or Sierra West. **LNC currently utilizes RS Means Facilities Construction, ezlQC Procurement Process, and Craftsman Book, in conjunction with decades if estimating data that can be utilized for non-pre-priced categories.**

How many years of experience does your Key Personnel have with RS Means and/or Sierra West Construction Cost Data Book or other UPB? **Our director has more than 12 years of experience with RS Means and our Program Manager has more than 17 years experience with UPBs. Our auditing staff has as much as 10 years experience with UPBs.**

Provide (1) Case Study for each scenario below:

- Compliance Management Process: describe your company's process from cradle to grave that took a potential project from prospect to close using the considerable factors described in question #4. **LNC assists in member's understanding that the NCPA is available for them. We assist in identifying vetted affiliate contractors/suppliers to meet the member's needs. We will assist the member in budgetary requirements if necessary. We will audit the affiliate contractors or supplier's estimate and proposal to ensure that it meets the NCPA's criteria for compliance. We report to the NCPA the status of the member's needs and the approved affiliate contractor's audit for certification. We will then deliver the certification letter and proposal to the member for approval. We will track the progress of the contracted work between the affiliate and the member by way of our proprietary software, and we will submit the filing fee to the NCPA upon completion of work performed by the affiliate for the NCPA member.**
- State Laws: describe how your company has used due diligence to help support the procurement of an agency? **LNC has ensured that all procurement laws in all 50 states are tracked and monitored for changes. That information is transmitted to vendors and affiliates as updated so that procurement laws are followed.**
- Auditing: describe how your company's auditing process helps verify the proposal is in compliance with the terms of the contract. **All contract estimates are applied to the unit price book to ensure that pricing meets the contract requirements.** How does your process identify accuracy and errors? **All audits are reviewed by an auditor and the program manager to ensure that quantities and selected line items are accurate and true to scope.** What is the process to correct errors? **Audits are rejected and returned to the vendor or the affiliate for correction/adjustment before they are sent to the NCPA for certification.**
- Cost Savings: describe how your company's tools, processes and procedures, as described in Question 4 & 5, saves the agency money. **LNC's affiliate management program saves agencies money in several ways. Our network of pre-vetted, pre-qualified contractors and service providers with proven histories of success ensures that top-quality work is provided in an efficient and competent manner. Pre-approved pricing means that agencies can access lower-cost products and services through the buying power of the large network. Project start and delivery times are greatly reduced through streamlined procurement processes offered by cooperative purchasing vehicles. For construction services, the contractor partners with the agency, assisting in the design and management of the services required, mimicking a design-build platform in most cases. This minimizes or eliminates change orders. Overall, our system of processes, procedures, checks & balances reduces administrative costs and mitigates risk across the board.**
- Risk: describe any potential risk associated with your company's execution of your tools, processes, and procedures. **The processes and procedures outlined in this proposal are designed to mitigate any risks associated with the procurement of products and services for the NCPA members. The checks and balances in place**

eliminate the likelihood of errors.

- **Timeliness:** describe the duration of your company's tools, processes and procedures used in the Compliance Management of a project. **As an example, the identification of a member's needs up until the point at which the products or services can be supplied, can be reduced from the typical industry timeline of >90 days down to less than 25 days.**

To that effort we ask respondents to provide their companies environmental policy and/or green initiative. **LNC is committed to environmentally friendly and energy-efficient practices through the implementation of a paperless office environment, through reduced travel by conducting virtual meetings when possible, and through the intentional search for and use of service and product providers that are also committed to environmental consciousness.**

These activities include, but are not limited to, hiring and firing of staff, selection of clients and vendors, and provision of services. We are committed to providing an inclusive and welcoming environment for all members of our staff, clients, volunteers, subcontractors, vendors, and clients.**

LNC is an equal opportunity employer. We will not discriminate and will take affirmative action measures to ensure against discrimination in employment, recruitment, advertisements for employment, compensation, termination, upgrading, promotions, and other conditions of employment against any employee or job applicant on the bases of race, color, gender, national origin, age, religion, creed, disability, veteran's status, sexual orientation, gender identity or gender expression.

Products and Services

- ◆ Respondent shall perform and provide these products and/or services under the terms of this agreement. The affiliate shall assist the end user with making a determination of their individual needs.
- ◆ It is the intention of NCPA to establish an annual contract with highly qualified vendor(s) for Affiliate Compliance Management on a national or regional basis. A
- ◆ Vendor(s) shall, at the request of an NCPA member, provide these covered services under the terms of this RFP and the Contract Terms and Conditions. Vendor shall ensure the affiliate's compliance in their assistance to the end user (NCPA member) with making a determination of its individual needs, as stated below.
- ◆ NCPA is seeking sealed proposals for Affiliate Compliance Management for this procurement in accordance with state statutes governing Job Order Contracting where the work occurs.
- ◆ The purpose of this procurement is to award Affiliate Compliance Management contract(s) so that affiliates can provide a broad range of construction, facility services, product and software solutions and other goods and services that are used in the building, owning, operating, maintenance and

management of its business, infrastructure and facilities to NCPA members. These include but are not limited to; construction, repair, renovations, alterations, upgrades and maintenance projects on an as-needed basis as may be required by the end user (NCPA member) of a facility for work of a recurring nature in which the delivery times are indefinite and for indefinite quantities and for orders that are awarded substantially on the basis of pre-described and pre-priced tasks.

- ◆ The vendor, on behalf of the NCPA, ensures that the selected affiliates meet all the requirements of the NCPA to perform work for NCPA members, including but not limited to: audited pricing of proposed work, proper execution of the affiliate agreement with the vendor, monthly or quarterly reporting of work as outlined in this contract, accurate and timely payment of cooperative purchasing fee to the NCPA.
- ◆ The affiliate contractor shall furnish all necessary labor, materials, tools, supplies, equipment, transportation, supervision, management and shall perform all operations necessary and required for construction work. All work shall be performed in accordance with the requirements set forth in the resulting contract and each mutually agreed upon work request or purchase order issued by NCPA client partner. The specific work requirements will be identified in Work Orders to be issued by NCPA client partner.
- ◆ A contract will be established with standard specifications and pricing based upon a coefficient that is applied to a Unit Price Book (UPB). When a specific project or job order is issued, NCPA member and the contractor will agree on the scope of work and the cost is determined by applying the coefficient to the appropriate units in the UPB or other mutually agreeable and established method.

Information to Offerors

- ◆ Those companies seeking multiple state awards should propose a separate coefficient to be applied to affiliate products and/or services in each state. The proposer shall ensure that the affiliate is properly licensed and bonded in the state(s) in which they will perform work. If a proposer is awarded a contract for the requested states and later decides to request additional states to work in under the contract, then a written request must be made to NCPA requesting the additional state(s). In addition, the vendor shall ensure that the affiliate provides proof of license and bonding capability to work in the requested new state(s) along with proof of insurance and other relevant documents. It is the intent of NCPA in this document to meet each state's statutory requirements for performing Job Order Contracting services in that jurisdiction.
- ◆ It is the intention of NCPA to issue these contracts to give the NCPA agencies a choice of contractors that provide the best value to them.
- ◆ The vendor will ensure that the affiliate contractor agrees to use required Davis Bacon (See the UPB) or local wage rates that apply with some of the NCPA agencies. The agency must supply any Davis Bacon or local wage rates requested.
- ◆ The respondent is encouraged to use either the current annual edition of RS Means Facilities Construction Cost Data Book or the Sierra West Construction Cost Data Book and quarterly adjustments as their UPB used. If either option is not suitable, a mutually agreeable and established

method shall be used.

- ◆ The proposal coefficient should provide reasonable oversight for Architectural and Engineering (A&E) design to meet both local and state requirements. The contractor should expect as part of its coefficient those services that are required to obtain building permits and meet local and state standards for design and oversight. Services may be provided via its own staff, subcontractor, or working with the client's managers, architects and engineers wherever such professional architectural and engineering services are required. The contractor may pay for the engineer or architectural services with the NCPA agency's concurrence as per state statutes where the proposed work is to be done. However, the NCPA agency member may select the engineering or architectural services in accordance with state statutes.
- ◆ A&E selection and fees for this service will meet the requirements of the State in which the work is performed for such selections and fee negotiations and where the NCPA agency member's engineer or architect will approve possible design services. If the NCPA member agency does not have these services on staff or under direct contract, then the NCPA member agency must make the selection per state law. NCPA reserves the right to modify this section per future changes or clarifications in the code or statutes.
- ◆ AIA master text specifications or NCPA member agency approved equivalent and all applicable local, state and national codes will apply to work done under this contract.
- ◆ The NCPA fee will be included in the contractors priced coefficient and will not be issued as a separate line item in any job order proposals issued to NCPA member agencies. This contract management fee will be paid to NCPA quarterly. If the job order has progress payments on large DOs the contractor will report and pay these proportions with the next quarterly report. ***See Tab 2, Fees and Reporting***
- ◆ NCPA encourages the use of HUBs, MWBEs and SBEs both as prime and subcontractors. However they must meet the same minimum standards and requirements as the prime contractor. It will be the responsibility of the prime contractor to pre-qualify their subcontractors. Some NCPA member agencies will have a set goal for subcontracting requirements and will require that a plan be attached as an addendum to the outlining how the contractor will endeavor to meet their goal. Specific plans as part of the contractors' business plan to meet these goals will be part of the overall contractors evaluation process as well as selection process for certain client members as a requirement for their delivery orders.
- ◆ It is the intent of NCPA to award these contracts without discussion. If at the sole discretion of NCPA the coefficients for a scope of work are not competitive, NCPA reserves the right to conduct discussions and negotiations with the successful offerors. If in the opinion of NCPA these negotiations have failed, NCPA will cease negotiations with that offeror and begin negotiations with the second best offeror.
- ◆ RS Means and or Sierra West are the two encouraged unit price books acceptable for use for this contract using SWG Current Construction Costs, JOC Works Ed. and/or the RS Means right hand column ("Total Inc. O & P") and the most recent editions (this will include any periodic editions such as quarterly updates.) RS Mean's 12-digit line numbers or Sierra West's 13 digit line numbers will be used in line item estimates for NCPA member agencies. Contractors at their expense will make copies of the UPB available to the client upon request via electronic or printed media. SWG Current Construction Costs, JOC Works Ed and/or JOC Works or 4Clicks Project Estimator will be the preferred software for preparing line item estimates. If these two costing methods are not applicable, a mutually agreeable and established method shall be used.
- ◆ As defined, the contractor's bid coefficient shall include all overhead items such as office, safety equipment, vehicles and fuel, communication equipment, computers, printers, programs, insurance maintenance, NCPA management fee (2% of Purchase order less bond and sales tax), final site

cleanup, Job Order Contract Estimating Workshop session and all contingencies. All project management, administration, and sufficient jobsite supervision are to be included in contractor's bid coefficient as well as any other main office or project overhead and profit items.

- ◆ Items that are not found in the UPB will be listed as "non-pre-priced". This does not include previously discussed design and engineering costs. The contractor will provide three prices to establish the average bare cost for each item and add in the Overhead and Profit (OH/P) based upon the contractor's coefficient. This line item will then be negotiated with the NCPA member agency and, when approved, the item will then be added to the price book for future projects and will no longer be considered non-pre-priced. The need for this special treatment needs to be addressed in the line item estimate and agreed to by the NCPA member agency and NCPA.
- ◆ Business forms and reporting criteria including audit function will be uniform for all of the contractors and be established by NCPA.
- ◆ Vendor will ensure that the affiliate contractor is adequately bonded by a licensed surety, and provides the required performance and payment bonds for the work being performed under the affiliate agreement. Contractors may need to provide additional capacity as job orders increase. Bonds will not require a fee to be paid to NCPA. The actual cost of the bond will be a pass through expense to the NCPA member agency and added to the purchase order.
- ◆ Vendor will ensure that the affiliate contractor has adequate insurance coverage meeting at a minimum the requirements of the State of Texas or the state where the job is located. The contractor, if awarded a contract, will provide within 14 days but prior to the commencement of any construction, a certificate of insurance showing that NCPA has been named as additional insured. If the NCPA member agency has higher insurance requirements, than those requirements may be added as an addendum to the purchase order.
- ◆ Texas law requires that public works over \$8,000.00 be conducted under the supervision of an engineer and over \$100,000.00 with an architect. Statutes of the state where the job is located will govern requirements for an engineer and/or architect.
- ◆ Recognized holidays include: Presidents Day, Easter, Memorial Day, Independence Day, Labor Day, Thanksgiving Day, Christmas Day and New Year's Day.

Scope of Services

- ◆ The vendor will ensure that a specific scope of work for each job order is determined in advance and in writing between NCPA member agency and the Contractor.
- ◆ It is acceptable for the NCPA member agency to provide a general scope, but the contractor should provide a written scope of work to the NCPA member agency as part of the proposal. Once the scope of the job order is agreed to, the NCPA member agency will issue a PO with the line item estimate referenced as an attachment along with bond and any other special provisions agreed to for the NCPA member agency. If special terms and conditions other than those covered within this solicitation and awarded contracts are required, they will be attached to the PO and shall take precedence over those in the base contract. The vendor will ensure that this process is completed within the guidelines of the contract.
- ◆ Once the selected contractor is approved by the NCPA member agency, the choice being made by the agency's other NCPA contractors will no longer market this NCPA member agency without approval

of the NCPA marketing manager. The NCPA member agency may replace or use more than one NCPA contractor. The NCPA member agency may consult with NCPA about their needs if deemed necessary.

Contract and Documents

- ◆ The contract shall include the contract, its terms and conditions, any agreed upon amendments, as well as all of the sections of the solicitation and the contractor's proposal. Once signed, if the contractor's proposal varies or is unclear in any way from the NCPA contract, NCPA, at its sole discretion, will decide which provision will prevail.
- ◆ The Unit Price Book (UPB), will be either or the current edition of RS Means Facilities Construction Cost Data or if published RS Means Job Order Contracting cost data or SWG Current Construction Costs, JOC Works Ed. The current edition AIA Master Text specifications and all applicable national, state, and local laws, codes, standards and regulations shall be followed.
- ◆ Other documents to be included are the contractor's proposals, task orders, purchase orders and any attachments, which have been issued.

Project Delivery Order Procedures

- ◆ The NCPA member agency, having executed the NCPA Master Intergovernmental Cooperative Purchasing Agreement during registration and/or an inter-local agreement approved by their board or designated agent may make a request of the vendor under this contract when the member has services that need to be undertaken. Notification may occur via phone, the web, e-mail, fax, or in person.
- ◆ Upon notification of a pending request, the vendor shall ensure that the affiliate contractor makes contact with the client as soon as possible. Contractor shall visit the member's site and conduct a walk-through/project scoping with the member's representative to define the scope. Contractor's representative shall perform due diligence to request and gather all available project relevant existing conditions and record documents from client to include, but not limited to, hazardous materials surveys and other relevant documents.
- ◆ The affiliate contractor and the member will agree on the time when the job order proposal will need to be reviewed for approval by the client member. The contractor will then prepare a job order proposal including a written scope of work using an automated software system that will provide a line item estimate of the individual tasks, the quantities, the city cost index, his bid coefficient, and any applicable cost additions including any possible division one line items and design work that may be required and in need of approval. Information on those division one items that may be included can be found in information for offerors.
- ◆ Contractors will be required to submit Job Order proposals and shall provide a line item estimate based upon their coefficient and the UPB for that scope of work which must be reviewed and agreed to by the client prior to their issuance of a PO and DO.
- ◆ Minimal design work should be covered in the contractor's applicable coefficient, and this design work shall use in house staff or a teamed sub-consultant. In all cases where significant design changes occur, the A/E selection shall conform and be based upon qualifications of the design personnel according to applicable state law for selection and negotiation of fees. The client may select an architectural consultant or use their own design capabilities providing the plans to the

contractor.

- ◆ The line items taken from the UPB and the estimated quantities totaled will be modified with the application of the city cost index and the contractor's coefficient. Any adjustment factors from division one will be added to establish the final price as agreed to for the project. Cost adjustment factors, as allowed, must clearly identify those individual tasks (line items) to which they are applicable and include corresponding percentage.
- ◆ The client will then review the proposal and if the member's representative is in agreement with the proposed pricing and schedule, then other terms and requirements of the job order will be issued that will contain the approved job order proposal (scope of work) and the Purchase Order (PO). The PO will include the lump sum price, start date, schedule and notice to proceed and will be signed by both parties as a lump sum fixed price contract.
- ◆ In the event of an emergency such as a major power disruption; acts of God; strikes; lockouts; industrial disturbances; act of public enemy; orders and regulation of any kind of government of the United States or any civil or military authority; insurrections; riots; epidemics; pandemics; landslides; lighting; earthquake; fires; hurricanes; storms; floods; washouts; droughts; arrests; restraint of government and people; civil disturbances; explosions, breakage or accidents to machinery, pipelines or canals, or other causes not reasonably within the control of the party claiming such inability the contractor will endeavor to meet with the client within two hours (if possible), expediting these procedures with verbal job orders and a signed field book by the member's designated agent and the NCPA contractor. Work may commence immediately as required; however, documentation must be provided as soon as possible for this work or for any additional long term job order requirements.

Schedule of Projects

- ◆ Scheduling of projects will be accomplished when the client issues a purchase order that will serve as "the notice to proceed" and will contain the job order as an attachment based upon the negotiated line item estimate and approved JOB Order proposal. For large projects a Construction Project Management (CPM) schedule should be included with the proposal. The effective start and end dates will come from the dates approved in the proposal. The construction performance period for the delivery order will include the mobilization, materials purchase, installation and delivery, design, weather, and site cleanup and inspection. No additional claims may be made for delays as a result of these items. When the tasks have been completed the contractor shall notify the client and have the client inspect the work for acceptance under the scope and terms in the PO. The client will issue in writing any corrective actions that are required. Upon completion of these items the client will issue a completion notice and final payment will be issued.

Associated Project Support Requirements

- ◆ If there is a dispute between the contractor and client, NCPA or its representatives will assist in conflict resolution or third party (mandatory mediation), if requested by either party.
- ◆ NCPA or its representative reserves the right to inspect any project and audit the contractors NCPA project files, documentation and correspondence.
- ◆ The contractor will provide auditing services to his project offices with minimal down time (24 hours service calls) a computer system with applicable software including Microsoft Office, JOC project

estimating software (JOC Works or 4Clicks Project Estimator) such as RS Means current edition or SWG Current Construction Costs, JOC Works Ed. This software shall be compatible with currently utilized edition of RS Means or Sierra West Group. The contractor may not alter these programs in any form or manner. Updates of Sierra West Group or quarterly RS Mean software or revised yearly editions will be allowed. Each job order proposal submitted to the client will contain a computer generated line item estimate, and this estimate shall have been generated by one of the approval software programs. The printout will contain all of the unit price book items, quantities, pricing and total cost.

- ◆ If applicable, utilities at the job sites will be furnished free of charge to the affiliate contractor by the NCPA member agency. Water will be furnished free, with all of the taps, connections and associated equipment supplied free of charge to the contractor or supplied by the contractor and charged to the NCPA member agency. Upon project completion, the connections will be removed at the direction of the NCPA member agency.
- ◆ If applicable, it is the affiliate contractor's responsibility to analyze his electrical needs and the ability of the client's facility to accommodate his request. The electricity at the job site will be free to the contractor. It will be the responsibility of the contractor to coordinate his requests and needs with the NCPA member agency. If additional capacity is required, the contractor is responsible for arranging for the equipment, the installation and removal at his own expense. If possible, the NCPA member agency will make toilet facilities available or the contractor will make arrangements for portable toilets.

Safety/Environmental Plan

- ◆ The affiliate contractor shall, upon award, submit a more detailed safety plan within 14 days and prior to commencement of work. It should specifically address how the contractor will implement this plan with the subcontractors. The safety plan will need to address OSHA compliance, environmental compliance, drug testing, trend analysis and noncompliance corrective action. It should also state whether a safety officer would interact with the NCPA member agency's staff and management of safety and environmental issues while working in occupied areas.

This plan will also address how the contractor will implement his safety plan with subcontractors (may reference the contractors safety plan). The subcontractors will be held to the same standards as the JOC contractor.

- ◆ A distinct portion of the subcontracting plan needs to deal with attracting, utilizing and mentoring small and disadvantaged businesses including how your company will attract these firms.

It is also important that the PGM has managed plumbing, concrete, electrical, painting, HVAC and mechanical in multi discipline projects. Centennial Park West Facility Improvement Project - Revised

History

On April 21, 2025, the Village Board of Trustees authorized the approval and execution of a contract with Dav-Com Electric, Inc. ("Dav-Com") for the Centennial Park West Facility Improvement Project (see Board Report 2025-0333). The scope of work and associated cost of the original contract included the following components:

CPW Facility Improvement Project Proposal Summary

CPW Video Wall: \$671,500.00

West Gate Modification for Ambulance/Concrete and Fence: \$96,500.00

Security Gates Power for Metal Detector/Tents: \$105,000.00

Two Water Fountains for bottles and drinking: \$49,800.00

Proposal Total: \$922,800.00
Contingency: \$50,000.00
Total Contract Price: \$972,800.00

Before this contract was executed, it was determined that the CPW video wall screens and associated work of steel structure, power, AV, conduit, painting, and vertical lifting equipment should not be included in the scope of work. Rental video screens will be obtained to meet rider requirements for concerts by Recreation and Parks. It was also determined that bond costs, which should have been factored into the original proposal price, had in fact not been included. Finally, as Dav-Com paid upfront for a structural engineering study to verify the process and materials needed to secure the video walls at CPW, it was decided that these fees should be reimbursed to Dav-Com despite the video walls being removed from the scope of work. Public Works subsequently requested a revised proposal from Dav-Com to reflect these modifications for life safety items for the site. A summary of the revised proposal is provided below:

Revised CPW Facility Improvement Project Proposal Summary

West Gate Modification for Ambulance/Concrete and Fence: \$96,500.00
Security Gates Power for Metal Detector/Tents: \$105,000.00
Two Water Fountains for bottles and drinking: \$49,800.00
Engineering Fees and Bonds: \$26,000.00
Proposal Price: \$277,300.00
Contingency: \$25,000.00
Total Contract Price: \$302,300.00

The proposal price provided was reviewed by Omina Affiliated Compliance Management against industry standard pricing of RS Means. This quality assurance ensures that pricing is fair and reasonable to other competitor's pricing.

Based on the provided co-op proposal price and company qualifications, staff recommends approving the proposals from Dav-Com for a total of \$277,300.00. A contingency of \$25,000.00 is requested to address change orders made necessary by circumstances not reasonably foreseeable at the time the proposals are signed, for a total contract price not to exceed \$302,300.00.

This agenda item is being considered by the Committee of the Whole and the Village Board of Trustees on the same night.

Financial Impact

Funding in the amount of \$250,000.00 was budgeted in capital account 3008010-470100 for CPW Facility Improvements. Additionally, \$400,000.00 was budgeted in capital account 3008010-570100 for video screens at CPW. As such, a total of \$650,000.00 is available for this project.

Recommended Action/Motion

I move to approve the waiver of the competitive bid process in favor of participation in joint purchasing cooperative Omnia Partners pursuant to Contract #02-139 and

authorize the approval and execution of a vendor contract with Dav-Com Electric, Inc. for the Centennial Park West Facility Improvement Project, based on Dav-Com Electric, Inc.'s revised proposal #25-167-11 / RQN #2025-1610rev dated May 14, 2025, for \$277,300.00 plus a \$25,000.00 contingency, for a total not-to-exceed contract price of \$302,300.00;

AND

Authorize the Village Manager to execute all related contracts subject to Village Attorney review;
