1. Insuring Agreement

- a. We will pay those sums that the insured becomes legally obligated to pay as damages because of "bodily injury" or "property damage" to which this insurance applies. We will have the right and duty to defend the insured against any "suit" seeking those damages. However, we will have no duty to defend the insured against any "suit" seeking damages for "bodily injury" or "property damage" to which this insurance does not apply. We may, at our discretion, investigate any "occurrence" and settle any claim or "suit" that may result. But:

- (1) The amount we will pay for damages is limited as described in **SECTION III - LIMITS OF INSURANCE**; and
- (2) Our right and duty to defend ends when we have used up the applicable limit of insurance in the payment of judgments or settlements under **SECTION I - COVERAGES, COVERAGE A. BODILY INJURY AND PROPERTY DAMAGE LIABILITY**; **SECTION I - COVERAGES, COVERAGE B. PERSONAL AND ADVERTISING INJURY LIABILITY**; or medical expenses under **SECTION I - COVERAGES, COVERAGE C. MEDICAL PAYMENTS**.

No other obligation or liability to pay sums or perform acts or services is covered unless expressly provided for under

SUPPLEMENTARY PAYMENTS - COVERAGES A AND B.

- b. This insurance applies to "bodily injury" and "property damage" only if:

- (1) The "bodily injury" or "property damage" is caused by an "occurrence" that takes place in the "coverage territory";
- (2) The "bodily injury" or "property damage" occurs during the policy period; and
- (3) Prior to the "coverage term" in which "bodily injury" or "property damage" occurs, you did not know, per Paragraph 1.d. below, that the "bodily injury" or "property damage" had occurred or had begun to occur, in whole or in part.

- c. "Bodily injury" or "property damage" which:

- (1) Occurs during the "coverage term"; and
- (2) Was not, prior to the "coverage term", known by you, per Paragraph 1.d. below, to have occurred;

includes any continuation, change or resumption of that "bodily injury" or "property damage" after the end of the "coverage term" in which it first became known by you.

- d. You will be deemed to know that "bodily injury" or "property damage" has occurred at the earliest time when any "authorized representative":

- (1) Reports all, or any part, of the "bodily injury" or "property damage" to us or any other insurer;
- (2) Receives a written or verbal demand or claim for damages because of the "bodily injury" or "property damage";
- (3) First observes, or reasonably should have first observed, the "bodily injury" or "property damage";

- e. Damages because of "bodily injury" include damages claimed by any person or organization for care, loss of services or death resulting at any time from the "bodily injury".

2. Exclusions

This insurance does not apply to:

a. Expected or Intended Injury

"Bodily injury" or "property damage" which may reasonably be expected to result from the intentional or criminal acts of the insured or which is in fact expected or intended by the insured, even if the injury or damage is of a different degree or type than actually expected or intended. This exclusion does not apply to "bodily injury" resulting from the use of reasonable force to protect persons or property.

b. Contractual Liability

"Bodily injury" or "property damage" for which the insured is obligated to pay damages by reason of the assumption of liability in a contract or agreement. This exclusion does not apply to liability for damages:

- (1) That the insured would have in the absence of the contract or agreement; or
- (2) Assumed in a contract or agreement that is an "insured contract", provided the "bodily injury" or "property damage" occurs subsequent to the execution of the contract or agreement. When a claim for such "bodily injury" or "property damage" is made, we will defend that claim provided the insured has assumed the obligation to defend such claim in the "insured contract". Such defense payments will not reduce the limits of insurance.

c. Liquor Liability

"Bodily injury" or "property damage" for which any insured may be held liable by reason of:

- (1) Causing or contributing to the intoxication of any person;
- (2) The furnishing of alcoholic beverages to a person under the legal drinking age or under the influence of alcohol; or

- (3) The spouse, child, parent, brother or sister of that "employee" as a consequence of Paragraphs (1) or (2) above.

This exclusion applies:

- (1) Whether the insured may be liable as an employer or in any other capacity; and
- (2) To any obligation to share damages with or repay someone else who must pay damages because of the injury.

This exclusion does not apply to liability assumed by the insured under an "insured contract".

f. Pollutant

- (1) "Bodily injury" or "property damage" arising out of the actual, alleged or threatened discharge, dispersal, seepage, migration, release, escape or emission of "pollutants":

- (a) At or from any premises, site or location which is or was at any time owned or occupied by, or rented or loaned to, any insured. However, Paragraph (a) does not apply to:

- 1) "Bodily injury" to any person injured while on any premises, site or location owned or occupied by, or rented or loaned to, you provided:

- a) The injury is caused by the inadequate ventilation of vapors;
- b) The person injured is first exposed to such vapors during the policy period; and
- c) Within 30 days of such first exposure, the person injured is clinically diagnosed or treated by a physician for the medical condition caused by the exposure to such vapors. However, Paragraph c) does not apply if the "bodily injury" is caused by vapors produced by or originating from equipment that is used to heat, cool or dehumidify the building, or equipment that is used to heat water for personal use, by the building's occupants or their guests.

This exception 1) shall apply only to Named Insureds; we shall have no duty to defend or pay damages for any person or organization that is not a Named Insured. However, this paragraph does not apply if the "bodily injury" is caused by vapors produced by or originating from equipment that is used to heat, cool or dehumidify the building, or equipment that is used to heat water for personal use, by the building's occupants or their guests.

For the purpose of the exception granted in Paragraph 1) only, vapors means any gaseous or airborne irritant or airborne contaminant, including smoke, fumes, vapor or soot, but excluding asbestos, which is discharged, dispersed, emitted, released or escapes from materials, machinery or equipment used in the service or maintenance of the premises. Vapors does not mean any gaseous or

airborne irritants or contaminants used in a manufacturing process or which is the product or by-product of any manufacturing process;

- 2) "Bodily injury" or "property damage" for which you may be held liable, if you are a contractor, and the owner or lessee of such premises, site or location has been added to this Coverage Part as an additional insured with respect to your ongoing operations or "your work" performed for that additional insured at that premises, site or location and such premises, site or location is not and never was owned or occupied by, or rented or loaned to, any insured, other than that additional insured; or
- 3) "Bodily injury" or "property damage" arising out of heat, smoke or fumes from a "hostile fire";
- (b) At or from any premises, site or location which is or was at any time used by or for any insured or others for the handling, storage, disposal, processing or treatment of waste;
- (c) Which are or were at any time transported, handled, stored, treated, disposed of, or processed as waste by or for:
 - 1) Any insured; or
 - 2) Any person or organization for whom you may be legally responsible;
- (d) At or from any premises, site or location on which any insured or any contractors or subcontractors working directly or indirectly on any insured's behalf are performing operations if the "pollutants" are brought on or to the premises, site or location in connection with such operations by such insured, contractor or subcontractor. However, Paragraph (d) does not apply to:
 - 1) "Bodily injury" or "property damage" arising out of the discharge, dispersal, seepage, migration, release, es-

cape or emission of fuels, lubricants or other operating fluids, or exhaust gases, which are needed to perform, or are the result of, the normal electrical, hydraulic or mechanical functions necessary for the operation of "mobile equipment" or its parts, if such fuels, lubricants or other operating fluids, or exhaust gases, escape, seep or migrate, or are discharged, dispersed, released or emitted from a vehicle part designed to hold, store or receive them. This exception does not apply if the fuels, lubricants or other operating fluids, or exhaust gases, escape, seep or migrate, or are discharged, dispersed, released or emitted with the intent to cause "bodily injury" or "property damage" or with the knowledge that "bodily injury" or "property damage" is substantially certain to occur, or if such fuels, lubricants or other operating fluids, or exhaust gases, are brought on or to the premises, site or location with such intent to escape, seep or migrate, or be discharged, dispersed, released or emitted as part of the operations being performed by such insured, contractor or subcontractor;

- 2) "Bodily injury" or "property damage" sustained within a building and caused by the release of gases, fumes or vapors from materials brought into that building in connection with operations being performed by you or on your behalf by a contractor or subcontractor; or
- 3) "Bodily injury" or "property damage" arising out of heat, smoke or fumes from a "hostile fire"; or
- (e) At or from any premises, site or location on which any Insured or any contractors or subcontractors working directly or indirectly on any insured's behalf are performing operations if the op-

erations are to test for, monitor, clean up, remove, contain, treat, detoxify or neutralize, or in any way respond to, or assess the effects of, "pollutants".

- (2) Any loss, cost or expense arising out of any:

- (a) Request, demand, order or statutory or regulatory requirement that any insured or others test for, monitor, clean up, remove, contain, treat, detoxify or neutralize, or in any way respond to, or assess the effects of, "pollutants"; or
- (b) Claim or suit by or on behalf of a governmental authority for damages because of testing for, monitoring, cleaning up, removing, containing, treating, detoxifying or neutralizing, or in any way responding to, or assessing the effects of, "pollutants".

However, Paragraphs (2)(a) and (b) do not apply to liability for damages because of "property damage" that the insured would have in the absence of such request, demand, order or statutory or regulatory requirement, or such claim or "suit" by or on behalf of a governmental authority.

(2) Medical expenses under **COVERAGE C. MEDICAL PAYMENTS**;

3. The Products-Completed Operations Aggregate Limit is the most we will pay under **COVERAGE A. BODILY INJURY AND PROPERTY DAMAGE LIABILITY** for damages because of "bodily injury" and "property damage" included in the "products-completed operations hazard".

4. Subject to 2.a. above, the Personal and Advertising Injury Limit is the most we will pay under **COVERAGE B. PERSONAL AND ADVERTISING INJURY LIABILITY** for the sum of all damages because of all "personal and advertising injury" sustained by any one person or organization.

The Limits of Insurance of this Coverage Part apply separately to each "coverage term".

SECTION IV - COMMERCIAL GENERAL LIABILITY CONDITIONS

1. Bankruptcy

Bankruptcy or insolvency of the insured or of the insured's estate will not relieve us of our obligations under this Coverage Part.

2. Duties in the Event of Occurrence, Offense, Claim or Suit

- a. You must see to it that we are notified as soon as practicable of an "occurrence" or

a "personal and advertising injury" of offense which may result in a claim. To the extent possible, notice should include:

- (1) How, when and where the "occurrence" or offense took place;
 - (2) The names and addresses of any injured persons and witnesses; and
 - (3) The nature and location of any injury or damage arising out of the "occurrence" or offense.
- b. If a claim is made or "suit" is brought against any insured, you must:
- (1) Immediately record the specifics of the claim or "suit" and the date received; and
 - (2) Notify us as soon as practicable.
- You must see to it that we receive written notice of the claim or "suit" as soon as practicable.
- c. You and any other involved insured must:
- (1) Immediately send us copies of any demands, notices, summonses or legal papers received in connection with the claim or "suit";
 - (2) Authorize us to obtain records and other information;
 - (3) Cooperate with us in the investigation or settlement of the claim or defense against the "suit"; and
 - (4) Assist us, upon our request, in the enforcement of any right against any person or organization which may be liable to the insured because of injury or damage to which this insurance may also apply.
- d. No insured will, except at that insured's own cost, voluntarily make a payment, assume any obligation, or incur any expense, other than for first aid, without our consent.

3. Legal Action Against Us

No person or organization has a right under this Coverage Part:

- a. To join us as a party or otherwise bring us into a "suit" asking for damages from an insured; or
- b. To sue us on this Coverage Part unless all of its terms have been fully complied with.

A person or organization may sue us to recover on an agreed settlement or on a final judgment against an insured; but we will not be liable for damages that are not payable

under the terms of this Coverage Part or that are in excess of the applicable limit of insurance. An agreed settlement means a settlement and release of liability signed by us, the insured and the claimant or the claimant's legal representative.

4. Liberalization

If, within 60 days prior to the beginning of this Coverage Part or during the policy period, we make any changes to any forms or endorsements of this Coverage Part for which there is currently no separate premium charge, and that change provides more coverage than this Coverage Part, the change will automatically apply to this Coverage Part as of the latter of:

- a. The date we implemented the change in your state; or
- b. The date this Coverage Part became effective; and

will be considered as included until the end of the current policy period. We will make no additional premium charge for this additional coverage during the interim.

5. Other Insurance

If other valid and collectible insurance is available to the insured for a loss we cover under **COVERAGE A. BODILY INJURY AND PROPERTY DAMAGE LIABILITY** or **COVERAGE B. PERSONAL AND ADVERTISING INJURY LIABILITY** of this Coverage Part, our obligations are limited as follows:

a. Primary Insurance

This insurance is primary except when b. below applies. If this insurance is primary, our obligations are not affected unless any of the other insurance is also primary. Then, we will share with all that other insurance by the method described in c. below.

b. Excess Insurance

This insurance is excess over:

- (1) Any of the other insurance, whether primary, excess, contingent or on any other basis:
 - (a) That is Fire, Extended Coverage, Builder's Risk, Installation Risk or similar insurance for "your work";
 - (b) That is Fire or Explosion insurance for premises rented to you or temporarily occupied by you with permission of the owner;
 - (c) That is insurance purchased by you to cover your liability as a tenant for "property damage" to

premises rented to you or temporarily occupied by you with permission of the owner; or

- (d) If the loss arises out of the maintenance or use of aircraft, "autos" or watercraft to the extent not subject to **SECTION I - COVERAGES, COVERAGE A, BODILY INJURY AND PROPERTY DAMAGE LIABILITY, 2. Exclusions, g. Aircraft, Auto or Watercraft.**
- (2) Any other primary insurance available to the insured covering liability for damages arising out of the premises or operations, or the products and completed operations, for which the insured has been added as an additional insured by attachment of an endorsement.
- (3) Any other insurance:
 - (a) Whether primary, excess, contingent or on any other basis, except when such insurance is written specifically to be excess over this insurance; and
 - (b) That is a consolidated (wrap-up) insurance program which has been provided by the prime contractor/project manager or owner of the consolidated project in which you are involved.

When this insurance is excess, we will have no duty under **COVERAGE A, BODILY INJURY AND PROPERTY DAMAGE LIABILITY or COVERAGE B, PERSONAL AND ADVERTISING INJURY LIABILITY** to defend the insured against any "suit" if any other insurer has a duty to defend the insured against that "suit". If no other insurer defends, we will undertake to do so, but we will be entitled to the insured's rights against all those other insurers.

When this insurance is excess over other insurance, we will pay only our share of the amount of the loss, if any, that exceeds the sum of:

- (1) The total amount that all such other insurance would pay for the loss in the absence of this insurance; and
- (2) The total of all deductible and self-insured amounts under all that other insurance.

We will share the remaining loss, if any, with any other insurance that is not described in this Excess Insurance provision and was not bought specifically to apply in excess of the Limits of Insurance

shown in the Declarations of this Coverage Part.

c. Method of Sharing

If all of the other insurance permits contribution by equal shares, we will follow this method also. Under this approach each insurer contributes equal amounts until it has paid its applicable limit of insurance or none of the loss remains, whichever comes first.

If any of the other insurance does not permit contribution by equal shares, we will contribute by limits. Under this method, each insurer's share is based on the ratio of its applicable limit of insurance to the total applicable limits of insurance of all insurers.

6. Premium Audit

- a. We will compute all premiums for this Coverage Part in accordance with our rules and rates.
- b. Premium shown in this Coverage Part as advance premium is a deposit premium only. At the close of each audit period we will compute the earned premium for that period and send notice to the first Named Insured. The due date for audit and retrospective premiums is the date shown as the due date on the bill. If:
 - (1) The earned premium is less than the deposit premium, we will return the excess to the first Named Insured; or
 - (2) The earned premium is greater than the deposit premium, the difference will be due and payable to us by the first Named Insured upon notice from us.
- c. The first Named Insured must keep records of the information we need for premium computation, and send us copies at such times as we may request.

7. Representations

By accepting this Coverage Part, you agree:

- a. The statements in the Declarations are accurate and complete;
- b. Those statements are based upon representations you made to us; and
- c. We have issued this Coverage Part in reliance upon your representations.

8. Separation of Insureds

Except with respect to the Limits of Insurance, and any rights or duties specifically assigned in this Coverage Part to the first Named Insured, this insurance applies:

- a. As if each Named Insured were the only Named Insured; and
- b. Separately to each insured against whom claim is made or "suit" is brought.

9. Transfer of Rights of Recovery Against Others to Us

If the insured has rights to recover all or part of any payment we have made under this Coverage Part, those rights are transferred to us. The insured must do nothing after loss to impair them. At our request, the insured will bring "suit" or transfer those rights to us and help us enforce them.

10. Two or More Coverage Forms or Policies Issued by Us

If this Coverage Part and any other Coverage Form, Coverage Part or policy issued to you by us or any company affiliated with us apply to the same "occurrence" or "personal and advertising injury" offense, the aggregate maximum limit of insurance under all the Coverage Forms, Coverage Parts or policies shall not exceed the highest applicable limit of insurance under any one Coverage Form, Coverage Part or policy. This condition does not apply to any Coverage Form, Coverage Part or policy issued by us or an affiliated company specifically to apply as excess insurance over this Coverage Part.

11. When We Do Not Renew

If we decide not to renew this Coverage Part, we will mail or deliver to the first Named Insured shown in the Declarations written notice of the nonrenewal not less than 30 days before the expiration date.

If notice is mailed, proof of mailing will be sufficient proof of notice.

Delivering Innovative Metering Solutions Nationwide

Operating History

Professional Meters, Inc. (PMI) was founded in 1999 in response to the rapidly growing market for automated meter reading systems for the water, gas, and electric industry. PMI specializes in the turnkey installation of AMR/AMI Systems nationwide. We have installed mobile, fixed, and mesh network systems and have worked with most of the industry's major product manufacturers including Sensus, Neptune, Itron, Elster, Badger, Master Meter, Mueller, Eaton and Aclara.

In the past ten years, PMI has installed over 250,000 Sensus meters and transmitters and we are very familiar with the Sensus FlexNet AMI system including the use of the CommandLink programming tool and Unipro software tool. PMI has worked directly for utilities of all sizes including the Village of Chicago to develop projects from conception through implementation. PMI is a preferred Sensus installation company and has been installing Sensus AMR/AMI products since 1999. PMI installed the first large deployment of a FlexNet system in Muskogee, Oklahoma, in 2007. Recently, PMI installed the first Sensus Ally system in the nation in Midwest Village, Oklahoma.

PMI has demonstrated its ability to handle every aspect of a utility meter replacement program. Our experienced management staff carefully monitors the overall installation program ensuring timely delivery of project data as well as quick and professional installation. Our training and quality programs enable our installers to perform superior work and deliver accurate data, while our safety program helps to protect both our employees and people around them.

PMI uses a proprietary Installation Tracking System (PMI-ITS) to manage and track meter change-out programs. The PMI-ITS serves as the central repository for all installation data collected for each project. A customized web-based interface (Project Web Portal) is developed for each project allowing access to a wide variety of project tracking statistics, installation data, problem logs, inventory tracking systems, and progress reports.

PMI runs a Customer Communication Center located in our corporate office in Morris, Illinois, with operations including customer notifications, customer communications, crew scheduling, and dispatching. Each project is assigned a dedicated toll-free number for customers to ask questions concerning the project or report problems concerning installations. Additionally, PMI offers web-based scheduling for customer convenience.

PMI has managed the mass installation of smart meters on dozens of projects in Illinois. Additionally, PMI is highly experienced in utilizing union labor and has worked with local union forces on over fifty projects. The assigned Project Manager will be based out of our corporate office in Morris, Illinois, and the assigned Project Field Manager will be onsite for the duration of the project. In the case of an emergency, a manager will contact the customer within one hour of receiving the call and arrive at the customer's premises ready to offer a resolution or correct any problems within two hours of receiving the call.

PMI has managed every type of mass meter project including inside-set and appointment jobs, meter pit jobs, and specialized plumbing jobs. In past projects, our installers have performed simple meter exchanges, new meter cut-in work, and plumbing repairs or modifications such as installing new meter pits, valves, adapters, re-plumbing and more. We have utilized both union and non-union labor

Delivering Innovative Metering Solutions Nationwide

forces and have experienced installers on every meter project. PMI has worked nationwide and is mindful to the specific needs of every utility. The variety of projects and types of customers we have performed work for has allowed us to create a management approach that is scalable to the needs of every mass installation program.

Qualifications

PMI is committed to exceeding our customers' expectations by dedicating professional, highly skilled team members to the project. Our proposed managers for this project have decades of management experience and are trained to work as an efficient, knowledgeable team, committed to excellence. PMI will supply a Project Management Team that will consist of a designated Project Manager, Field Manager, and Data Manager to ensure the project is implemented in a high-quality fashion.

The Project Manager will be the primary contact person for correspondence between the Village and PMI and will handle the successful execution and completion of the installation activities. The Project Manager reviews daily installation progress and productivity and ensures that data issues are being addressed promptly. The Project Manager will be in regular contact with the Village's project manager regarding project status, potential schedule and cost impacts, and quality issues. The Project Manager works as a liaison between field and office operations to ensure seamless operation between internal PMI groups. In the event an issue such as a claim or safety incident occurs, the PM will lead PMI effort in communicating issues to the Village and working to resolve.

PMI is proposing Thomas Guth as the Project Manager. Mr. Guth has been a senior project manager for PMI for thirteen years and has over twenty years of management experience. Notable recent mass meter installation projects include Oak Lawn, IL (16,500 meters), Elmhurst, IL (13,500 meters), and Hoffman Estates, IL (16,600 meters).

The Field Manager will see to it that inventory is scanned into and out of vehicles each day and manage installation resources including timecards, performance, safety, and quality in the field. Data issues are posted daily to the portal, and it is incumbent upon the field manager to resolve these issues in a timely fashion. The Field Manager is on call throughout the duration of the day to address questions, incidents, and claims arising from our daily installation efforts. The Field Manager hires and manages local installers, tracks inventory, and troubleshoots field issues including data issues identified by the data manager and posted daily to the project portal. The field manager implements the requirements of the project specific safety plan and addresses claims by investigation and writing up appropriate summary and resolution reports.

PMI is proposing Grant Haring as the Field Manager. Mr. Haring has been a Field Manager for PMI for seven years and has worked primarily on projects in Illinois utilizing local union labor. Notable mass meter installation projects include Oak Lawn, IL (16,500 meters), Waukegan, IL (20,000 meters), and Hoffman Estates, IL (16,600).

The Data Manager sets up the project portal and field deployed handheld computers and oversees implementation of the quality control program that includes 100 percent photo review and data check for all installations. The Data Manager reviews daily install records and fixes any data errors that are flagged by a series of scrubbing algorithms before data is uploaded to the utility. Any errors that cannot be fixed through photo review are communicated with the field manager to be resolved in a timely manner. After the data has undergone 100% photo review and is free from error, the Data

Manager is responsible for uploading the data in a format that is compatible with the Harris Innoprise billing system.

PMI is proposing Stan Kumor as the Data Manager. Mr. Kumor has been an IT Manager for PMI for twelve years and has over twenty years of computing and data management experience. Mr. Kumor is responsible for computer systems and data management for ongoing installation projects and has data managed over one hundred projects including Chicago, IL (300,000 meters), Western Virginia Water Authority (57,000 meters), and Chicago Consortium Project (47,000 meters).

PMI has collaborated with several customers with Harris Software to develop an interface for automatically uploading installation data into their billing system. Previous utilities that PMI resources have created this interface for include Germantown, WI, Alameda County Water District, CA, and New Braunfels Utility, TX. PMI has successfully created data interfaces with most of the leading billing systems in the nation.

Understanding of the Village's Meter Conversion Process

Proposer must provide a written response that highlights their understanding and accommodation of the Village's step-by-step process of entering a new meter into its billing system, Innoprise. The steps are enumerated below:

Village of Orland Park Meter Conversion Steps:

- 1. The VOP will create a Meter Conversion Service Order in Innoprise.*
- 2. The VOP will provide the installation contractor with a descriptive listing of targeted accounts.*

During the project set-up phase, PMI will generate a comprehensive list of all meters targeted for upgrade. PMI understands that accounts will be added, removed, or modified from the list as the project is deployed, but the initial list will serve as a foundation for PMI WOMS and a baseline to develop the installation sequence and schedule.

PMI uses a proprietary Installation Tracking System (PMI-ITS) for managing, collecting, and tracking field data. The PMI-ITS will serve as the central repository for all installation data collected throughout the project. A web-based interface will be developed allowing project personnel password protected access to a wide variety of project tracking statistics, installation data, problem logs, inventory tracking systems, and progress reports. Please see PMI's Data Management Methodology attachment for detailed information on our work order management system (WOMS) and quality control procedures.

- 3. The VOP has divided meter replacement targets into 6 individual zones.*
- 4. The new meters are to be installed by the installing contractor on a zone-by-zone basis.*

PMI will work closely with the Village to develop an installation sequence using zones and billing operations for executing the project. A unique project plan and schedule will be created that considers project planning, project set-up, project phases, and clean-up. Utility specific details such as black-out periods and product delivery dates will be factored into the overall schedule.

5. Installing contractor must record and provide the new meter number and other pertinent information to an electronic Inventory list accessible daily (beginning the day after installation) to the Village's staff and manually complete and provide to the Village's staff printed work orders daily.

All installation data is collected electronically via our proprietary iOS-based Installation Field Tool app. All data collected ranging from installation data, quality control data, photographs, and GPS coordinates are seamlessly collected and posted to the project web portal on near real time basis. Installation data will undergo a series of quality checks and one hundred percent photo review before being released to the Village for electronic upload to the billing system on a daily basis.

6. Village staff will update the existing meter record within Innoprise that consists of the following information at a minimum:

- a. Meter serial number*
- b. Manufacturer*
- c. Meter Type*
- d. Install date*
- e. Size of the meter*
- f. Unit of measurement (e.g., gallons)*
- g. The number of wheels/dials on the new meter register head (i.e., the number of digit displays available/corrected multiplier)*

7. Close out the Meter Conversion Service Order in Innoprise which must include:

- a. The old meter's final reading*
- b. The old meter's date of removal*
- c. The new meter's initial reading*
- d. Village staff will enter the new meter reading, install date, multiplier, and (if required) the new (MXU)SMARTPOINT number.*

8. Go to the meter and add the Smart Point (reading device) number which was connected to the old meter account.

PMI will equip each installation crew with the tools, data collection devices, and miscellaneous supplies needed to successfully complete a given meter installation. All installation data is collected electronically via our proprietary iOS-based Installation Field Tool app. PMI Field Tool uses simple, direct instructions to gather project-specific information. PMI's Field Tool workflow is completely customizable and virtually any data field can be collected during the installation process. PMI will collect and transmit the required information in a format compatible for automated upload into Innoprise.

9. When the register and smart point MXU's are verified, Village staff will perform and input the following corrected information in the existing innoprise software:

- a. Verify proper unit of measurement (Gallon) and meter reading resolution capability (1 Gallon).*
- b. Input correct multiplier equating to 1-gallon increment measurement.*
- c. Number of wheels/dials on the new meter register head (i.e., the number of digits displays available)*

10. Village staff to change the service unit to read in gallons. Assign the correct service type (e.g., Incorporated, Unincorporated, Orland Ridge, Commercial, etc.)

- a. Check that water is read in gallons and enter the date of entry*
- b. Check that sewer is read in gallons and enter the date of entry.*
- c. Check that storm is read in gallons and enter the date of entry.*

PMI will format data in the correct unit of measure and meter reading resolution capability.

- 11. Village staff to enter the old meter's last reading value to the metered account.*
- 12. Village staff to calculate and record the difference in quantity between the last billed meter reading and the final read of the old meter. This number will be used to adjust the next bill accordingly.*
- 13. Village staff to enter the recorded adjustment value for the upcoming billing cycle based on the old meter's last and final reading. Staff must make an adjustment to the following:*
 - a. Water bill adjustment*
 - b. Sewer bill adjustment*
 - c. Storm bill adjustment*
- 14. Village staff to enter the new meter's initial reading*

Due to PMI's high standards for its production team, a stringent quality assurance and quality control (QA/QC) program has been established. PMI has specialized quality assurance technicians assigned to every project. PMI takes a series of installation photos during the installation process. A pre-installation photo, old meter reading photo, old serial number photo, new meter and MXU photo, completed installation photo, and a Sensus successful activation photo. All installations are photo reviewed and compared against the data collected to ensure quality installation and a final clean worksite.

PMI uses the FlexNet daily read file to compare installation records against the network reporting reads. This confirms the serial number combination for meter/MXU, verifies the meter is not in a reverse flow condition, and that the setup and binding message was properly received. PMI uploads to daily read file to its work order management system to present read data directly on the project portal, enabling our team to track missed and stale reads and remedy any read issues efficiently.

Using PMI's advanced data reconciliation techniques, we can drastically reduce the number of mistakes in the field before it is entered into the Billing System. All installation data is subjected to quality control checks including:

- Job Type verification
- Premise verification
- Mistyped/scanned meter and transmitter numbers
- Meter/Transmitter pair verification
- GPS location verification
- Size verification
- Read verification

Customer Response Plan

Professional Meters, Inc. (PMI) is committed to providing customer service to the highest standards. The key to the success of our team is the thorough knowledge of customer response procedures and training on job-specific details. All team members are trained to deliver excellent customer service by responding to our customer's needs and requirements in a timely, courteous manner.

PMI maintains an internal Call Center staffed with trained customer service representatives (CSR's). Each CSR assigned to a specific project will be trained with job specific details and FAQs to answer customer complaints or concerns. Each project is assigned a dedicated toll-free number for customers to ask questions or report problems concerning installations. The Call Center offers English and Spanish languages and 24/7 emergency contact to address customer concerns. Our CSR's and managers are trained to resolve any issues to a high standard within set time scales.

Many successful projects PMI has managed in the past offered educational material describing the overall program to the customer base prior to commencing meter installations. PMI has assisted utilities in developing appropriate information to include in press releases via mailings or social media. Other assistance includes updating the utility website with program information, information on what the customer can expect pre and post installation, and FAQs. Educational materials can include pictures or a short video showing a typical installation, vehicle (with logos), typical installer (with uniform), and finished installation (meter and module).

Water meters that are pre-determined to be located indoors will require an appointment to gain access to the existing meter. PMI will send up to three postcards to each targeted meter account while attempting to schedule an appointment. It is strongly suggested the language becomes increasingly firm citing possible shutoff or surcharges should the customer not respond. Notification "sent dates" and response rates will be documented and presented on the project web portal. Please see below postcard notification samples:

Delivering Innovative Metering Solutions Nationwide

PMI Data Management Methodology

Introduction:

Professional Meters, Inc. (PMI) uses a proprietary Installation Tracking System (PMI-ITS) to manage and track meter change-out programs. The best-in-class work order management system includes a proven and successful track record of accurately tracking installation data and seamlessly delivering data to the customer's billing system/CIS. Installation data, including pictures, is posted on a near real-time basis to our intuitive password protected web-based project portal. The PMI project portal is a highly customizable, proven system for managing large-scale utility meter change out programs.

System Overview:

The PMI-ITS will serve as the central repository for all installation data collected for this project. A web-based interface will be developed allowing project personnel password protected access to a wide variety of project tracking statistics, installation data, problem logs, inventory tracking systems, and progress reports. The PMI-ITS is comprised of field deployed handhelds, office-based servers, and web-based reporting and tracking. The handhelds are preloaded with a unique work order for each targeted installation and all pertinent existing meter data is available to the installer at the time of installation. The handheld device is used as both a collection device for new installation data as well as a quality tracking tool.

Project Web Portal:

Each project will have a dedicated Project Portal developed allowing project personnel password protected access to a wide variety of project tracking statistics, installation data, problem logs, inventory tracking systems and progress reports.

PMI WOMS has a number of established reports that have been used for accurately tracking the progress and quality of installations. Below is a list of the most commonly used reports within the WOMS.

- **Missed read report:** PMI can import a daily read file from the meter reading system. PMI compares installation data against the daily read file for a quality check to make sure the

previous days installations are successfully reporting into the system. In the event a meter is not reporting successfully after installation, a troubleshooting crew will be sent to the location to investigate.

- **Install report:** a list of all installed meters and associated serial numbers and readings.
- **Daily install report:** a high-level view of quantity of installations for the day.
- **Weekly install report:** a high-level view of quantity of installations for the week.
- **Install Detail:** a detailed view of the individual work order to include a historical tracking of the new meter readings, pictures of the install, old and new serial numbers, GPS with map of location, installation notes, call center notes, and all utility-provided information regarding the account.
- **Return-to-Utility:** a list of all accounts that require utility action or approval prior to installing the meter using normal installation techniques.
- **Complaint Log:** a log of all customer complaints or issues with account information, report date, complaint, resolution status, and resolution.
- **Upload Summary:** a list of all accounts ready for upload into UBS.
- **Invoice Backup:** a list of all accounts ready for invoice.
- **Photo Review:** a tool used by customer to grade the quality of photos taken in the field.
- **Error Summary:** a listing of all meters that did not pass the initial error checking process and photo review.
- **Bad read report:** a list of accounts where the reading did not meet the high/low consumption criteria.
- **Serial number mismatch:** a list of meters where the found serial number did not match the serial number provided by the Utility.
- Additional reports can easily be created and posted to the project portal for utility use on an as-needed basis. All reports will be exportable to Excel or other preferred format.

Project progress is tracked by zone, date, and install type and will be presented to project personnel in report and graphical form:

PMI's portal can interface with the manufacturer's meter reading software and a daily read will be posted to each work order in both a tabular and graphical format (as shown above).

Data Collection:

All installation data is collected electronically via our proprietary iOS-based PMI Field Tool app. PMI uses barcode equipped handheld data collection devices in the field to capture pertinent installation details. All data collected ranging from installation data, quality control data, photographs, and GPS coordinates are seamlessly collected and posted to the project web portal on near real time basis. Installation data will undergo a series of quality checks and **one hundred percent photo review** before being released to Utility for electronic upload to the billing system.

PMI takes a series of installation photos during the installation process. At a minimum, PMI will collect a pre-installation photo, old meter reading photo, new meter and transmitter photo, completed installation photo, and a final photo of the site with the lid secured and mounted or transmitters secured to outside of building.

Field Managers will divide up scheduled accounts in a given route to each installer. During the daily morning briefing, Installers are issued their work orders for the day and are assigned a vehicle with appropriate equipment for the targeted work orders. Installers then proceed to the designated locations.

PMI Field Tool preloads every handheld with a work order for each targeted installation and all pertinent existing meter data is available to the installer at the time of installation. Each account is assigned a unique "PMI" number for identification. When the installer arrives at a location and inputs a PMI number, they will be prompted to verify they are at the correct location:

PMI Field Tool uses simple, direct instructions to gather project-specific information. PMI's Field Tool work flow is completely customizable and virtually any data field can be collected during the installation process:

PMI's Field Tool serves as both a collection device for new installation data as well as a quality tracking tool. A series of QA/QC questions are collected at the end of every installation:

PMI's WOMS has the capability of tracking installers throughout the day using GPS technology, giving managers and project personnel access to where crews are working on any given day. Each crew is labeled with a specific identification number and their progress can be viewed live on a Google maps interface presented on the PMI Project Portal:

Crew Tracker

Quality Assurance/Quality Control:

Due to PMI's high standards for its production team, a stringent quality assurance and quality control (QA/QC) program has been established. PMI has specialized quality assurance technicians assigned to every project. All projects begin with 100 percent verification of every installer's work for the first two weeks of production. Error rates are tracked electronically through our data verification process. If a technician's error rate falls below the standard, the technician is retrained for an additional period. PMI provides consistent and strict quality verification for the remainder of the project using retraining and corrective actions as appropriate. These standards have earned PMI an outstanding quality performance record.

If made available by the manufacturer, PMI uses a daily read file to compare installation records against the network reporting reads. This confirms the serial number combination for meter/MXU, verifies the meter is not in a reverse flow condition, and that the setup and binding message was properly received. PMI uploads to daily read file to its work order management system to present read data directly on the project portal, enabling our team to track missed and stale reads and remedy any read issues efficiently.

Reading Rate

Total	Good	No Read	Bad Read	Stale	Unable	Read Rate
7858	7664	141	0	53	0	97.53

Using PMI's advanced data reconciliation techniques, we can drastically reduce the number of mistakes in the field before it is entered into the Billing System. All installation data is subjected to quality control checks including:

- Job Type verification
- Premise verification
- Mistyped/scanned meter and transmitter numbers
- Meter/Transmitter pair verification

- GPS location verification
- Size verification
- Read verification

If an installation record is flagged by one of the automated quality control checks, the installation record is presented to the Field Manager for resolution on an Errors Summary report. The Field Manager is responsible for investigating the errors and creating a "Field Note" associated with the work order with a resolution to the error. Each project is assigned Quality Control Technicians with the ability to edit installation data. Quality Control Technicians will use the information in the manager's field note to update the installation data with the correct data prior to upload. The system's redundancies and checks and balances structure ensures that accurate data is uploaded 99.9% of the time.

Additionally, **100% of meter installations are photo reviewed** to ensure proper old read collection, validate old serial number if visible, validate new meter and transmitter numbers if visible and confirm meter and transmitter appear properly installed and lid properly seated. The photo reviewer is trained to verify photo quality and content and error rates are tracked electronically on the web portal. Any installation failed by the photo reviewer will be presented in a Photo Fail Summary report to the Field Manager who *must* review installation record prior to approving for upload.

Inventory Management:

PMI uses a very robust industry leading inventory control process. The process begins with a factory file provided by the manufacturer listing all serial numbers shipped to the yard. As PMI begins to take possession of the meters and endpoints, they are barcode scanned into PMI inventory creating a "stock" inventory. Each day, meters and endpoints are taken from "stock" and scanned into each installation vehicle creating a "rolling" inventory. As the meters are installed, the serial numbers are quality checked against PMI inventory file. At the end of the day, meters and

endpoints are scanned back into stock inventory and a final reconciliation of daily rolling, installed meters, and stock inventory is calculated. If there is a discrepancy in the rolling, stock and calculated inventory, a report is generated for the field manager to reconcile.

Data Integration:

PMI's work order management system integrates with the meter reading software to ensure each meter is successfully reporting to the system. When a new meter is installed, PMI is checking to confirm it is properly registered and reading on the network the next day with this information readily available to the utility. The data from the meter reading software is integrated into our quality check process prior to release of data to the billing system.

Davis

Reading Rate

Total	Good	No Read	Bad Read	Stale	Unable	Read Rate
7868	7655	151	0	62	0	97.29

A daily read for every installed meter will be posted to each work order in both a tabular and graphical format to track consumption and reading performance throughout the project.

After the installation record has undergone photo review and is free from error, the data will be automatically uploaded to the utility based on established methods. PMI will format the installation data to upload meter exchange data en-mass via the web portal or FTP site. Quality checks are generally completed within 24 hours and the vast majority of meter upgrade data is then posted for upload to the CIS.

In the event there is an issue with data that has been uploaded into the UBS incorrectly, PMI will field verify and work with the utility to reconcile the error. If the data has been uploaded into the billing software, PMI will assist in providing the correct information. The data will be re-uploaded using a file generated by PMI or updated manually in the billing system.

Summary:

The hallmark of our company is our ability to rapidly deploy new meter reading systems while simultaneously collecting and transmitting the highest quality installation data. We believe the proprietary systems we use to collect and scrub installation data results in our customer's being delivered unparalleled installation data quality.

..Title

Water Meter Replacement and Installation - RFP 22-062

History

On October 3, 2022, the Village issued Request for Proposal (RFP) 22-062 "Water Meter Replacement Program Installation," for Village-wide replacement of all small and large

water meters in the system. The project consists of the provision of all labor and equipment necessary to complete the scope of work.

The Village began replacing its aging water meters in 2012 with Sensus iPerl meters. Over eighty-two (82) percent of the in-service water meters are old, mechanical-style three-quarter (3/4) inch in diameter, which is widely used for single-family homes and represents the majority of the Village's residential customers. Collectively, this group accounts for over seventy (70) percent of the volume of water billed from 2019-2021, with commercial users representing the next largest share at nineteen (19) percent. The Village is looking to replace a total of sixteen thousand four hundred thirty-five (16,435) water meters, ranging from three-quarter (3/4) inch residential to four (4) inch commercial meters.

There are several factors that can contribute to meter inaccuracy including, but not limited to, flow rates outside the meter's operating range, mechanical wear and tear, debris or deposit build-up, and sensor drift. In particular, older mechanical meters are susceptible to degradation due to material build-up and pitting caused by air pockets in the water, which cause the meter to under-report the actual consumed water. Based on a comparative analysis with two (2) other industry competitors for similar communication (AMR/AMI) systems, the Village's existing Sensus FlexNet AMI and Sensus iPERL are recommended to be kept and continued as part of the on-going meter replacement initiative. This strongly benefits the Village which has gained familiarity with the platform, as well as the lower costs associated with the implementation of the existing infrastructure. Additionally, Baxter & Woodman and Professional Meters, Inc. will be working with the Village's Finance Department to keep the meter progress and the financial system up to date with the most current information.

Public Works contracted Baxter and Woodman Engineering of Mokena, Illinois as a consultant to assist with the selection of the best firm to complete this project. When RFP 22-062 opened on October 20, 2022, four (4) proposals were received. All four (4) proposals have been reviewed by Public Works staff and Baxter & Woodman. Although all the bids were received from qualified bidders, Water Services Company did not submit the required Technical Proposal, and has been eliminated from the evaluation process. The three (3) remaining responsive bidders were scored on the following: Technical Proposal (50%), Proposed Schedule (20%), and Cost (30%). The scoring matrix and Baxter & Woodman's recommendation letter are attached. A summary of the proposed prices is below.

Calumet City Plumbing of Calumet, Illinois was \$3,274,990.00
Professional Meters, Inc. of Morris, Illinois was \$3,148,585.00
United Meters, Inc. of Morris, Illinois was \$3,118,533.00

Based on bidder qualifications, Baxter & Woodman and Public Works staff recommends approving the proposal from Professional Meters, Inc. of Morris, Illinois, for the Water Meter Replacement and Installation Project for \$3,500,000.00 (\$3,148,484.92 plus \$351,515.10 contingency). Higher contingency recommendation is due to the unforeseen conflicts and additional materials that may be necessary for installation, which includes

replacement of plastic couplings with brass, broken valves, and large meter flange connection replacements.

Financial Impact

Funds are available in account 5008150-463350, pending the Board's approval of the 2023 Budget.

Recommended Action/Motion

I move to approve awarding RFP 22-062 to Professional Meters, Inc. of Morris, Illinois, for a total amount not to exceed \$3,500,000.00 (\$3,148,484.92 plus a contingency of \$351,515.10);

AND

Authorize the Village Manager to execute all related contracts, subject to Village Attorney review;

AND

Allow the Village Manager to approve change orders not to exceed the contingency amount.
