

AMERICAN TECHNOLOGY SOLUTIONS

Proposal for ATS MyPayStub™ Portal System

Created for:

Village of Orland Park

November 10, 2009

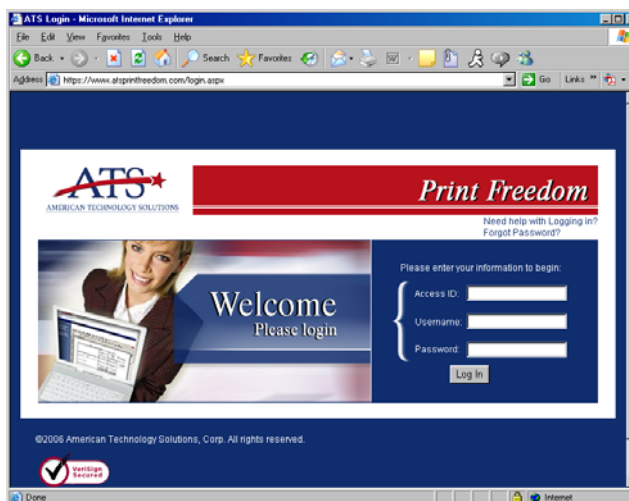

INTRODUCTION

American Technology Solutions (ATS) provides a complete automated solution for managing, distributing, and administering payroll documents. ATS MyPayStub™ is an online web-based solution that provides both system administrators and employees online access to their payroll and other documents 24 hours a day 7 days a week. ATS MyPayStub™ is a service that automates the distribution of electronic documents and helps facilitate the entire process. With this employee self-service pay stubs will remain available to employees for up to one year.

Employees can access their pay stubs through a secure, web interface. They may view, print or email their pay statements. If the employee still prefers a paper-based copy the system can accommodate them as well.

ATS MyPayStub™ can be configured to outsource the printing and distribution of paper Payroll Checks, Direct Deposit Statements and W-2s. The documents are folded to create a mailer that is sealed during production. There are no envelopes. The documents can be mailed directly to the employee or shipped to one or more locations for your distribution. ATS MyPayStub™ is a seamless integrated service for all employees, no matter how they receive their information.

Employer Advantages

- Reduce printing costs, forms costs, and postage costs
- No software or hardware investment required.
- Improve service and see a measurable return on investment.
- Reduce the usual flood of phone calls for questions, reprints, and corrections.
- Eliminate the need to track down lost deposit notices to make copies.
- Provides online access for active and terminated employees.

Employee Advantages

- Access documents earlier than traditional mailing.
- Eliminates the chance that the pay stub will get lost, misdirected or delayed during delivery, or misplaced once the employee receives it.
- View and print current or past pay stubs when most convenient, in the home or office.
- Obtain additional copies for reprint anytime and anywhere.

About ATS

American Technology Solutions, Corp. is a dedicated group of specialists committed to serving the needs of busy Payroll Managers. The ATS vision is clearly focused on the efficient production of Payroll, Direct Deposit and year-end tax forms using the latest and most innovative technologies. ATS understands the issues many organizations face today and has developed and applied technology to really help with that process. Our mission is to provide our clients with timely and efficient document and tax form delivery and reporting. Most importantly, ATS works very hard to help ease the hassles and headaches of your ongoing print and mail process. Since ATS is 100% dedicated to the document output process, the level of attention each of our clients receive is unmatched in the industry. To stand behind our commitment, ATS offers a 100% money back guarantee if you are not completely satisfied with the service provided.
