Said rezoning and variances are also in accordance with the provisions of the Comprehensive Land Use Plan of the Village.

SECTION 2

from E-1 Estate Residential District to R-3 Single-Family Residential District under the Code, as amended.

### SECTION 3

In addition to the findings set forth in Section 1 hereof, this Board of Trustees further finds, in relation to the proposed variances as follows:

A. The Subject Property contains approximately 5.0 acres and is located within the Village of Orland Park in Cook County, Illinois, at 10595 W. 167<sup>th</sup> Street. The Subject Property is of the type contemplated in Section 6-204(B) of the Code and is being developed in accordance with a site plan best suited for the Subject Property. The plan is to develop the Subject Property for seven (7) single-family lots and one (1) storm water detention pond outlot (which includes a small park area) under the R-3 Residential Zoning classification, with variances as set forth in SECTION 4, below. The site provides for adequate buffering of the proposed uses from surrounding land uses.

B. The proposed use of the Subject Property is consistent with the purposes, goals, objectives and standards of the Comprehensive Plan, any adopted overlay plan and the Land Development Code. The Comprehensive Plan designates this property as Single-Family Residential (R-3) in the Grasslands Planning District.

C. The proposed development will be consistent with the character of the immediate vicinity of the Subject Property. To the south, east and west is single-family residential and to the north is Panduit Corporation (manufacturing).

D. The proposed use of the Subject Property creates no adverse effects, including visual impacts, on adjacent properties. The proposed development will not adversely affect the value of adjacent property.

E. The Petitioner has demonstrated that public facilities and services, including but not limited to roadways, park facilities, police and fire protection, hospital and medical services, drainage systems, refuse disposal, water and sewers, and schools will be capable of serving the development at an adequate level of service. Adequate measures have been or will be taken to provide ingress and egress so designed to minimize traffic congestion in the public streets. The entrances and exits will comply with all applicable requirements, and internal traffic is adequately provided for.

F. Petitioner has made adequate legal provision, through park land donation to the Village and home owner covenants, to guarantee the provision and preservation of all open spaces designated on the site plan and other improvements associated with the development.

G. The proposed use will not adversely affect a known archaeological, historical or cultural resource.

H. The proposed development shall comply with all additional standards imposed on it by all other applicable requirements of the ordinances of the Village and the Annexation Agreement authorized and approved by this Village President and Board of Trustees dated July 6, 2015 (the “Annexation Agreement”).
