George

Last board meeting you asked trustees for additions to the legislative agenda. The intent was to focus the lobbyists attention on Orland Park issues. I agree that we should push for change especially on fiscal and safety issues.

Here are the additions that I would like to see:

1. Repeal the Safety Act – (take unreasonable punitive liabilities off our field officers)
2. Repeal the Illinois Trust Act – which bans cooperation in any way with immigration law enforcement
3. Endorse efforts to clean voter rolls of dead, duplicate, illegal immigrants and other fraudulent registered voters.
4. Endorse Term limits for all elected state officials (our referendum passed by a significant margin)
5. Endorse efforts to curb Robocalls (a plague on our Village)
6. Endorse efforts to criminalize Robocalls which are of the vile nature Orland Park has experienced
7. Endorse campaign finance reform –
8. Endorse eliminating Orland Township and have the municipalities take over.

I would like to know if the current lobbyists have, in the past, taken positions in promoting or attacking these particular agenda items. It may speak to enthusiasm at which they sell our concerns.

I will let you know if other issues come to mind.

Bill Healy
