The parties hereto have determined that it is in the best interests of the Village and the Developer and in furtherance of the public health, safety, comfort, morals and welfare of the community to execute and implement this Agreement and that such implementation of this Agreement and development of the Subject Property pursuant to its terms and conditions will constitute an improvement of the tax base of the Village, be in implementation of the comprehensive plan of the Village and will constitute a preservation of environmental values.

6. Developer covenants and agrees that it will execute all necessary directions and issue all necessary instructions and take all other action necessary to direct and require Developer to perform its obligations hereunder.

SECTION ONE: Variations, Plan Approval and Subdivision.

A. The Subject Property shall be developed with an approximately 4,000 sq. ft. building addition connecting the two existing buildings of approximately 10,000 sq. ft. each, substantially in accordance with the Preliminary Plan entitled "Preliminary Site Plan for Oasis Enterprises," dated 9/14/2007, drawn by Lagestee-Mulder Construction, Development and Real Estate, project number 213-06, appended hereto and incorporated herein as EXHIBIT A. The Developer agrees that the Subject Property shall be developed substantially in accordance with said Preliminary Plan (EXHIBIT A) as approved or as may be subsequently amended and approved by the Village, and in accordance with supporting preliminary and final engineering drawings and plans to be submitted to the Village Engineer for review and approval, subject to the condition that a Final Landscape Plan be submitted for review and approval that includes the following:

1. Addition of a "Type D buffer yard" (see Code Section 6-305) in the 30-foot setback to the rear of the building, including the preservation of any existing healthy plant material; and
2. Planting of two additional Honey Locust trees in the parkway, to be located in front of the southern parking lot; and
3. Addition of a minimum of fourteen (14) additional evergreen shrubs between the face of the southern parking lot and 70th Court; and
4. Addition of a minimum of one (1) tree and five (5) low shrubs in each new tree island; and
5. Addition of five (5) evergreen trees to the south of the southern parking lot expansion; and
6. Addition of a minimum of three (3) evergreen or ornamental trees and ten shrubs in each of the new planting beds adjacent to the loading docks; and
7. Preservation of existing healthy plant material on the site wherever possible.

B. The requested variances from the number of otherwise required parking spaces from 47 to 35 and from the location requirements for loading docks to permit three head-in loading docks between the building and the street, are conditioned on completion of the landscaping required in part A, above.

C. Building elevations shall be pursuant to the Building Elevations prepared by Lagestee-Mulder, dated 9-14-07, Project Number 213-06, Sheet A2.

D. Developer shall consolidate the two lots comprising the Subject Property and record a plat of consolidation with the Cook County Recorder's Office before the issuance of building permits for development of the Subject Property.

SECTION TWO: Contributions.

Upon, and as a condition to, the issuance of a building permit, Developer shall make the Fair Share road exaction contribution for the approximately 4,000 sq. ft. addition to be constructed as set forth the Code, Section 5-112K(6), of \$0.60 per square foot.

The Village shall solely determine how said sums so paid shall be allocated and disbursed.

SECTION THREE: Storm Water Retention/Detention and Storm Sewers.

Storm Water run off emanating from the Subject Property shall be retained or detained in accordance with a storm water management system for the Subject Property to be constructed and installed by the Developer, as finally may be required and approved by the Village. Such system shall include all storm water management facilities, including both on-site and off-site storm sewers, if needed, in accordance with final engineering plans approved by the Village. The design criteria, construction and maintenance of the storm sewers shall be in accordance with all standards of the Village in force on the date of final plat approval for each phase, and also all standards of the Metropolitan Water Reclamation District of Greater Chicago in effect at the time of final plat approval, and shall be completed by the Developer at its expense. All storm water detention/retention facilities shall be maintained by the Developer. Village and Developer agree that there are no storm water management facilities to be constructed in connection with this project.

SECTION FOUR: Water Supply.

Developer shall be required to construct and install at its expense all necessary on-site water mains to service the Subject Property. All such water mains shall be constructed and installed in accordance with the Code and final engineering plans approved by the Village. The Developer shall pay to the Village the required water connection charge(s) based upon the size of the connection(s) in accordance with Village ordinances.

SECTION FIVE: Sanitary Sewers.

Developer shall be required to construct and install at its expense all necessary sanitary sewers to service the Subject Property in accordance with the Code and final engineering plans approved by the Village.

SECTION SIX: Streets, Sidewalks and Street Lights.

The Developer shall construct and install all streets, sidewalks, walking paths, ramps and street lights as shown in EXHIBIT A (and as modified in accordance herewith) and in accordance with the Code and approved engineering.

SECTION SEVEN: Easements.

The Developer agrees at the time of approval of this Development Agreement to grant to the Village, and/or obtain grants to the Village of, all necessary easements for the extension of sewer, water, street, or other utilities, including cable television, or for other improvements that may serve not only the Subject Property, but other territories in the general area.

All such easements to be granted shall name the Village and/or other appropriate entities designated by the village as grantee thereunder. It shall be the responsibility of the Developer to obtain all easements, both on site and off site, necessary to serve the Subject Property.

SECTION EIGHT: Developmental Codes and Ordinances and General Matters.

The development of the Subject Property shall be in accordance with the existing building, zoning, subdivision, storm water retention and other developmental codes and ordinances of the Village as they exist on the date hereof, or as are in existence during development of the Subject Property. Planning and engineering designs and standards, and road construction and dedication of public improvements, shall be in accordance with the then existing ordinances of the Village or in accordance with the statutes and regulations of other governmental agencies having jurisdiction thereof if such standards are more stringent than those of the Village of Orland Park at such time.

No occupancy permit shall be issued for any building prior to the completion and acceptance by the Village of the required public improvements. All required public improvements shall be completed within one (1) year from the date hereof and the Developer shall deliver to the Village an irrevocable letter of credit in a form satisfactory to and from a bank or financial institution and in an amount as provided for in the Land Development Code of the Village, said Letter of Credit to include all costs related to required lighting, landscaping, sidewalk, sewer and water lines and storm water management facilities. The Village Engineer may, in his discretion, permit the amount of said letter of credit to be reduced, from time to time, as major public improvements are completed.

SECTION NINE: Utilities.

All electricity, telephone, cable television and gas lines shall be installed underground, the location of which underground utilities shall be at the Developer's option.

SECTION TEN: Impact Requirements.

Developer agrees that any and all contributions, dedications, donations and easements provided for in this Agreement substantially advance legitimate governmental interests of the Village, including, but not limited to, providing its residents, with access to and use of public utilities, streets, fire protection, and emergency services. Developer further agrees that the contributions, dedications, donations and easements required by this Agreement are uniquely attributable to, reasonably related to and made necessary by the development of the Subject Property.

SECTION ELEVEN: Binding Effect and Term and Covenants Running with the Land.

This Agreement shall be binding upon and inure to the benefit of the parties hereto, successor owners of record of the Subject Property, assignees, lessees and upon any successor municipal authorities of said Village and successor municipalities, for a period of seven (7) years from the date of execution hereof and any extended time that may be agreed to by amendment.

The terms and conditions of this Agreement relative to the payment of monies to the various contributions to the Village, construction and/or dedication of public improvements, granting of easements to the Village, dedication of rights-of-way to the Village and the developmental standards established herein shall constitute covenants which shall run with the land.

In the event that any third party or parties institute any legal proceedings against any party hereto, which relate to the terms of this Agreement, then, in that event, the Developer on notice from Village shall assume, fully and vigorously, the entire defense of such lawsuit and all expenses of whatever nature relating thereto unless such suit arises solely out of the gross negligence or willful misconduct of the Village; provided, however:

1. Developer shall not make any settlement or compromise of the lawsuit, or fail to pursue any available avenue of appeal of any adverse judgment, without the approval of the Village.
2. If the Village, in its sole discretion, determines there is, or may probably be, a conflict of interest between Village or Developer on an issue of importance to the Village having a potentially substantial adverse effect on the Village, then the Village shall have the option of being represented by its own legal counsel. In the event the Village exercises such option, then Developer shall reimburse the Village from time to time on written demand from the President of Village and notice of the amount due for any expenses, including but not limited to court costs, reasonable attorneys' fees and witnesses' fees, and other reasonable expenses of litigation, incurred by the Village in connection therewith.

In the event the Village institutes legal proceedings against Developer for violation of this Agreement and secures a judgment in its favor, the court having jurisdiction thereof shall determine and include in its judgment against Developer all expenses of such legal proceedings incurred by Village, including but not limited to the court costs and reasonable attorneys' fees, witnesses' fees, etc., incurred by the Village in connection therewith. Where Village approval or direction is required by this Agreement, such approval or direction means the approval or direction of the Corporate Authorities of the Village unless otherwise expressly provided or required by law, and any such approval may be required to be given only after and if all requirements for granting such approval have been met unless such requirements are inconsistent with this Agreement.
