

CHAPTER 2

STREETS AND PUBLIC WAYS

SECTION:

3-2-1 : Street Names

3-2-2 : Address Numbering System

3-2-2-1 Scope

3-2-2-2 Responsibility

3-2-2-3 Address Numbering Standards

3-2-1 : STREET NAMES:

The names of all streets shall be placed on all street corners and no person shall injure, deface or obstruct any such street sign.

3-2-2 : ADDRESS NUMBERING SYSTEM:

The primary purposes of establishing the address numbering standards provided for in this chapter is to promote the public health, safety, and welfare of the community by establishing a consistent and clear manner to locate properties and to ensure the efficient delivery of mail, packages, goods, and services to properties located within the Village of Orland Park ("the Village").

3-2-2-1 : SCOPE:

This chapter shall be applicable to the assignment of all new addresses and/or unit numbers or modifications to existing addresses and/or unit numbers of properties located within the Village, and it shall also be applicable to all existing properties within the village.

3-2-2-2 RESPONSIBILITY

The Development Services Department is responsible for the assignment of addresses for all structures and properties in the Village and for the enforcement of this chapter. Addresses shall be assigned by the Director of Development Services, or the Director's designee.

3-2-2-3 ADDRESS NUMBERING STANDARDS:

- A. Base Lines: All lots or houses located on the north and south streets or on streets running in a northerly and southerly direction shall be numbered from Madison Street (City of Chicago) as a base line, beginning with number "1" at the south line of said Madison Street and increasing toward the south. All lots or houses located on the east and west streets or on streets running in an easterly and westerly direction shall be numbered from State Street (City of Chicago) as a base line, beginning with number "1" at the west line of said State Street and increasing toward the west.
- B. Address Blocks: There shall be assigned to each mile eight hundred (800) numbers, or one hundred (100) numbers to each one-eighth (1/8) mile on all streets. Such numbers shall be changed from any one hundred (100) to the succeeding one hundred (100) at the intersecting street nearest the said one-eighth (1/8) mile line.
- C. Even and Odd Numbers: The even numbers on north and south streets, or on streets running in a northerly and southerly direction, shall be on the west side of said streets. The even numbers on east and west streets, or on streets running in an easterly and westerly direction, shall be on the north side of said streets.
- D. Determined By Front Facade: Addresses shall be assigned based on the orientation of the front façade and front door of a building. For vacant lots with multiple street frontages, a temporary address shall be assigned pending the issuance of a building permit. At such time that a building permit is issued for a principal building, the temporary address shall be confirmed or changed to match the orientation of the front façade and door.
- E. Successive Numbers: Addresses shall be assigned in only whole, successive numbers, and no particular address numbers or combination of numbers shall be avoided for any reason.
- F. New Subdivisions: Lots located within a newly approved subdivision shall be assigned an address by the Director of Development Services, or the Director's designee, at the time the final plat of subdivision is approved.
- G. Cul-De-Sacs: For properties located on a cul-de-sac, addresses shall be assigned with even numbers on the north or west and odd numbers on the south or east beginning at the intersection. The midpoint of the bulb shall be used to define the split between odd and even numbers.

- H. Single-Family Dwellings: One address shall be assigned to each single-family dwelling unit in accordance with the street address numbering standards established in this chapter.
- I. Two-Family Dwellings: One address shall be assigned to each of the two (2) dwelling units in accordance with the street address numbering standards established in this chapter.
- J. Townhomes/Row Homes: One address shall be assigned to each townhome or row home dwelling, in accordance with the village's street address numbering standards as herein established. If a sufficient number of addresses is not available to accommodate individual addressing of townhomes and/or row homes, without requiring changes in the address(es) of adjacent property(ies), then, in such event, one address shall be assigned to the townhome and/or row home building and each townhome and/or row home dwelling unit shall be assigned a separate unit number, letter, or a combination thereof.
- K. Multiple-Family Dwellings: Apartment buildings or condominium buildings with a common building entrance shall be assigned one common address number at the building entrance, and the individual units within such multiple-family dwelling shall be assigned unit numbers and/or letters, or a combination thereof. Individual unit numbers shall be assigned to indicate the level or story upon which each such unit is located within the building and a unit number, letter, or a combination thereof.
- L. Commercial, Industrial, and Office Buildings:
 - 1. Commercial, industrial, and office buildings with a common building entrance shall be assigned one address number for the building entrance, and the individual units located therein shall be assigned a separate unit number, letter, or a combination thereof. Individual unit numbers shall be assigned to indicate the level or story upon which each such unit is located within the building and a unit number, letter, or a combination thereof.
 - 2. Commercial, industrial, and/or office buildings with individual exterior entrances for each unit shall be assigned one address number per exterior building entrance.
- M. Parks and Open Spaces: Park properties, designated open spaces and their related structures, facilities, and features shall be assigned an address based upon the location, street access, or parking areas, for reference and locational purposes.

O. Utilities and Stormwater Detention Facilities: An address shall be assigned to properties dedicated for utility facilities, including but not limited to stormwater detention outlots, for reference and locational purposes.
