Reference: Restoration of Municipal Basin 16-06 - 2023-2024

Dear Josh,

Thank you for contacting Davey Resource Group, Inc., “DRG” to provide you with this proposal to complete the scope of services listed below at the Municipal Basin 16-06 in Orland Park, IL. This proposal is inclusive of all labor, material, and equipment required to perform the scope of work listed below.

Scope of Work

Woody Vegetation Removal & Stump Herbicide Application:

Work include removal of all non-native woody species as well as Black Locust equal to and under 8 inch DBH. A forestry mower on a tacked skid steer will be used to mow and mulch all tree. Any trees marked for removal that cannot be mulched will be either stockpiled and burned on site or chipped and disposed of off site. Hand cutting may be needed for tree too large for the forestry mower and or areas where the mower cannot reach.

Preseeding Vegetation Management and Dead Vvegetation Removal Year 1 & 2:

- Boom Spraying

Drone boom spray application includes an herbicide application via an unmanned aircraft system, that is operated by an FAA licensed pilot. The goal of the drone application is to control invasive species within the wetland via a non selective application. The spray solution will be premixed off site, transported to the the spray unit then transferred to the drone's spray tanks. Sparying will occur under low wind speeds to prevent drift.

- Spot Herbicide Application

Three (3) visits for spot herbicide application will be made throughout the growing season to control weeds within the BMP basin/native landscape, outside of the Phragmites monoculture. Control methods will include hand cutting, pulling, selective mowing, and herbicide application as appropriate. Stewardship efforts will focus on particular weed problems as they arise throughout the season and will be directed by the recommendations of the field supervisor.

- Dead Vegetation Mowing and Removal

One visit will be made to mow down the dead Phragmites vegetation from the boom sprayed area. Mowing will be conducted using a tracked skid steer with a mower attachment, a swamp tracked Gradall with a mower attachment and/or a Menzi Muck with a mower attachment. Work will take multiple days to complete and can be completed. Biomass generated from the mowing will either be incorporated into the ground surface, stockpiled and burned or collected and hauled off site. Price only include one mobilization in and out. If incorporated into the surface, mown thatch is to remain on site to decompose naturally.

All work is done under the general supervision of a field supervisor. Our field staff is uniformed and supervised by working foreman. All vehicles and equipment are marked with the company logo. This allows you the assurance of easy identification of our equipment and personnel.

This proposal can be implemented by either issuing a purchase order, or by signing the Authorization to Proceed below and returning to our office. Please feel free to only choose the line items for the work you would like DRG to perform at this time.

If you have any questions or wish to arrange for a meeting to discuss this scope of work and more specifically the treatment methods and areas, please call me at 630.559.2035. Thank you for allowing DRG the opportunity to work with you.

Sincerely,

Nazario Rivas

Area Manager

LIMITED WARRANTY

Davey Resource Group, Inc. ("DRG") provides this limited warranty ("Limited Warranty") in connection with the provision of services by DRG (collectively the "Services") under the agreement between the parties, including any bids, orders, contracts, or understandings between the parties (collectively the "Agreement").

Notwithstanding anything to the contrary in the Agreement, this Limited Warranty will apply to all Services rendered by DRG and supersedes all other warranties in the Agreement and all other terms and conditions in the Agreement that conflict with the provisions of this Limited Warranty. Any terms or conditions contained in any other agreement, instrument, or document between the parties, or any document or communication from you, that in any way modifies the provisions in this Limited Warranty, will not modify this Limited Warranty nor be binding on the parties unless such terms and conditions are approved in a writing signed by both parties that specifically references this Limited Warranty.

Subject to the terms and conditions set forth in this Limited Warranty, for a period of ninety (90) days from the date Services are performed (the "Warranty Period"), DRG warrants to Customer that the Services will be performed in a timely, professional and workmanlike manner by qualified personnel.

To the extent the Services involve the evaluation or documentation (“Observational Data”) of trees, tree inventories, natural areas, wetlands and other water features, animal or plant species, or other subjects (collectively, “Subjects”), the Observational Data will pertain only to the specific point in time it is collected (the “Time of Collection”). DRG will not be responsible nor in any way liable for (a) any conditions not discoverable using the agreed upon means and methods used to perform the Services, (b) updating any Observational Data, (c) any changes in the Subjects after the Time of Collection (including, but not limited to, decay or damage by the elements, persons or implements; insect infestation; deterioration; or acts of God or nature [collectively, “Changes”]), (d) performing services that are in addition to or different from the originally agreed upon Services in response to Changes, or (e) any actions or inactions of you or any third party in connection with or in response to the Observational Data. If a visual inspection is utilized, visual inspection does not include aerial or subterranean inspection, testing, or analysis unless stated in the scope of work. When performing tree inventories or assessments, DRG will not be liable for the discovery or identification of non-visually observable, latent, dormant, or hidden conditions or hazards, and does not guarantee that Subjects will be healthy or safe under all circumstances or for a specified period of time, or that remedial treatments will remedy a defect or condition.

To the extent you request DRG’s guidance on your permitting and license requirements, DRG’s guidance represents its recommendations based on its understanding of and experience in the industry and does not guarantee your compliance with any particular federal, state or local law, code or regulation.

DRG may review information provided by or on behalf of you, including, without limitation, paper and digital GIS databases, maps, and other information publicly available or other third-party records or conducted interviews (collectively, “Source Information”). DRG assumes the genuineness of all Source Information. DRG disclaims any liability for errors, omissions, or inaccuracies resulting from or contained in any Source Information.

If it is determined that DRG has breached this Limited Warranty, DRG will, in its reasonable discretion, either: (i) re-perform the defective part of the Services or (ii) credit or refund the fees paid for the defective part of the Services. This remedy will be your sole and exclusive remedy and DRG’s entire liability for any breach of this Limited Warranty. You will be deemed to have accepted all of the Services if written notice of an alleged breach of this Limited Warranty is not delivered to DRG prior to the expiration of the Warranty Period.

To the greatest extent permitted by law, except for this Limited Warranty, DRG makes no warranty whatsoever, including, without limitation, any warranty of merchantability or fitness for a particular purpose, whether express or implied, by law, course of dealing, course of performance, usage of trade or otherwise.
