- (b) Such person or organization does not qualify as an additional insured with respect to the independent acts or omissions of such person or organization.

The insurance provided to such additional insured is subject to the following provisions:

Buying Organization Village of Orland Park

No	Question/Answer	Question Date
Q1	Question: Parking lot phases Of the three parking lots in this project which ones need phasing and how many phases per lot? Answer: We do not anticipate any phasing needed for the parking lots.	01/25/2024
Q2	Question: Pavement Markings The specifications call for Epoxy pavement markings. That is typically used on streets only and not in parking lots where you will eventually seal coat. Last year it appears epoxy was not used on the new pavement. Are we to install epoxy or can we substitute for latex paint? There is a huge price difference. Answer: Epoxy pavement markings are required as specified. All specifications need to be followed as outlined in the bid documents.	02/05/2024

2024 Asphalt Parking Lot and Path Maintenance

PROJECT DETAILS

Scope of Work

The Village of Orland Park, Illinois (the "Village") is requesting unit pricing bids for asphalt maintenance of parking lots and multi-use paths. Work type is generally, but not limited to parking lot resurfacing, parking lot patching, multi-use path resurfacing and multi-use path patching (the "Project"), as generally described in the Bid Specifications. Exhibit A contains the project Special Provisions of note and Exhibit B contains aerial maps of project locations with a schedule of quantities per location. These are provided for reference under separate cover. **This project is essentially a multi-mobilization maintenance contract which will entail multiple mobilizations throughout the project term limit as work areas are available for servicing.**

All work shall be performed in accordance with the latest editions of the following: Illinois Department of Transportation "Standard Specifications for Road and Bridge Construction" along with the latest edition of "Supplemental Specifications and Recurring Special Provisions" (collectively the "SSRBC"), the "Illinois Manual on Uniform Traffic Control Devices for Streets and Highways", and the "Standard Specifications for Water and Sewer Main Construction in Illinois."

Special Conditions:

This project comprises a large number of isolated parking lot and multi-use path construction areas throughout the Village. The Public Works field engineer will provide to the successful Bidder the necessary field layout. The intent of the project is to provide the successful Bidder with a list of a large amount of work to substantiate the Bidder's mobilizations. It is not the intent of the project to request the Bidder to make special accommodations for "one-off" repairs, unless a certain location is of an emergency-like circumstance. The total quantities listed in the bid unit price sheet are an estimated quantity based upon that necessary to complete the work with the available budgeting. In other words, the quantity amounts are an estimated value and not guaranteed quantity amounts.

LOCATION OF WORK AND SPECIFICATIONS:

The Bid Specifications for this ITB #24-023 are attached as *Exhibit A* and *Exhibit B*.

Exhibit A - Special Provisions (offers specific descriptions pertaining to project pay items and Bidder requirements).

Exhibit B- Project Site Locations (offers specific locations and a summary of quantities per location for work to be performed).

It is expressly understood and agreed to by both Parties that in no event shall the total amount to be paid by the Village for the complete and satisfactory performance of services, exceed the proposed amount. Said price shall be the total compensation for Contractor's performance hereunder including, but not limited to, all work, deliverables, materials, supplies, equipment, subcontractor's fees, and all reimbursable travel and miscellaneous or incidental expenses to be incurred by Contractor. In the event the Contractor incurs cost in excess of the sum authorized for service, the Contractor shall pay such excess from its own funds, and the Village shall not be required to pay any part of such excess, and the Contractor shall have no claim against the Village

ORLAND PARK

2024 Asphalt Parking Lot and Path Maintenance

on account thereof. For the avoidance of doubt, in no event shall Contractor be entitled to receive more than the proposed amount and this amount includes all costs incurred by Contractor in connection with the work and services authorized hereby, including, but not limited to: (i) any known or unknown and/or unexpected condition(s); (ii) any and all unforeseen difficulties; (iii) any unanticipated rises in the cost of labor, materials or equipment, changes in market or negotiating conditions, and errors or omissions made by others; (iv) the character of the work and/or services to be performed; and (v) any overrun in the time or cost necessary for the Contractor to complete the work due to any causes, within or beyond its control. Under no circumstances shall the Village be liable for any additional charges if Contractor's actual costs and reimbursable expenses for such work, service or deliverable exceed the proposed amount. Accordingly, Contractor represents, warrants and covenants to the Village that it will not, nor will Contractor have anyone on its behalf, attempt to collect an amount in excess of the proposed amount agreed to by the Contractor.
