Re: Request for Authorization of TASER Destruction

Chief McCarthy, I am requesting permission to destroy (4) X26 TASERs that failed the April 2015 download/safety check.

Three (3) of the TASERs have internal clocks which will not record accurate time/date posing a legal issue in a deployment situation.

One (1) will not fire.

The serial numbers are as follows:

X00-208789	(04-03-08)
X00-342502	(12-13-07)
X00-310103	(09-05-07)
X00-329257	(10-23-07)
