Conducting the survey	
⊙ Survey materials are mailed	Nov 18 to Dec 2
⊙ Prenotification postcards sent	Nov 18
⊙ 1st wave of surveys sent	Nov 25
⊙ 2nd wave of surveys sent	Dec 2
⊙ Data collection: surveys received and processed for your jurisdiction	Nov 25 to Dec 23
⊙ During this time, you will receive postcards that were undeliverable due to bad addresses, or vacant housing units. This is normal. Please count all the postcards, as we will subtract the number of returned postcards from the total number mailed to estimate the number of "eligible" households in calculating the final response rate.	
→ Due to NRC: Final count of returned postcards	Dec 23
⊙ Survey analysis and report writing	Dec 23 to Jan 6
⊙ During this time, NRC will process the surveys, perform the data analysis, and produce a draft report for your jurisdiction. The report of results will contain a description of the methodology, information on understanding the results, and graphs and tables of your results, as well as a description of NRC's database of normative data from across the U.S. and actual comparisons to your results, where appropriate.	
← NRC emails draft report (in PDF format) to you	Jan 13
← NRC sends invoice for balance due on The NCS Basic Service and any additional add-on options	Jan 13
→ Due to NRC: Jurisdiction feedback on the draft report (most final reports are identical to the draft reports, except being labeled as final instead of draft)	Jan 20
← NRC mails final report and data file to you (unless otherwise specified)	Jan 27
