Mr. Jaime Frausto

Re: Sportsplex
11351 West 159th Street
Orland Park, Illinois 60467

We found a Bradford White 120 gallon #BWC M-II-120-24-3SF49 480 Volt 3Phase commercial electric hot water heater in stock that would supply the full demand of the domestic hot water for all the showers, lavatories and sinks at the Sportsplex.

We will furnish all the material, labor on overtime to disconnect, cap, re pipe and valve the new 120 gallon commercial hot water heater with expansion tank as soon as this evening. To install the temporary hot water heater we would need a total shut down of the domestic water in the building.

We have not included the electric 480 service piped to the electric hot water heater with disconnects or removing the capped off existing storage tank with heat exchanger.

All for the sum of 10,720.00

Respectfully,

John Netzel
President
