

General Notes

Material quality and measurement should conform to the most recent edition of the American Standards for Nursery Stock, ANSI Z60 by the American Nursery and Landscape Association.

This plan requires the removal of existing plant material. All native prairie plants, especially flowering wildflowers, should be transplanted on site in the prairie areas if possible.

The Village may reject any materials that are diseased, deformed, or otherwise not exhibiting superior quality.

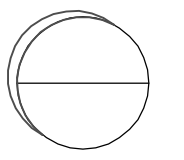

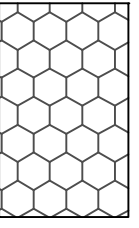

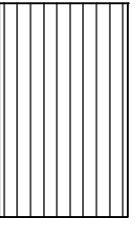

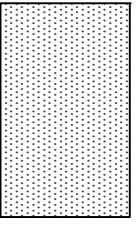

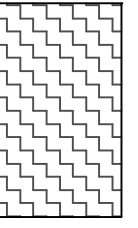

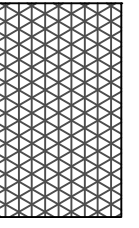

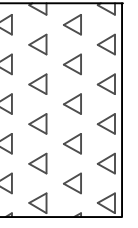

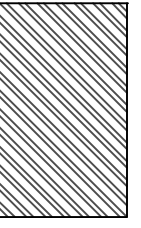

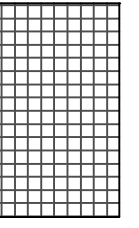

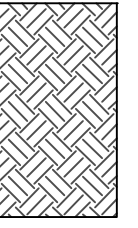

Contractor shall be responsible for providing and installing all materials shown on the plan in accordance with the plan design and materials quantities.

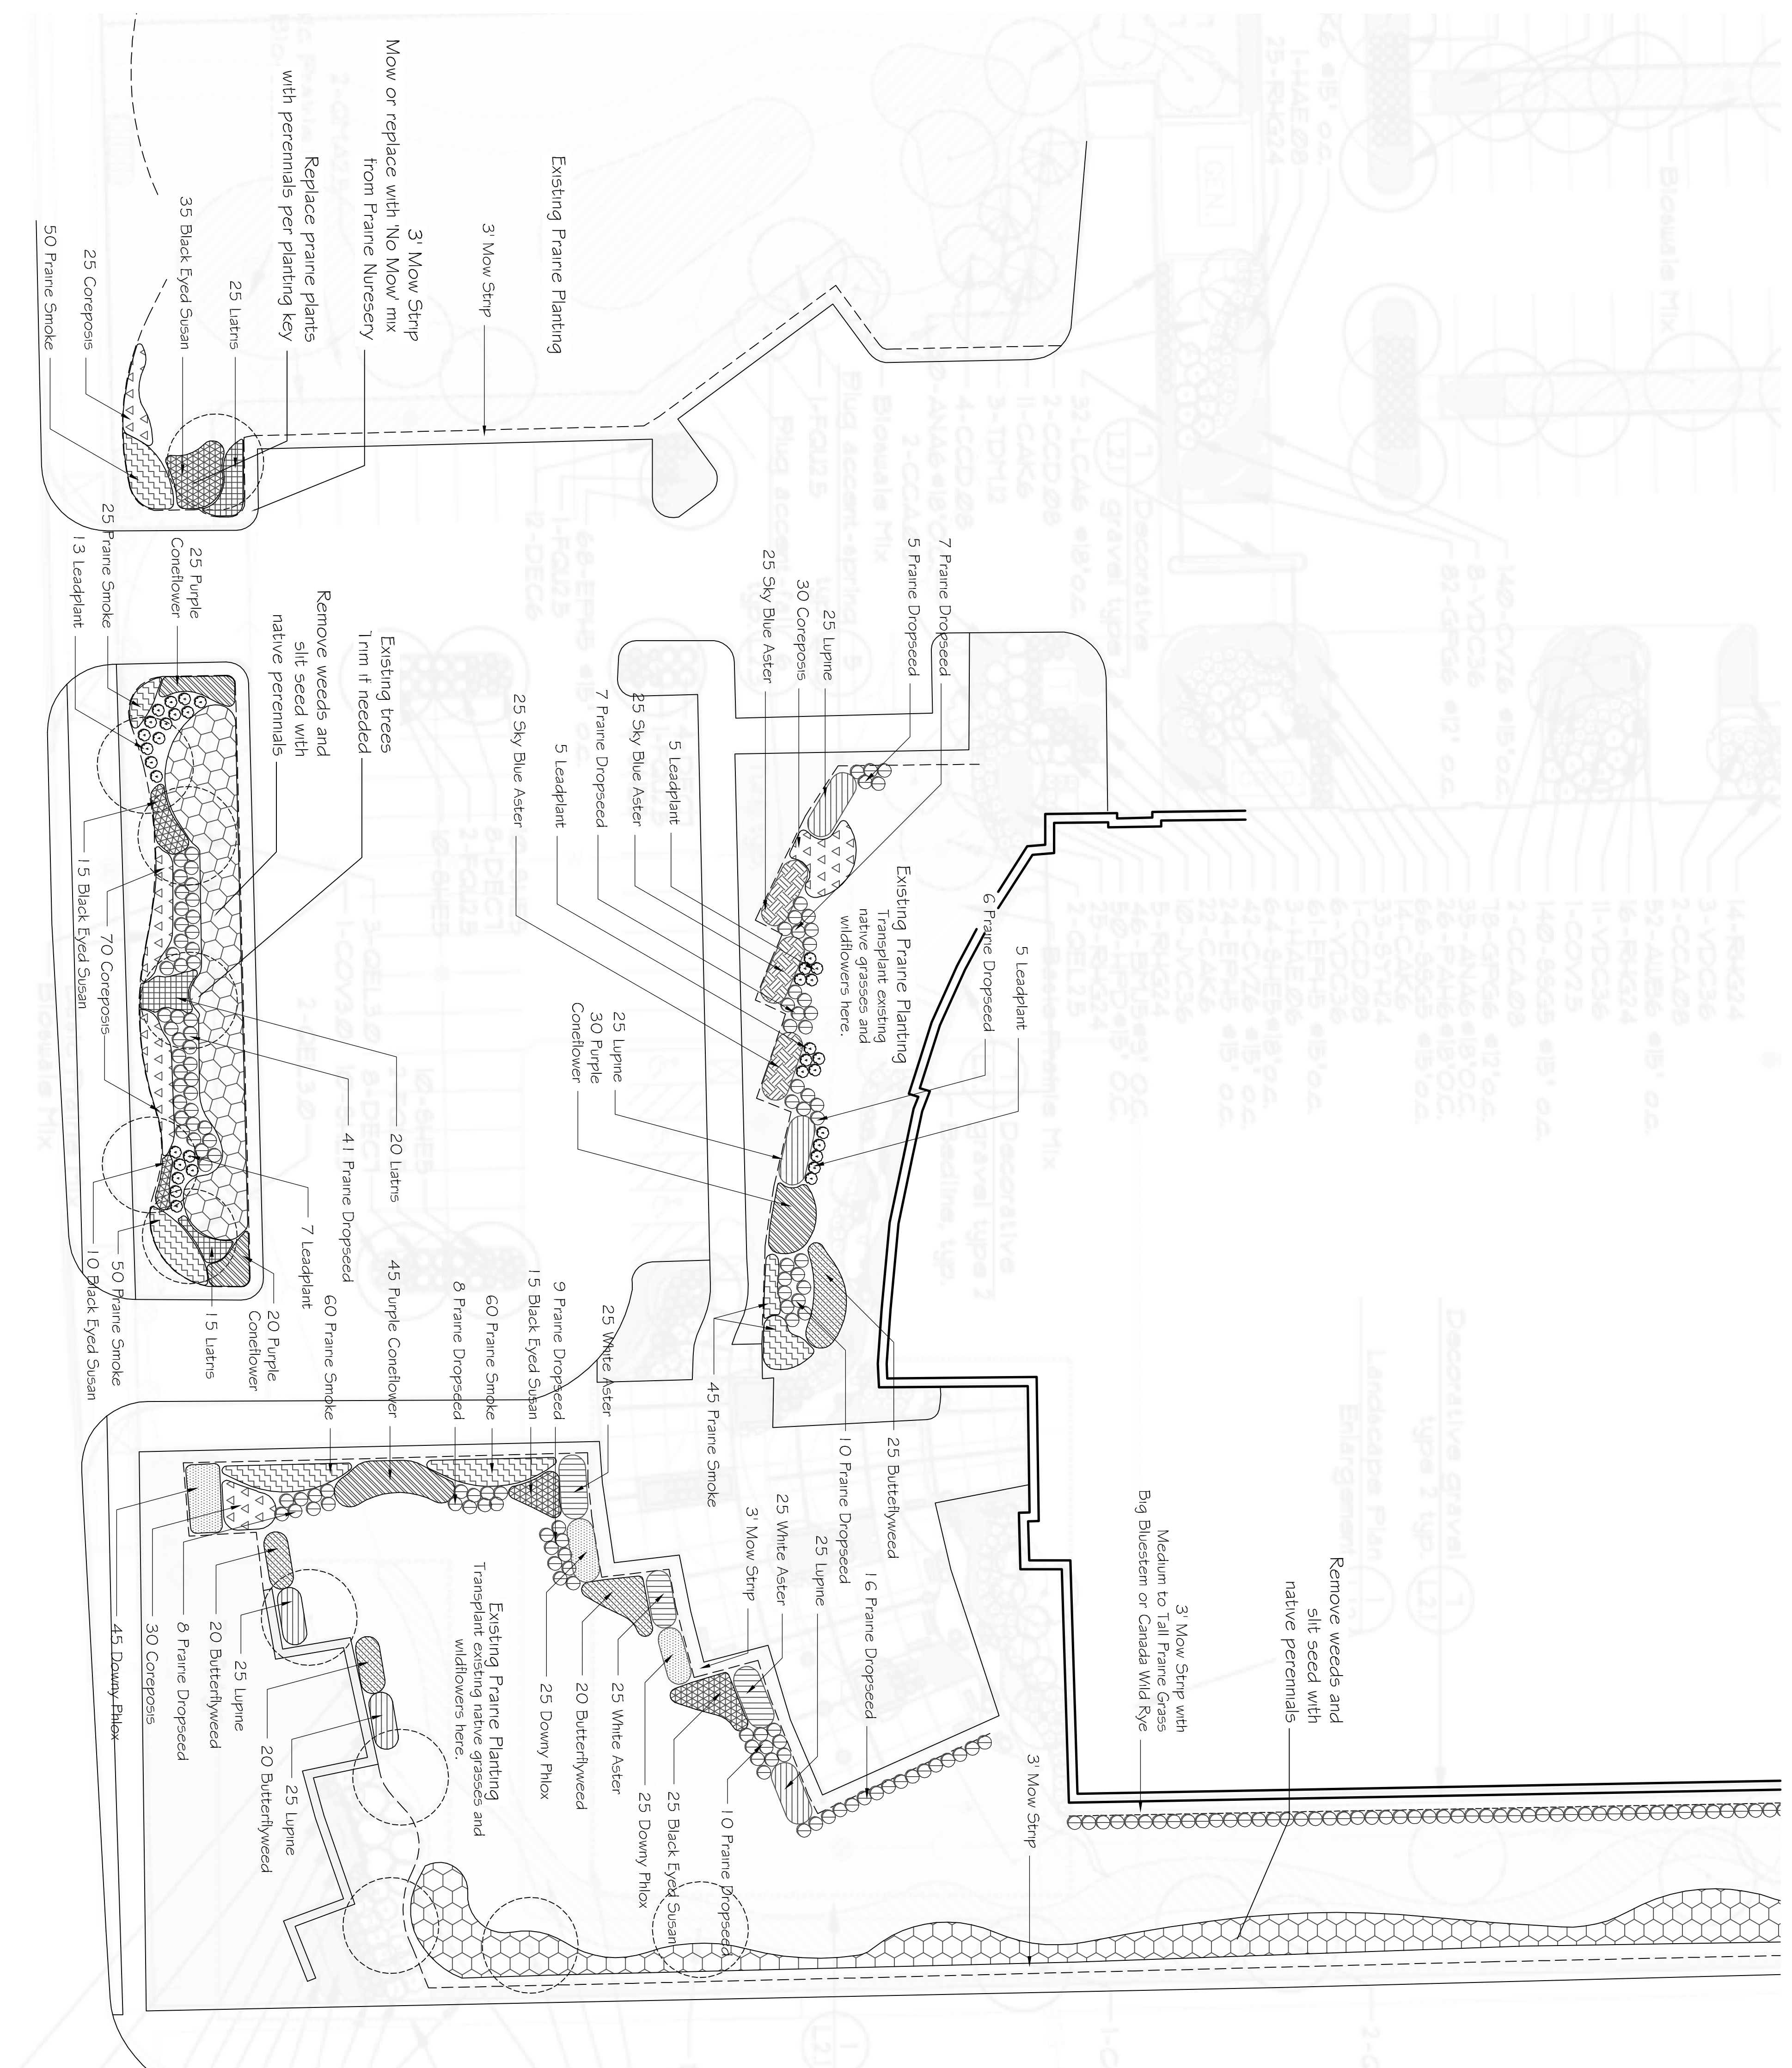

The Contractor is responsible for protecting underground utilities, sidewalks, and other previously constructed site improvements.

The Contractor is responsible for protecting all existing vegetation to be preserved.

All new planting areas (not silt seed areas) to be covered with mulch at a depth of 3"-4".

Planting Key

	Prairie Droppseed - <i>Sporobolus heterolepis</i>
	Leadplant - <i>Amorpha canescens</i>
	Silt Seed - Prairie Flowers for Sunny Dry Sites (i.e. Prairie Nursery Bird or Prairie Island Garden)
SPRING	
	Lupine - <i>Lupinus perennis</i>
	Downy Phlox - <i>Phlox pilosa</i>
	Prairie Smoke - <i>Geum triflorum</i>
SUMMER	
	Black Eyed Susan - <i>Rudbeckia hirta</i> (or <i>subtomentosa</i>)
	Coreopsis - <i>Coreopsis australis</i>
	Butterflyweed - <i>Asclepias tuberosa</i>
FALL	
	Purple Coneflower - <i>Echinacea purpurea</i>
	Meadow Blazingstar - <i>Liatis ligulistylis</i> (or <i>borealis</i> or <i>aspera</i>)
	White Aster - <i>Aster ptarmicoides</i>
	Sky Blue Aster - <i>Aster azureus</i>
