Re: Notice of Suspension – Village of Orland Park Code Section 1-16-15(A)

Dear Ms. Watson,

Dale Inc. would like to appeal against the decision that was determined by Village that Dale falsified documents.

Village Code: 1-16-15(A) (Dale Inc. is contesting this decision)

Dale provides union paperwork with each bid submission. The Laborer's paperwork that was submitted to Ivana Lisnich was originally provided in our bid packet. We told her at that time we were having trouble obtaining the paperwork that they needed from the Union. We informed her that she received the Laborer's paperwork from our bid packet, and that we will have to wait for Operator's paperwork. The Operator's never did this RBO before; so, they had to make it from scratch.

Dale does not want to have this mark against us with the Village of Orland Park or not be able to do work in the future. Especially after completing your concrete program last year as your Prime Contractor. We would like to rectify this situation in any way possible. We have already reached out to the union attorneys so we can get a letter stating all this information.

Please contact us with any questions.

Thank you in advance,

A handwritten signature in black ink, appearing to read "Odilon Maldonado".
