Allyant

Improve compliance with automated PDF remediation aligned to WCAG 2.1, PDF/UA, and Section 508 standards.

Allyant Benefits:

✓ **Improve PDF and digital document compliance to WCAG 2.1 standards** with automated accessibility remediation

✓ **Demonstrate compliance after remediation** with document validation against multiple accessibility standards
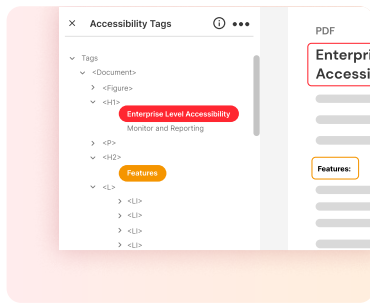

✓ **Start the remediation process while you're creating new PDFs and remove extensive post-production work** with integrations to Microsoft Work, PowerPoint, and Acrobat

✓ **Improve information equity** by making your content accessible to all residents

✓ **Quickly remediate large volumes of PDFs** with streamlined batch processing
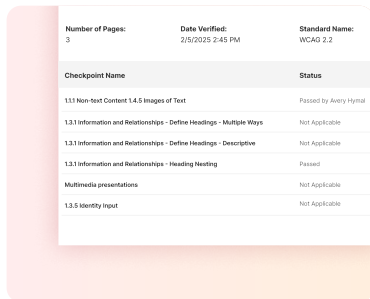

CommonLook PDF Remediate:

Automatically apply and correct tags to improve the document's compliance with accessibility standards, while still allowing for manual adjustments if needed.

Microsoft and Adobe Integration:

Allyant integrates with Microsoft Word, PowerPoint, and Acrobat, allowing users to create accessible documents at the source before they are converted to PDFs.

Compliance Reporting:

Generate detailed compliance reports, making it easy to document efforts and demonstrate adherence during audits or legal inquiries.
