

### **SECTION 3: Construction and Maintenance of the Cable System**

3.1. Except as may be otherwise provided in this Franchise Agreement, Grantee shall comply with all generally applicable provisions of Title 3 Chapter 8 of the Village's Code of Ordinances entitled "Construction of Facilities in the Public Rights-of-Way," as may be amended from time to time.

3.2. Aerial and Underground Construction. At the time of Cable System construction, if all of the transmission and distribution facilities of all of the respective public or municipal utilities in any area of the Franchise Area are underground, the Grantee, at Grantee's cost and expense, shall place its Cable Systems' transmission and distribution facilities underground, provided that such underground locations are actually capable of accommodating the Grantee's cable and other equipment without technical degradation of the Cable System's signal quality. In any region(s) of the Franchise Area where the transmission or distribution facilities of the respective public or municipal utilities are both aerial and underground, the Village shall have the discretion to direct the Grantee to construct, operate, and maintain all of its transmission and distribution facilities or any part thereof, aerially or underground. Nothing in this Section shall be construed to require the Grantee to construct, operate, or maintain underground any ground-mounted appurtenances such as customer taps, line extenders, system passive devices, amplifiers, power supplies, pedestals, or other related equipment.

#### **3.3. Undergrounding and Beautification Projects.**

3.3.1. In the event the Village requires users of the Public Way who operate aerial facilities to relocate such aerial facilities underground, Grantee shall participate in the planning for relocation of its aerial facilities, if any, contemporaneously with such users. Except for public transportation improvement projects, for which no public funds shall be paid to Grantee by the Village for its relocation costs, Grantee shall be reimbursed its relocation costs from public or private funds allocated for the project to the same extent as such funds are made available to other users of the Public Way, if any, provided that any utility's exercise of authority granted under its tariff to charge consumers for the said utility's cost of the project that are not reimbursed by the Village shall not be considered to be public or private funds.

3.3.2. The Grantee shall not be required to relocate its facilities unless it has been afforded at least sixty (60) days notice of the necessity to relocate its facilities. Upon adequate notice the Grantee shall provide a written estimate of the cost associated with the work necessary to relocate its facilities. In instances where a third party is seeking the relocation of the Grantee's facilities or where the Grantee is entitled to reimbursement pursuant to the preceding Section, the Grantee shall not be required to perform the relocation work until it has received payment for the relocation work.
