STEWARDSHIP PROPOSAL

For: The Village of Orland Park

Project: Police Headquarters – Native Landscape Stewardship 2015-2017

This agreement, made and entered into Wednesday, March 18, 2015 shall be between the Village of Orland Park, hereinafter referred to as the Owner/Agent and Pizzo & Associates, Ltd., hereinafter referred to as Pizzo. Stewardship services shall consist of the following:

I. SERVICES

Pizzo agrees to perform the following services to restored natural areas, using properly trained and supervised personnel.

GENERAL STEWARDSHIP 2015-2017

A. The services for the month of **NOVEMBER** through **APRIL** shall be per the following schedule:

1. Control invasive woody & herbaceous flora through cultural methods, physical removal or the application of appropriate herbicides. The native plants will take advantage of the competitive release created by mowing, the timely application of herbicide or physical removal of the non-native plants.
2. Pizzo will collect the seeds of the native plants to disperse into the open areas during the growing season.
3. Pizzo will make preparations for prescribed fire, if applicable for the given year. Firebreaks, where necessary, will be installed prior to the burn.

B. The services for the months of **MAY** through **OCTOBER** shall be per the following schedule:

1. Control invasive woody & herbaceous flora through cultural methods, physical removal or the application of appropriate herbicides. See paragraph A2.
2. We will collect the seed of the native plants to disperse into the open areas during the growing season.
3. Mow all restored areas, if necessary, to control invasive flora and allow light to the ground for new seedlings.
4. Plant supplemental native seed and/or plugs at Pizzo's discretion to increase native plant competition & biodiversity (if necessary, this item may be paid for out of the "Labor" budget line).

PREScribed FIRE 2015 & 2017

To improve the ecological and aesthetic quality of the site, Pizzo utilizes prescribed fire. The use of fire allows us to efficiently clear excess biomass that accumulates over time in naturalized areas. The results of such action typically include increased biodiversity, greater plant community health, increased control of certain invasive species of plants and an increase in aesthetic quality. Two burns are included, one to occur in 2015 and a second to occur in 2017.

Pizzo & Associates, Ltd. will obtain the necessary permits and notify appropriate fire departments and safety jurisdictions prior to the burn. The Owner/Agent shall notify neighbors when applicable. The Owner/Agent will provide a copy of a "Plat of Survey" for definitive location of burn boundaries.

Our fire crew is comprised of trained crew leaders knowledgeable in the fuel types present. The fire crew will create needed firebreaks and place necessary signage prior to the burn. The areas to be burned will contain some unburned refuge for animal species or refuge can be found on adjacent unburned habitat. It is possible that local conditions could cause the burn unit to burn poorly when all conditions are within parameters. Due to the unpredictability of the weather during the burn season, which occurs from approximately November 1 through April 30, the typical notice to the owner for a controlled burn will be 24-48 hours. As the weather is a factor it may also be necessary to postpone the burn to the next burn season. No guarantee/warranty is expressed or implied as to the completeness, coverage, intensity or results of the prescribed fire. Landscape plantings, mulch beds and above ground utilities in or close proximity to the burn unit could sustain damage due to heat/flames shall not be covered and the owner/agent agrees to hold Pizzo & Associates, Ltd. harmless. The Owner/Agent acknowledges that there will be smoke generated by the prescribed fire. If the conditions are acceptable to the contractor for ignition of the prescription fire and it is forced to shut down due to no fault of its own, the full balance will be due. Any return trip to complete the fire will be billed at the aforementioned rates.

NOTE: \$400.00 of the total cost of the Prescribed Fire will be billed to the Owner/Agent prior to execution of the burn for Permitting & Notifications.

Replacement of the dead trees or shrubs is the Owner's sole available remedy, and Pizzo & Associates, Ltd. may substitute the dead plant or shrub with another species in its sole discretion. This guarantee shall be invalid if the Owner has failed to use reasonable care (water, weeding, invasive species control, mowing, protection from damage, etc.) during said period.
