STEWARDSHIP PROPOSAL

For: The Village of Orland Park

Project: Police Headquarters – Native Landscape Stewardship 2013

This agreement, made and entered into Monday, October 08, 2012 shall be between the Village of Orland Park, hereinafter referred to as the Owner/Agent and Pizzo & Associates, Ltd., hereinafter referred to as Pizzo. Stewardship services shall consist of the following:

I. SERVICES

Pizzo agrees to perform the following services to restored natural areas, using properly trained and supervised personnel.

A. The services for the month of **NOVEMBER** through **APRIL** shall be per the following schedule:

1. Implement controlled burn in natural areas, as needed. Pizzo will use fire as a tool to clear debris, recycle nutrients and stimulate native plant and animal species. Our fire crew is comprised of S130/S190 trained crew leaders knowledgeable in the fuel types present. The fire crew will create needed firebreaks and place noticeable signage prior to the burn. Seeds will be harvested prior to the burn to allow for post burn dispersal. The areas to be burned will contain unburned refuge for animal species. Due to the unpredictability of the weather, it may be necessary to postpone the burn to the next burn season. It is possible that local conditions could cause the burn unit to burn poorly when all conditions are within parameters. Pizzo will obtain the necessary permits. The Owner/Agent shall notify neighbors when applicable. ***When conducted, controlled burns will be billed in addition to General Stewardship services at the rate specified below.***
2. Control invasive woody & herbaceous flora through cultural methods, physical removal or the application of appropriate herbicides. The native plants will take advantage of the competitive release created by mowing, the timely application of herbicide or physical removal of the non-native plants.
3. Pizzo will collect the seeds of the native plants to disperse into the open areas during the growing season or after the controlled burn.

B. The services for the months of **MAY** through **OCTOBER** shall be per the following schedule:

1. Control invasive woody & herbaceous flora through cultural methods, physical removal or the application of appropriate herbicides. See paragraph A2.
2. We will collect the seed of the native plants to disperse into the open areas during the growing season or after the controlled burn.
3. Mow all restored areas, if necessary, to control invasive flora and allow light to the ground for new seedlings.
4. Prepare the site for the controlled burn by creating needed fire breaks.
5. Plant supplemental native seed and/or plugs at Pizzo's discretion to increase native plant competition & biodiversity (this item may be paid for out of the "Labor" and/or "Herbicide" budget lines).
