National Wash Authority, LLC (dba Midwest Mobile Washers) along with twenty-five years of water storage tank cleaning experience, proposes the following for Village of Orland Park. Please keep in mind our cleaning procedures are specifications wrote by coating engineer specialists and paint manufacturers alike throughout the United States. National Wash Authority/Midwest Mobile Washers is a Minority-Female owned business.

We have successfully and safely cleaned over 1,090 water storage tanks in several States without ANY incidents.

LOCATION: TANKS LISTED BELOW

We will render the proper cleaning procedures standard to the industry (AWWA - SSPC - NACE) to clean TANKS LISTED BELOW. We will be using an oxygenated bleach presoak system to kill the root of the mildew growth using 100% frictionless procedures. No cable hanging/No wheel baskets/No hanging apparatice will be used to clean your tanks surface. These type of procedures are commonly known of scratching and damaging the painted surface with leaving long term maintenance issues to arise. We render 100% frictionless operations to clean your tanks surface.

We pride ourselves over any Competition by being a Safety & Compliant Company.

- * Employee's are Certified on lift equipment. (Have operator cards)
- * Prevailing wages scales are met. Where applicable.
- * Background checks done on ALL employee's.
- * We are an Accident Free Work Place!
- * Twenty-five years of NO lost time of work DUE TO AN INJURY!
- * 100% TOTALLY FRICTIONLESS CLEANING TREATMENT of a tanks surface.

All cleaning agents used are biodegradable and are environmentally friendly.

All safety equipment will be used by OSHA requirements (Miller safety harness').

All equipment, safety devices, crane and aerial machinery are included in this bid.

Enclosed is a copy of our General Liability Insurance coverage. Our employees' are fully covered under our Workman's Compensation insurance.

This proposal terminates if not accepted by December 31, 2017.

We are the Original Founders of adding an anti-mildew inhibitors to the tanks surface. Most recent, after two years of research we are the Proud Founders of the "Soft Wash Cleaning Treatment" to water tanks as well! Our Company is the only one whom renders a Soft Wash Cleaning Treatment in our Industry!

ACTIVITY	AMOUNT
<p>The Best Management Practice is a THREE STEP CLEANING PROCESS to clean the exterior of water storage tanks to yield long term results using equipment that offers a 100% FRICTIONLESS procedure which is the second most important process. Cable hanging, wheel baskets, basket hanging, bosun seats or any other fancy hanging apparatus WILL DAMAGE THE TANKS SURFACE. These type of procedures are commonly known of scratching and damaging the painted surface with leaving long term maintenance issues to arise (surface rust). Most of these hanging types of equipment are designed for painting practices only, not cleaning.</p> <p>Step #1 A presoak system using oxygenated bleach at a pre-determined percentage rate to kill the root of any mildew growth. This process kills the root of mildew spores. (Just using a pressure washer to clean will yield poor results.)</p> <p>Step #2 Proper pressure washing nozzles and techniques are required to wash a water tower's surface. Water tank coatings may have a thin paint, cracked paint, bubbled paint, chipped paint, oxidized paint and peeling paint, which all play a vital role of how a tanks surface needs to be cleaned. With our pre-soak treatment, we then flush off the mildew stains using a "Soft Wash" method of less than 800 psi (average 300 to 500 psi). No High Pressure Cleaning or Blasting is required on your tanks surface.</p> <p>Step #3 Once tanks are cleaned, an anti-mildew inhibitor needs to be applied to yield the best, long term results before mildew stains re-occur on the tanks surface.</p>	
<p>LOCATION: TOWER 6 - 9701 W 131ST STREET, ORLAND PARK, IL 750,000 GALLON WATERSPHEROID @ 126' TO TOP To clean and remove mildew stains using Best Management Practice and 3 step cleaning process to yield long term results using our Trademark "Soft Wash Cleaning Treatment" The added cost to apply the anti-mildew inhibitor to the tanks surface - NO CHARGE. ANTI-MILDEW INHIBITOR INCLUDED WITH THE CLEANING SERVICE.</p>	5,500.00
<p>LOCATION: TOWER 8 - 15501 PARK STATION BLVD, ORLAND PARK, IL 500,000 GALLON WATERSPHEROID @ 110' TO TOP To clean and remove mildew stains using Best Management Practice and 3 step cleaning process to yield long term results using our Trademark "Soft Wash Cleaning Treatment" The added cost to apply the anti-mildew inhibitor to the tanks surface - NO CHARGE. ANTI-MILDEW INHIBITOR INCLUDED WITH THE CLEANING SERVICE.</p>	5,500.00
<p>TOWER 8 - POWER LINE PROTOCOL PER COM ED, SLEEVE/DISCHARGE POWER LINES PRIOR TO COMMENCING WORK</p>	
<p>OPTIONAL SERVICE - SPOT PAINTING/TOUCH UP PAINTING SERVICES Paint Preparation, tool grinding, sanding, spot priming and top coat paint touch up. Includes: Paints/primers, prevailing wages, lift equipment to access and all other expenses. 1 gallon of paint used = \$1,650.00 2 gallons of paint used = \$3,300.00 3 gallons of paint used = \$4,950.00 We ask the owner to supply the required paint specifications to match existing paint coating.</p>
