The ENGINEER shall not make any settlement or compromise of a lawsuit or claim, or fail to pursue any available avenue of appeal of any adverse judgment, without the approval of the Village and any other indemnified party. The Village or any other indemnified party, in its or their sole discretion, shall have the option of being represented by its or their own counsel. If this option is exercised, then the ENGINEER shall promptly reimburse the Village or other indemnified party, upon written demand, for any expenses, including but not limited to court costs, reasonable attorneys' and witnesses' fees and other expenses of litigation incurred by the Village or other indemnified party in connection therewith.

The ENGINEER shall obtain all necessary local and state licenses and/or permits that may be required for performance of the WORK and provide those licenses to the VILLAGE prior to commencement of the SERVICES.

ORLAND PARK
PROFESSIONAL ENGINEERING SERVICES
TERMS AND GENERAL CONDITIONS

1. **Relationship Between Engineer and Village:** The Engineer shall serve as the Village's professional engineer consultant in those Projects, or phases of the Project, to which this Agreement applies. This relationship is that of a buyer and seller of professional services and as such the Engineer is an independent contractor in the performance of this Agreement and it is understood that the parties have not entered into any joint venture or partnership with the other. The Engineer shall not be considered to be the agent of the Village. Nothing contained in this Agreement shall create a contractual relationship with a cause of action in favor of a third party against either the Village or Engineer.
2. **Responsibility of the Engineer:** Notwithstanding anything to the contrary which may be contained in this Agreement or any other material incorporated herein by reference, or in any Agreement between the Village and any other party concerning the Project, the Engineer shall not have control or be in charge of and shall not be responsible for the means, methods, techniques, sequences or procedures of construction, or the safety, safety precautions or programs of the Village, the construction contractor, other contractors or subcontractors performing any of the work or providing any of the services on the Project. The Engineer shall not be responsible for the acts or omissions of the Village, or for the failure of the Village, any architect, another engineer, consultant, contractor or subcontractor to carry out their respective responsibilities in accordance with the Project documents, this Agreement or any other agreement concerning the Project. Any provision which purports to amend this provision shall be without effect unless it contains a reference that the content of this condition is expressly amended for the purposes described in such amendment and is signed by the Engineer.

The Engineer will be responsible for correctly laying out the design data shown on the contract documents where construction staking services are a part of this Agreement. The Engineer is not responsible for, and Village agrees herewith to hold Engineer harmless from any and all errors which may be contained within the Contract Documents, unless such errors are the result of the work of the Engineer. It is expressly understood that the uncovering of errors in the plans and specifications, unless such errors should have been uncovered by the Engineer in the exercise of its professional service, is not the responsibility of the Engineer and any and all costs associated with such errors shall be borne by others.

3. **Changes:** Village reserves the right by written change order or amendment to make changes in requirements, amount of work, or engineering time schedule adjustments, and Engineer and Village shall negotiate appropriate adjustments acceptable to both parties to accommodate any such changes, if commercially possible.
4. **Suspension of Services:** Village may, at any time, by written order to Engineer (Suspension of Services Order) require Engineer to stop all, or any part, of the services required by this Agreement. Upon receipt of such an order, Engineer shall immediately comply with its terms and take all reasonable steps to minimize the costs associated with the services affected by such order. The Village, however, shall pay all costs incurred by the suspension, including all costs necessary to maintain continuity and for the resumption of the services upon expiration of the Suspension of

Services Order. Engineer will not be obligated to provide the same personnel employed prior to suspension, when the services are resumed, in the event that the period of suspension is greater than thirty (30) days.

5. **Documents Delivered to Village:** Drawings, specifications, reports, and any other Project Documents prepared by Engineer in connection with any or all of the services furnished hereunder shall be delivered to the Village for the use of the Village. Engineer shall have the right to retain originals of all Project Documents and drawings for its files. Furthermore, it is understood and agreed that the Project Documents such as, but not limited to reports, calculations, drawings, and specifications prepared for the Project, whether in hard copy or machine readable form, are instruments of professional service intended for one-time use in the construction of this Project. These Project Documents are and shall remain the property of the Engineer to the extent permitted by law. The Village may retain copies, including copies stored on magnetic tape or disk, for information and reference in connection with the occupancy and use of the Project.

It is also understood and agreed that because of the possibility that information and data delivered in machine readable form may be altered, whether inadvertently or otherwise, the Engineer reserves the right, upon prior written notice to the Village, to retain the original tapes/disks and to remove from copies provided to the Village all identification reflecting the involvement of the Engineer in their preparation. The Engineer also reserves the right to retain hard copy originals of all Project Documentation delivered to the Village in machine readable form, which originals shall be referred to and shall govern in the event of any inconsistency between the two.

6. **Reuse of Documents:** All Project Documents including but not limited to reports, opinions of probable costs, drawings and specifications furnished by Engineer pursuant to this Agreement are intended for use on the Project only. They cannot be used by Village or others on extensions of the Project or any other project. Any reuse, without specific written verification or adaptation by Engineer, shall be at Village's sole risk, and Village shall indemnify and hold harmless Engineer from all claims, damages, losses, and expenses including attorney's fees arising out of or resulting therefrom. Any such verification or adaptation will entitle Engineer to further compensation at rates to be agreed upon by Village and Engineer.

The Engineer shall have the right to include representations of the design of the Project, including photographs of the exterior and interior, among the Engineer's promotional and professional materials. The Engineer's materials shall not include the Village's confidential and proprietary information if the Village has previously advised the Engineer in writing of the specific information considered by the Village to be confidential and proprietary.

7. **Opinions of Probable Cost:** Since Engineer has no control over the cost of labor, materials or equipment, or over the Contractor(s) method of determining prices, or over competitive bidding or market conditions, Engineer's opinions of probable Project Construction Cost provided for herein are to be made on the basis of Engineer's experience and qualifications and represent Engineer's judgment as a design professional familiar with the construction industry, but Engineer cannot and does not guarantee that proposal, bids or the Construction Cost will not vary from opinions of probable construction cost prepared by Engineer. If prior to the Bidding or Negotiating Phase, Village wishes greater accuracy as to the Construction Cost, the Village shall employ an independent cost estimator consultant for the purpose of obtaining a second construction cost opinion independent from Engineer.

8. **Successors and Assigns:** The terms of this Agreement shall be binding upon and inure to the benefit of the parties and their respective successors and authorized assigns.
9. **Waiver of Contract Breach:** The waiver of one party of any breach of this Agreement or the failure of one party to enforce at any time, or for any period of time, any of the provisions hereof, shall be limited to the particular instance, shall not operate or be deemed to waive any future breaches of this Agreement and shall not be construed to be a waiver of any provision, except for the particular instance.
10. **Entire Understanding of Agreement:** This Agreement represents and incorporates the entire understanding of the parties hereto, and each party acknowledges that there are no warranties, representations, covenants or understandings of any kind, matter or description whatsoever, made by either party to the other except as expressly set forth herein. Village and the Engineer hereby agree that any purchase orders, invoices, confirmations, acknowledgments or other similar documents executed or delivered with respect to the subject matter hereof that conflict with the terms of the Agreement shall be null, void and without effect to the extent they conflict with the terms of this Agreement.
11. **Amendment:** This Agreement shall not be subject to amendment unless another instrument is duly executed by duly authorized representatives of each of the parties.
12. **Changes in the Work:** All changes in the WORK must be requested by Engineer and approved by the Village via an Authorization to Proceed document bearing the signature of the Village Manager. Any change order or series of change orders that increase or decrease the base contract value by \$10,000 or more, or that increases or decreases the Contract duration beyond the approved project schedule must be accompanied by a written request from Engineer justifying the additional cost or change in schedule. Within an agreed upon period of time, Village will provide a response to Engineer's Change Order or Time request by providing a determination signed by the Village or its designee finding that the change requested was not reasonably foreseeable at the time the contract was signed, the change is germane to the contract or the change is in the best interest of the Village. Any change increasing the original contract value by fifty percent (50%) or more must be re-bid by the Village as required by law. Authorization to spend the Board approved contingency amount must be preapproved by the Village per the Request for Change Order form (Exhibit A of the contract documents).
13. **Severability of Invalid Provisions:** If any provision of the Agreement shall be held to contravene or to be invalid under the laws of any particular state, county or jurisdiction where used, such contravention shall not invalidate the entire Agreement, but it shall be construed as if not containing the particular provisions held to be invalid in the particular state, country or jurisdiction and the rights or obligations of the parties hereto shall be construed and enforced accordingly.
14. **Force Majeure:** Whenever a period of time is provided for in this Agreement for either the ENGINEER or Village to do or perform any act or obligation, neither party shall be liable for any delays or inability to perform due to causes beyond the control of said party such as war, riot, insurrection, rebellion, strike, lockout, fire, flood, storm, earthquake, tornado, pandemic, act of public enemies, action of federal or state government or any act of God; provided, however, that said time period shall be extended for only the actual amount of time said party is so delayed. An act or omission shall not be deemed to be "beyond ENGINEER's control" if committed, omitted, or caused by ENGINEER, ENGINEER's employees, officers or agents or a subsidiary, affiliate or parent of ENGINEER or by any corporation or other business entity that holds a controlling interest in

ENGINEER, whether held directly or indirectly (for example, but not by way of limitation, a strike by or lockout of ENGINEER's employees would not be an act "beyond ENGINEER's control"). ENGINEER shall notify the Village as soon as possible, but no later than two (2) business days, of any force majeure event. However, if the force majeure event continues to affect performance for more than three (3) business days, the Village may immediately terminate this Agreement. In the event of such termination, the ENGINEER shall be paid for services satisfactorily performed under this Agreement up to the effective date of termination and shall be entitled to reimbursement of any expenses already incurred and not recoverable by refunds.

15. **Subcontracts:** Engineer may subcontract portions of the work, but each subcontractor must be approved by Village in writing in advance.
16. **Access and Permits:** Village shall arrange for Engineer to enter upon public and private property and obtain all necessary approvals and permits required from all governmental authorities having jurisdiction over the Project. Village shall pay costs (including Engineer's employee salaries, overhead and fee) incident to any effort by Engineer toward assisting Village in such access, permits or approvals, if Engineer performed such services.
17. **Designation of Authorized Representative:** Each party to this Agreement shall designate one or more persons to act with authority in its behalf with respect to appropriate aspects of the Project. The persons designated shall review and respond promptly to all communications received from the other party.
18. **Village's Responsibilities:** The Village agrees to provide full information regarding requirements for and about the Project, including a program which shall set forth the Village's objectives, schedule, constraints, criteria, special equipment, systems and site requirements.

The Village agrees to furnish and pay for all legal, accounting and insurance counseling services as the Village may require at any time for the Project, including auditing services which the Village may require to verify the Contractor's Application for Payment or to ascertain how or for what purpose the Contractor has used the money paid by or on behalf of the Village. In addition, Village shall give prompt written notice to the Engineer whenever the Village observes or otherwise becomes aware of any development that affects the scope or timing of the Engineer's services, or any defect or non-conformance of the work of any Contractor.

19. **Information Provided by Others:** The Engineer shall indicate to the Village the information needed for rendering of the services of this Agreement. The Village shall provide to the Engineer such information as is available to the Village and the Village's consultants and contractors, and the Engineer shall be entitled to rely upon the accuracy and completeness thereof unless, in the exercise of his professional skill, Engineer determined inaccuracies or incompleteness. The Village recognizes that it is impossible for the Engineer to assure the accuracy, completeness and sufficiency of such information, either because it is impossible to verify, or because of errors or omissions which may have occurred in assembling the information the Village is providing.
20. **Terms of Payment:** Engineer shall submit monthly statements for Basic and Additional Services rendered and for Reimbursable Expenses incurred, based upon Engineer's estimate of the proportion of the total services actually completed at the time of billing or based upon actual hours expended during the billing period. In the event the Village has not paid amounts properly due the Engineer, Engineer may after giving seven days written notice to Village, suspend services under this Agreement until Engineer has been paid in full all amounts properly due for services, expenses and

charges. Engineer shall have no liability whatsoever to Village for any costs or damages as a result of such suspension.

21. **Hazardous Materials/Pollutants:** Unless otherwise provided by this Agreement, the Engineer and Engineer's consultants shall have no responsibility for the discovery (unless such discovery should have been made by the Engineer in the exercise of its professional skill), presence, handling, removal or disposal of or exposure of persons to hazardous materials/pollutants in any form at the Project site, including but not limited to mold/mildew, asbestos, asbestos products, polychlorinated biphenyl (PCB) or other toxic/hazardous/pollutant type substances unless undertaken at the direction of the Engineer or Engineer's consultants.
22. **Attorney's Fees:** In the event of any dispute that leads to litigation arising from or related to the services provided under this agreement, the substantially prevailing party will be entitled to recovery of all reasonable costs incurred, including court costs, attorney's fees and other related expenses.
23. **Insurance:** The Engineer shall provide the Village with certificates of insurance and all endorsements evidencing all coverages held by the Engineer, with coverage minimums and from insurance providers in compliance with Village requirements.
24. **Electronic Transmissions:** The parties agree that each may rely, without investigation, upon the genuineness and authenticity of any document, including any signature or purported signature, transmitted by e-mail or facsimile machine, without reviewing or requiring receipt of the original document. Each document or signature so transmitted shall be deemed an enforceable original. Upon request, the transmitting party agrees to provide the receiving party with the original document transmitted by e-mail or facsimile machine; however, the parties agree that the failure of either party to comply with such a request shall in no way affect the genuineness, authenticity or enforceability of the document. Each party waives and relinquishes as a defense to the formation or enforceability of any contract between the parties, or provision thereof the fact that an e-mail or facsimile transmission was used.
25. **Certifications, Guarantees and Warranties:** Engineer shall not be required to sign any documents, no matter by whom requested, that would result in the Engineer having to certify, guarantee or warrant the existence of conditions the existence of which the Engineer cannot ascertain. The Village also agrees not to make resolution of any dispute with Engineer or payment of any amount due to the Engineer in any way contingent upon the Engineer signing any such certification as to unascertainable conditions.

Hourly Rates

Experienced Teams and Project Controls Result in Cost-Effective, Quality Engineering and Value for the Village's Projects

We recognize how important it is for our clients to be aware of their costs and impacts to their budgets, and we are flexible to establish a system that will work for the Village. Whether for big or small projects, we provide our clients with detailed tasks, hours, and fee budgets prior to starting a project. We have also provided services to our municipal clients on a retainer basis with a limiting monthly fee to cover day-to-day assistance on minor engineering-related issues, as requested by the client.

We also pay particular attention to the structure of our project team. This generally means the project engineers or engineering technicians perform a majority of the work, typically 60 percent to 80 percent, with senior staff providing expert assistance where needed, typically around 5 percent to 10 percent, and the project managers around 10 percent or less, with support staff making up the remainder. This provides for expertise where needed and effective project cost control.

We provide monthly invoices for each individual project explaining the hours spent by staff working on the project as well as providing the client with a report of the tasks performed. This is particularly important for services provided under a retainer because it gives the client an account of the services performed.

Following is a range of standard direct hourly rates by staff classification.

Staff Classification	Standard Billing Rates
Principal	\$96 to \$128
Point of Contact/Project Manager	\$40 to \$90
Project Engineer / Scientist	\$27 to \$42
Engineering Technicians	\$16 to \$25
Resident Engineers	\$16 to \$49
Administrative	\$32 Average

Our project teams are not developed based upon staff that is available but what the Village's needs are for each project in order to provide competitive fees.

Negotiation of fees can include cost incentives on a case by case basis based upon the project type, size, and number of projects.

Our overhead is 161.00% and fixed fee is 0.15. We bill expenses incurred such as those for travel, meals, printing, postage, copies, computer, electronic communication, and long-distance telephone calls at actual cost plus 10 percent.

Following are our IDOT audited, federal local direct hourly rates by staff classification.

Staff Classification	Federal Local Hourly Rates
Principal	\$70 cap
Project Manager	\$49.85 to \$70; average \$63.94
Structural Engineer	\$48.89 to \$70; average \$61.71
Project Engineer	\$32.05 to \$60.66; average \$40.00
Technician	\$16.00 to \$70.00; average \$33.04
Clerical	\$19.50 to \$70.00; average \$32.25

Our approved overhead is 155.49% at the cost plus fixed fee formula provided by IDOT which is 14.5% [DL + R(DL) + OH(DL) + IHDC]. We bill expenses at actual cost.
