Taste of Orland Park 2014  
Proposal Explanation

The proposal submitted by Sound Works Productions INC for the 2014, 2015, and 2016 Taste of Orland Park is broken out into two separate proposals. The Sound and Lighting sections for all stages are the same on both proposals. The only thing different are the stages on the Main Stage section. In the first proposal you will find an SL100 stage (this is the same stage we used for last years Taste). This stage is 24' wide by 20' deep and includes a skirt, stairs, load bearing and wind rated roof, and PA fly wings to fly the PA from.

The second proposal has a SL250 stage on it. This is the stage we upgraded the Taste to in 2012. This stage is 32' wide by 24' deep and includes a skirt, stairs, load bearing and wind rated roof, PA fly wings, and a monitor world riser for the audio equipment to live on. This stage is truly a great stage and would look great on the taste grounds.

All of our stages are wind rated to 75 mph and include engineering certificates. I have attached photos of goths stages used at the Taste the past two years.

Stage Line SL250 used in 2012 at the Taste of Orland Park as a free upgrade from Sound Works to the Village of Orland Park.

Stage Line SL100 used in 2013 at the Taste of Orland Park.
