 The Illinois Prevailing Wage Act (820 ILCS 130/01, et seq.) does not apply to this Contract.
 The Illinois Prevailing Wage Act (820 ILCS 130/01, et seq.) does apply to this Contract.
 This Contract calls for the construction of a “public work”, within the meaning of the Illinois Prevailing Wage Act, 820 ILCS 130/.01, et seq. (“the Act”). The Act requires contractors and subcontractors to pay laborers, workers and mechanics performing services on public works projects no less than the current “prevailing rate of wages” (hourly cash wages plus amount for fringe benefits) in the county where the work is performed. The Illinois Department of Labor (“IDOL”) publishes the prevailing wage rates on its website at <http://labor.illinois.gov/>. The IDOL may revise the prevailing wage rates from time to time and the contractor/subcontractor has an obligation to check the IDOL’s website for revisions to prevailing wage rates

1040496-01-11-16

and comply with the most current prevailing wage rates. For information regarding current prevailing wage rates, please refer to the IDOL website. All contractors and subcontractors rendering services under this contract must comply with all requirements of the Act, including but not limited to, all wage requirements and notice and record keeping duties, including but not limited to each contractor and subcontractor who participates in public works to file with the Illinois Department of Labor (IDOL) certified payroll for those calendar months during which work on a public works project has occurred. The Act requires certified payroll to be filed with IDOL no later than the 15th day of each calendar month for the immediately preceding month through the Illinois Prevailing Wage Portal—an electronic database IDOL has established for collecting and retaining certified payroll. The Portal may be accessed using this link: <https://www2.illinois.gov/idol/Laws-Rules/CONMED/Pages/Prevailing-Wage-Portal.aspx>. The Village reserves the right to withhold payment due to Contractor until Contractor and its subcontractors display compliance with this provision of the Act. The Contractor shall also pay prevailing wages at rates not less than those prevailing under Davis-Bacon Wage Act Provisions as determined by the U.S. Department of Labor to all laborers, workmen and mechanics performing work under this Contract, if such Act is applicable, and, in such event, the more restrictive (i.e., higher) prevailing wage requirements shall be applicable.

Midwest Mechanical Summary

Midwest Mechanical is a design-build mechanical contractor specializing in HVAC service and existing building renewal, successfully serving commercial and industrial customers in Chicago and Northwest Indiana continuously since 1974. With over 80 technicians servicing our customers, Midwest Mechanical is dedicated to exceeding customer expectations. We are owned by Service Logic which is the largest privately held mechanical services contractor in the nation with 62 locations coast to coast.

Our core business approach is to *improve YOUR "bottom-line"* by applying *energy engineering* disciplines into every deliverable, resulting in lower utility-spend, increased operational efficiency, maximum system reliability and equipment life-cycle. *"Bottom-line" success to us means reducing cost of ownership, improving cash-flow and increasing property value.*

PROJECTS: Midwest Mechanical leverages in-house mechanical and energy engineering to design and construct the most *intelligent projects*. Because we are a full-service design-build contractor, we are capable of assist-build with new construction; however we specialize in existing building renewal.

Every project we consider a *"business-case"*, evaluating multi-faceted metrics including current operating costs, EUI (energy usage intensity), net project cost, annual savings, life-cycle savings, internal rate of return, property value impact, rebates/incentives and monthly cash-flow to name a few. As part of this comprehensive energy approach, complementary renewable technologies can be incorporated into projects to meet our customer's greenhouse gas reduction goals.

Our mechanical and electrical installers allow us to perform each project in-house, providing exceptional cost and scheduling control. Knowing and integrating our customer's procurement requirements are an essential component of our due-diligence and deliverable.

Project experiences include (small - \$50,000 or large - multi-million dollar) floor-to-floor ventilation and mechanical systems, central heating and cooling plants in commercial, industrial and residential buildings, retro-commissioning, lighting, water conservation and building envelop tightening, BACnet compatible building automation control and custom/critical control applications like data-centers, and BIG DATA integration for business intelligence and continuous commissioning.

HVAC SERVICE: From the smallest system components like filters to large 2,000 ton centrifugal chillers, our 20+ years-of-experience average per technician utilizes the most advanced preventive and predictive maintenance techniques (PM), producing reliable equipment and system performance. You can expect to work with Heating, Ventilation and Air Conditioning technicians who have:

- Paperless, detailed service reports & equipment service history
- Equipment specific, detailed maintenance tasking
- Certified, manufacturer-specific training on chillers, boilers (steam/hot water), package units, controls, ventilation, pumps, computer-room a/c and much more
- Supported by in-house professional engineers and certified energy managers
- Rigorous and highly successful safety training approach
- Management review of every service call

All Midwest Mechanical agreements are supported by live dispatch 24/7/365, and assign to each maintenance agreement primary and secondary technicians for your convenience. We work with each customer to understand their emergency response needs and seek to exceed those expectations. From routine PM, full-service agreements or full-time on-site support, our commitment to excellence has grown our maintenance agreement customer-base to over 800, which includes over 1500 building sites.

We appreciate the opportunity to provide the above summary and process to you and look forward to earning your business and establishing a solid business partnership for years to come.

Text of Legislative File 2024-0692

..Title
2024 Facilities Preventative Maintenance - Change Order #1

History

On July 5, 2022, the Village Board approved the proposal from Midwest Mechanical Group, LLC for ITB 22-037 Building Mechanical System Preventative Maintenance and Repairs (see 2022-0501). The Board approved motion states the following:

“I move to approve awarding ITB 22-037 Building Mechanical System Preventative Maintenance and Repairs to Midwest Mechanical Group, LLC of Lombard, IL for 2022-2024, with the Village’s option to extend the contract for an additional two (2) years, for an amount not to exceed \$130,665.60 for 2022, or the annual Village Board approved budgeted amounts.”

This language is also reflected in the contract with Midwest Mechanical.

In 2024, the Village Board approved budget in GL account 1008010-443200 included \$134,525 for "Facilities Preventative Maintenance Contract", which equals Midwest Mechanical's current 2024 Purchase Order for monthly preventative maintenance and repairs. It should be noted that the Village Board also approved in this same GL account \$25,000 for "Repairs Resulting from Preventative Maintenance Inspections" and \$50,000 for "HVAC Equipment Repairs and Maintenance" to be used for supplemental HVAC and Mechanical maintenance.

As of today, \$115,353.14 of Midwest Mechanical's \$134,525 Purchase Order has been spent, largely due to unexpected major HVAC repairs at OPHFC, SportsPlex, Rec Admin, and Village Hall, resulting in a current open balance of \$19,171.86. For reference, Public Works has been spending approximately \$6,500/month on repairs in addition to the \$9,342/monthly PM service. As such, Public Works projects the following additional funds to cover the balance of the year added to the contract as summarized below:

Monthly PM Service: $\$9,342/\text{month} \times 5 \text{ months (August - December)} = \$46,710.00$
Additional Maintenance Repairs (estimated) = $\$6,500/\text{month} \times 5 \text{ months} = \$32,500.00$
Total = $\$79,210.00$
PO Balance = $\$19,171.86$
Additional Funds Requested = $\$60,038.14$

Financial Impact

Additional funds are available for this change order in Public Works account 1008010-443200.

Recommended Action/Motion

I move to approve Change Order #1 to increase the amount of the Village's existing Facilities Preventative Maintenance contract with Midwest Mechanical to add \$60,038.14 in additional funds to the 2024 contracted amount of \$134,525.00 for a new for a new not-to-exceed amount of \$194,563.14;

AND

Authorize the Village Manager to execute all related contracts, subject to Village Attorney review.
