Re: Inlet/Catch Basin Repair
Various locations
Orland Park, IL

We will provide, mobilization, labor, equipment, materials, and insurance to repair designated catch basin/inlet areas using our proprietary method of shotcrete repair for the following prices:

Type I @ \$650/each Preparation/removal of deteriorated joint material at steel frame, between concrete rings, and at intersecting pipes. Pressure grout shotcrete material into voids or washouts, then shotcrete to fill and finish all open joints flush with opening. Also rebuild any deteriorated concrete rings inside of basin.

13530 Pawnee Rd.
13623 Lincolnshire Dr.
15239 Windsor Dr.
8017 Pine St.
84th Ave. & Spruce (east inlet)

8352 138th Pl.
13626 Lincolnshire Dr.
14050 Putney Pl.
145th Place & Ravinia Dr. (SE inlet)

Type I Repairs - Total of 9 @ \$650/each = \$5,850

Type II @ \$1,400/each All of the problems stated above would be included. Additional repairs would included removal of concrete curb stubs, if required, completely rebuild deteriorated concrete rings, reset steel frame at proper height, replace concrete curb stubs to flow into catch basin, excavate parkway behind basins to expose voids from inside and outside of basin, shotcrete to fill and seal all voids, and finally pressure grout beneath sidewalks, street, or driveway aprons adjacent to basin to fill voids.

14015 Cheswick Dr.
8966 Silverdale Dr.
8018 Sawgrass Ct.
9121 Yorktown
14219 84th Ave.
15123 Horn Dr.

14014 Cheswick Dr
13740 Mary Dr.
13924 84th Ave.
80th Ave. @ 143rd Street
82nd Ave. Colette Ct.
Across from 15123 Horn Dr.

Type II Repairs - Total of 12 @ \$1,400/each = \$16,800

TOTAL
\$22,650.00

The basin repairs must be in neighborhoods where lane closures or extensive traffic devices are not needed or required. If you will provide barricades for each location repaired, we will place them, after repairs. Thank you for the opportunity to quote this work.
