ITEMS FOR SEPARATE ACTION**2024-0294 Application Fees and Fees per Square Foot**

The Lean Enterprise Institute (LEI) initiative in which Development Services staff participated identified opportunities to make development-related processes more efficient and effective. Feedback regarding two of these opportunities, the concepts of application fees and fees per square foot, is being requested tonight. Implementation details, such as Village Code updates, will be brought forward at a future date should the Committee of the Whole be supportive of the concepts.

The purpose of this communication is twofold: (1) to discuss the potential implementation of an application fee for all permit requests; and (2) to propose transitioning to a fee calculation based on building square footage rather than our current system, which is a combination of fees per fixture, outlet, pipe diameter, etc. for new attached and detached single family homes.

Development Services is aiming to enhance the efficiency and effectiveness of its current processes, including covering a portion of administrative expenses when processing permit applications, and minimizing staff time to calculate permit fees. The proposed fee structure is intended to fully cover Village costs related to the improvements single family residential owners want to make to their properties.

The Committee of the Whole supported the two concepts at its July 1 meeting. Concept details will be presented on Monday, September 16, 2024, and will return to a future BOT meeting date with a proposed ordinance.

Staff recommends the following:

1. A non-refundable application fee of \$95. This will cover the permit costs for most fixed-fee permits and the initial costs borne by staff reviewing permit applications that are not issued. This initial application fee is based on a \$75 fee established in November 2017 with Ordinance No. 5247 for multiple permit types, including roof permits, and utilizing the Consumer Price Index (CPI) calculator to adjust for inflation. A CPI adjustment every January 1 is also recommended.
2. A per square foot (SF) fee for new construction and additions to single family attached and single family detached building permits:
 - a. \$1.70/SF for the first 2,000 SF
 - b. \$0.50/SF for each additional SF of 2,001 SF or greater
 - c. CPI adjustment every January 1

2023-0915 Substantive Amendment: Revise and Update Development and Subdivision Exactions: Dedication of Land and Fees in Lieu of Dedication

AMENDMENT SUMMARY

On July 1, 2024, the Committee of the Whole reviewed the proposed amendments and referred the amendments back to the Plan Commission, as some minor modifications were made since the November 2023 recommendation. Changes to the proposed language include changing “park district” to “parks department” or “park entity”, collecting fees upon issuance of each individual permit (removing the “lump sum” option for ease of fee calculation and administration by Village staff),

and including the highest and lowest capital improvement costs in the impact fee calculations.

On August 20, 2024, the Plan Commission reviewed the proposed modifications and recommended by a vote of 5-1-1 to approve the amendments to Section 5-112.H. The dissenting vote expressed concern regarding the potential of the fees being enough of a burden that developers will look to other communities to develop. The abstaining vote preferred a track changes approach to the proposed regulations document.

Section 5-112.H Development and Subdivision Exactions
Rewrite of the Development and Subdivision Exactions: Dedication of Land and Fees in Lieu of Dedication section of the Land Development Code to conform to industry standards associated with residential development.

AMENDMENT EXPLANATION

The proposed amendment for development and subdivision exactions focuses on ensuring adequate resources, facilities, and other development-related capital expenses to support new residential land development are provided. Although some portions have undergone updates over the years, a comprehensive overhaul of the current impact fee regulations has not occurred since 1994.

While there is no mandatory requirement to collect impact fees, the Village must adhere to specific state laws if such fees are gathered, which have been updated in this amendment. Additionally, if approved, each taxing district would be required to sign an intergovernmental agreement (IGA) to disburse the fees. Since November 2023, the Village has been in communication with the impacted taxing districts.

Updating the impact fees aligns the Village with other comparable municipalities and will ensure development-related capital expenses will reflect the actual costs anticipated by the Village and other taxing districts. Law enforcement, fire and emergency response, and Village public infrastructure were not previously collected, but are proposed to be specifically tied to new residential development.
