R.O.W Maintenance

Village of Orland Park

Dear Mr. Stec,

I would like to express my interest in extending the current the “ right of way landscape maintenance services “ contract that exists between the Village of Orland Park and J.G.S. Landscape Architects for the 2016 and 2017 seasons.

We have been providing the services since 2013, to the village’s satisfaction, at the specified r.o.w. landscape islands and metra stations for \$9,000.00 per month fee extended over a twelve month period. We would continue to provide the same diligent and quality service for the extended two years at the current contract’s terms and costs.

We would appreciate the opportunity to continue effectively maintaining and managing these spaces. Please find my request agreeable as my intentions are to continue providing an aesthetic and attractive setting for the your village.

Sincerely,

**John Schiera
