

AMERICAN TECHNOLOGY SOLUTIONS

Proposal for ATS My1099 Portal System

Created for:

Village of Orland Park

November 17, 2009

INTRODUCTION

American Technology Solutions (ATS) provides a complete automated solution for managing, distributing, and administering 1099 tax documents. ATS My1099 is an online web-based solution that provides your recipients with access to their 1099's 24 hours a day 7 days a week. ATS My1099 is a service that automates the distribution of electronic 1099's and helps facilitate the correction process. With this service the 1099s remain available to recipients for up to 4 years.

This service is in full compliance with IRS regulations and offers secure, password-protected online access. Recipients can access their 1099 through a secure, web interface. They may view, print or email a 1099 from the current or prior year. If the recipient still prefers a paper-based 1099, the system can accommodate them as well.

ATS My1099 can be configured to outsource the printing and distribution of paper 1099s. The 1099 forms are folded to create a mailer that is sealed during production. There are no envelopes. The 1099s can be mailed directly to the recipient or shipped to one or more locations for your distribution. ATS My1099 is a seamless integrated service for all recipients, no matter how they receive their 1099.

Employer Advantages

- Reduce printing costs, forms costs, and postage costs
- No software or hardware investment required.
- Improve service and see a measurable return on investment.
- Reduce the usual flood of phone calls for reprints and corrections.
- Eliminate the need to track down lost 1099s to make copies.

Recipient Advantages

- Access 1099s earlier than traditional mailing
- Eliminates the chance that the 1099 will get lost, misdirected or delayed during delivery, or misplaced once the recipient receives it.
- View and print current or past 1099's when most convenient in the home or office.
- Obtain additional 1099 copies for reprint anytime and anywhere.

About ATS

American Technology Solutions, Corp. is a dedicated group of specialists committed to serving the needs of busy Payroll Managers. The ATS vision is clearly focused on the efficient production of Payroll, Direct Deposit and year-end tax forms using the latest and most innovative technologies. ATS understands the issues many organizations face today and has developed and applied technology to really help with that process. Our mission is to provide our clients with timely and efficient document and tax form delivery and reporting. Most importantly, ATS works very hard to help ease the hassles and headaches of your ongoing print and mail process. Since ATS is 100% dedicated to the document output process, the level of attention each of our clients receive is unmatched in the industry. To stand behind our commitment, ATS offers a 100% money back guarantee if you are not completely satisfied with the service provided.
