

To briefly introduce myself, my name is Arpit Patel. I am 37 years old. I am from Chicago. By profession I am an entrepreneur. I have 6 Restaurants across USA. I am highly competitive, always looking for more opportunities to expand my businesses.

Currently I am working on opening another Indian cuisine Restaurant in Orland Park. The address is park hill plaza, 9716, 9718 W 159th street, Orland Park, IL. It consists of 2800 sqft area. This Restaurant is globally recognized franchise originated from Gujrat, India. Serving only Vegetarian Food Items. I specifically Choose Orland Park for the reason that it has growing Indian community along with other race who are mostly converting toward vegetarian/Vegan options. Our main aim is to serve Pure vegetarian Indian delicious food to the people who have religious / Health obligations. For such people there are very limited options in Orland park area. We will be the first one as pure vegetarian Indian restaurant in Orland park area.

The projection cost of the project is around \$800,000.00. As I have mentioned above that I am running multiple businesses successfully at a moment, the only reason is my great management team. My management team is both well efficient and fully capable to run the business. They are well aware of their duties and fulfill them efficiently. That is the reason that within short span of time I have already open several Restaurant. We have history of building multiple locations from scratch, we turned a simple box space into a well attractive Restaurant, which turn into currently busiest restaurant in the area.

My plan for this location is to also hire the same management team, and I assure you that together with my team, we will build a most amazing Restaurant, which will not only attract the

customer but also will increase the value of the property as well. Property management and keeping up with all the maintenance will be our first priority and no harm will be done to the property and surrounding community. Beside hiring a management team who will be present at the site at all time, I personally will be involved in business operations and management regularly. So, I will be well aware of everyone's performance. Together with great location and implementation of my solid plan for business we will be able to grow for long run to serve the community their growing needs and requirement.

If we talk about the financial position, I am financially strong enough to cover up all the cost incur to start up this business successfully, and maintain the space along with payment of the monthly tax regularly.
