24-026 - 2024 Concrete Flatwork & Sidewalk Replacement
Village of Orland Park

No	Question/Answer	Question Date
Q1	Question: class D patches #10 and 11 Is this work associated with damage done by contractor during the removal of sidewalk or curb? or.. Is it the contractors responsibility to pave areas throughout the village non associated with contractor sidewalk or curb removal and replacement ? but from the village crews removing and repairing utility breaks during the past year? Thank you. Answer: These items are used for addressing a combination of work. Item #10 will be used for associated asphalt removal needed for other concrete removal and replacements while item #11 is more geared towards previously removed asphalt from other work throughout the the Village including but not limited to utility work/ repairs. Asphalt work to be performed is intended to be associated with other concrete work being performed as part of this job.	03/05/2024
Q2	Question: PCC sidewalk location sizes What is the average size of each area of sidewalk to be removed and replaced? meaning the majority? 25, 50, 100...Square feet? Thank you. Answer: There is a wide range of possible sizes of concrete removal and replacement. Sidewalk may be as small as one square (25 sqft.) but may also stretch several squares. There is no average or majority of sizes of sidewalk removal and replacements. Same applies to other concrete replacements including curb and driveways.	03/05/2024
Q3	Question: Tree Protection How is this getting paid for (there are no qty's)? What is expected? Answer: This is not paid separately, but is to be included in the items for which the work is associated. Any work needed to protect the tree (trunks, limbs, and roots) from any construction related damage is what were looking for with this item. For example, a low hanging tree limb may need to be trimmed to prevent interference/ damage when any construction activities take place.	03/12/2024
Q4	Question: Restoration How is this getting paid for (there are no qty's)? There is specs for topsoil, seed & blanket & also for sodding. Sodding is to be installed @ village discretion. How are we to quantify between the two types of restoration? Answer: This item is not paid separately, but is to be included in the items for which the work is associated. Restoration of seed and topsoil or sod is associated with any removal and replacement work or any construction related damage. Any areas of utility work will be restored by the Village. Sod is only to be installed at the Village's discretion so will only be minimally used based on disturbance.	03/12/2024

No	Question/Answer	Question Date
Q5	Question: Material Excavation Is this for elevation changes once the existing sidewalk and or concrete is removed or is this for new walk which would require full depth excavation with replacement of a 4" agg base course prior to installing new walk? Answer: This is intended for use with existing sidewalk that may have elevation change. There is not new sidewalk being installed with this project.	03/12/2024
Q6	Question: Curb Slot Patching How is the curb slot pavement restoration getting paid for? (gap of the roadway to be filled once removal & replacement of curb has been completed) Answer: This would be paid for under the Class D patches item.	03/12/2024
Q7	Question: Traffic Control - Flaggers Are any of these locations on main streets that require flagging operations & arrow boards? (Example: 159th St, 143rd St, Lagrange Ave, 94th Ave) Answer: No work is scheduled on these main streets mentioned. All traffic control and lane closures is to follow IDOT standards for lane closures based on speed limits.	03/12/2024
Q8	Question: QC Testing Is QC testing required by the contractor? Answer: The Village may request core sample's at our discretion.	03/12/2024
