If the

application is not approved, the Village shall provide a written statement to Developer specifying the reasons for denial of the application including the specification of the requirements of law which the application and supporting documents fail to meet. The Village agrees to issue such certificate of occupancy upon Developer's compliance with the requirements of law identified by the Village after its first inspection of the building. A conditional certificate of occupancy shall be issued by the Village notwithstanding that landscaping and grading improvements have not been completely finished due to adverse weather conditions, subject to the following: (1) Developer posts security in an amount satisfactory to complete said work as determined by the Village, (2) if a conditional certificate of occupancy is issued, and Developer fails to complete the landscaping and/or sidewalk paving or grading improvements as soon as weather permits, but in any event by the following June 30th, the Village shall have the right to withhold the issuance of further occupancy permits to Developer until such exterior work has been completed.

Any required public improvements shall be completed within two (2) years from the date hereof and the Developer shall have the option to deliver to the Village as security an irrevocable letter of credit or a cash deposit in a form satisfactory to the Village and from a bank or financial institution and in an amount as provided for in the Code. The Developer may from time to time as the improvements related to the security are constructed, request a reduction in the amount of security furnished. The Village shall provide final approval of the request for a reduction in the amount of security furnished. Said request shall be made by the Developer to the Village by filing the following documents.

1. A request for reduction indicating the requested amount.
2. A new or substitute letter of credit, or other Village approved security method for the reduced amount, if required (to be filed within seven (7) days after the approval of the reduction but before the reduction occurs).
3. An estimate by the Developer's engineer containing the following information:

 - c. Evidence acceptable to the Village that the cost of the improvements related to the security is either paid or otherwise adequately provided for.

A maintenance guarantee will not be required.

Notwithstanding any other provision of this Agreement, no construction of public improvements shall commence until the plans and specifications for the public improvements have been approved, this Agreement has been executed and the minimum security has been provided pursuant to the requirements of Ordinance No. 2084.

Developer, at its own cost, agrees to provide the Village "as built" engineering plans and specifications upon substantial completion of the public improvements or at the request of the Village Engineer but in no event later than the time required by Ordinance No. 2084.

It is agreed that all of the public improvements contemplated herein shall upon acceptance thereof by the Village, become the property of Village and be integrated with the municipal facilities now in existence or hereafter constructed and Village thereafter agrees to maintain said public improvements. Acceptance of said public improvements shall be by resolution of the President and Board of Trustees only after the Village or Village Engineer Consultant has issued his Certificate of Inspection affirming that the improvements have been constructed in accordance with approved Engineering Plans and Specifications. Developer agrees to convey by appropriate instrument and Village agrees to promptly accept, subject to the terms hereof, the public improvements constructed in accordance with the Approved Engineering Plans and Specifications.
