**SUBJECT:**

MANHOLE LINING/COATING WITH SILATEC MSM MICROSILICA MORTAR

We propose to furnish the necessary labor, supervision and equipment to perform manhole lining/coating as outlined in the Scope of Work below.

**SCOPE OF WORK**

Clean, prepare surface and apply 1/2" to 1 manhole 23 ft deep located at 108<sup>th</sup> & 159<sup>th</sup> in Orland Park. Manhole coating cannot be applied in accordance with manufacturers' recommendations if the temperature is below 40°F.

**PURCHASER WILL FURNISH**

Water for our high velocity jetting equipment; any special permits or fees, access to all manholes and sewer lines; additional traffic control should it be necessary to provide more than standard traffic cones and truck-mounted arrow boards, at no additional charge to us.

**PRICE**

Charges for the above services will be a total lump sum of \$30,000.00. National Power Rodding estimates this project will take 3 days to complete.

Terms: Subject to terms and conditions in reverse side.

If you find the above proposal satisfactory, please sign below, provide a purchase order number if applicable, initial General Terms and Conditions on back page, and return a signed of copy of both to us. To schedule the above services, please contact our office as soon as possible.

Respectfully submitted,

*Purchase order number* \_\_\_\_\_
