provided by the Contractor, whichever is greater. Where there are deficiencies, Contractor agrees to correct them with reasonable promptness after receiving notice of said deficiencies from the Village. All manufacturers' guarantees and warranties shall be delivered to the Village prior to the issuance of final payment.

 - .6 Specifications and Drawings, if any
 - .7 Required Certifications
 - .8 Required Certificates of Insurance

~~.9 Required Performance and Payment Bonds~~

ARTICLE 3: PAYMENTS AND COMPLETION

3.1 The Village requires for each Application for Payment, a properly completed Contractor's Affidavit setting out, under oath, the name, address and amount due or to become due, of each subcontractor, vendor, supplier or other appropriate party included in that payment. For every party listed the Contractor shall also provide a full or partial waiver of lien, as appropriate, before a payment will be made to the Contractor. The Contractor's partial or final waiver of lien must be included. Payment certificates shall not be issued by Architect or payment shall not be made by the Village without such mechanics' lien waivers and contractors' sworn statements unless they are conditioned upon receipt of such waivers and statements.

3.2 No certificate shall be issued in favor of the Contractor and no payment will be made by the Village for material not actually installed and built into the Work without written authorization for the Village.

3.3 Upon satisfaction of the terms and conditions of the Contract, the Contractor agrees to provide the Village with a final release and waiver of all liens covering all of the Work performed under the Contract relative to the project prior to issuance of final payment. Said final waiver of lien shall identify and state that all Subcontractors have been paid in full and there are no contract balances outstanding and owed to any Subcontractor.

3.4 All payments shall be made to Contractor by Village pursuant to the provisions of the Local Government Prompt Payment Act (50 ILCS 505/1 *et seq.*)

ARTICLE 4: TAXES

4.1 The Village is a public body and is exempt from excise, sales and use taxes and will furnish Contractor with exemption numbers as required. Contractor shall not include any such taxes in its cost figures.

ARTICLE 5: INSPECTION OF MATERIALS

5.1 The Village shall have a right to inspect any materials or equipment to be used in carrying out this contract. The Contractor shall be responsible for the contracted quality and standards of all materials, equipment, components or completed work finished under this contract up to the time of final acceptance by the Village. Materials, equipment, components or completed work not complying therewith may be rejected by the Village and shall be removed and replaced by the Contractor at no cost to the Village.

ARTICLE 6: ASSIGNMENT

6.1 The Contractor's duties and obligations under the Contract shall not be assigned without the express written consent of the Village.

6.2 Work not performed by the Contractor with its own forces shall be performed by Subcontractors or Sub-subcontractors. The Contractor shall be responsible for management of the Subcontractors in the performance of their Work.

6.3 The Contractor shall not contract with anyone to whom the Village has a reasonable objection.

6.4 The Contractor shall prepare all Subcontracts and shall have full discretion to negotiate their terms, subject to the Village's reasonable requirements or objections as to form and content.

6.5 By appropriate agreement, written where legally required for validity, the Contractor shall require each Subcontractor, to the extent of the Work to be performed by the Subcontractor, to be bound to the Contractor by terms of the Contract Documents, and to assume toward the Contractor all the obligations and responsibilities, including the responsibility for safety of the Subcontractor's Work, which the Contractor, by these Documents, assumes toward the Village. Each subcontract agreement shall preserve and protect the rights of the Village under the Contract Documents with respect to the work to be performed by the Subcontractor so that subcontracting thereof will not prejudice such rights, and shall allow to the Subcontractor, unless specifically provided otherwise in the subcontract agreement, the benefit of all rights, remedies and redress against the Contractor that the Contractor, by the Contract Documents, has against the Village. Where appropriate, the Contractor shall require each Subcontractor to enter into similar agreements with Sub-subcontractors. The Contractor shall make available to each proposed Subcontractor, prior to the execution of the subcontract agreement, copies of the Contract Documents to which the Subcontractor will be bound, and, upon written request of the Subcontractor, identify to the Subcontractor terms and conditions of the proposed subcontract agreement which may be at variance with the Contract Documents. 7.2 Contractor shall supply the Village with "as-built" plans prior to the Village making the final payment.

ARTICLE 8: DEFAULT

8.1 If the Contractor fails to begin the work under this contract within the time specified, or fails to perform the Work with sufficient workmen, equipment or materials to insure the completion of said Work within the specified time, or shall perform the work in an unsatisfactory manner, or shall neglect or refuse to remove materials or perform anew such work as shall be rejected as defective or unsuitable by reason of defect in material or workmanship or by reason of noncompliance with the specifications, or shall discontinue the prosecution of the Work, or if the Contractor shall become insolvent or be declared bankrupt, or shall make an assignment for the benefit of creditors, or from any other cause whatsoever shall fail to carry on the Work in an acceptable manner, the Village shall give notice to the Contractor and his surety in writing specifying such failure, delay, neglect, refusal or default, and if the Contractor, within a period of ten (10) calendar days after such notice, shall not proceed in accordance therewith, then the Village shall have full power and authority to declare the forfeiture of this contract, and to forfeit the rights of the Contractor in this contract.

8.2 Upon declaration of Contractor's default, the Village may, at his option, call upon the surety to complete the Work in accordance with the terms of this contract or may take over the Work, including

any materials and equipment on the work site as may be suitable and acceptable to the Village and may complete the Work by or on its own force account, or may enter into a new contract for the completion of the Work, or may use such other methods as shall be required for the completion of the Work in an acceptable manner.

8.3 All costs and charges incurred by the Village, together with the cost of completing the work shall be deducted from any moneys due or which may become due on this contract. In case the expense so incurred by the Village shall be less than the sum which would have been payable under this contract if it had been completed by the Contractor and had not been forfeited by the Village, then the Contractor shall be entitled to receive the difference, and in case such expense shall exceed the sum which would have been payable under this contract, the Contractor and the surety shall be liable and shall pay to the Village the amount of such excess.

ARTICLE 9: DISPUTES AND VENUE

9.1 If an Architect or Engineer has contracted with the Village to administer the Contract between Village and Contractor, disputes shall be handled with the involvement of the Architect or Engineer according to the terms of the contract between the Village and the Architect or Engineer and any reference made herein to "Architect" shall be read as "Engineer" where applicable. In any other case, disputes concerning a question of fact under the contract shall be expressed in writing by the parties and, if within seven (7) days after receipt of such notice the parties have disposed of the dispute by agreement, the dispute, as it was expressed in writing by the parties, shall be subject to mediation under terms agreed to by the parties. Pending final decision of a dispute hereunder, the parties shall proceed diligently with the performance of the contract.

9.2 Any legal action taken by either party shall be decided based upon the laws of the State of Illinois and venue for such disputes shall be Cook County, Illinois.

ARTICLE 10: CONTRACT TIME

10.1 Time is of the essence of the Contract. Village shall not grant, and Contractor shall not seek damages for delays; however, Village shall grant an increase in the Contract Time for delay not caused by Contractor, its Subcontractors or others for whose actions Contractor is liable.

ARTICLE 11: INSURANCE AND INDEMNIFICATION

11.1 Insurance Requirements

11.1.1 The successful bidder shall, within ten (10) business days of said receipt of notice of award of the contract, furnish to the Village a certificate of insurance showing the Village, its trustees, officers, directors, agents, employees, representatives and assigns as additional insureds to the General Liability and Automobile Liability policies by appropriate endorsement. Such coverages shall be placed with a provider acceptable to the Village, which is licensed to do business in the State of Illinois, and that maintains a minimum A. M. Best rating of A VII. The insurance coverages afforded under the Contractor's General Liability insurance policies shall be primary and non-contributory to any insurance carried independently by the Indemnitees. All required insurance shall be maintained by the contractor in full force and effect during the life of the contract, and until such time as all work has been approved and accepted by the Village. This provision constitutes the Village's continuing demand for such certificates and endorsement(s) or true and correct copies thereof and the obligation to provide such insurance coverage shall be in full force and effect during the life of the contract. Failure of the Village to request such certificates and endorsements shall not relieve the Contractor of these obligations to provide insurance.

The amounts and types of insurance required are:

.1 Worker's Compensation: STATUTORY coverage for all persons whom the Contractor may employ directly or through subcontractors in carrying out the work under this contract. Such insurance shall hold the Village free and harmless of all personal injuries of all persons whom the Contractor may employ directly or through Subcontractors.

.4 Comprehensive Automobile Liability, Owned, Non-owned and Hired:

\$1,000,000 for Combined Single Limit.

.5 Umbrella/Excess Liability:

11.1.2 Contractor shall cause each Subcontractor to maintain insurance of the type specified above. When requested by the Village, Contractor shall furnish copies of certificates of insurance evidencing coverage for each Subcontractor.

11.2 Indemnification

11.2.1 The CONTRACTOR shall indemnify and hold harmless the VILLAGE, its trustees, officers, directors, agents, employees and representatives and assigns, from lawsuits, actions, costs (including attorneys' fees), claims or liability of any character, incurred due to the alleged negligence of the CONTRACTOR, brought because of any injuries or damages received or sustained by any person, persons or property on account of any act or omission, neglect or misconduct of said CONTRACTOR, its officers, agents and/or employees arising out of, or in performance of any of the provisions of the CONTRACT DOCUMENTS, including any claims or amounts recovered for any infringements of patent, trademark or copyright; or from any claims or amounts arising or recovered under the "Worker's Compensation Act" or any other law, ordinance, order or decree. In

connection with any such claims, lawsuits, actions or liabilities, the VILLAGE, its trustees, officers, directors, agents, employees, representatives and their assigns shall have the right to defense counsel of their choice. The CONTRACTOR shall be solely liable for all costs of such defense and for all expenses, fees, judgments, settlements and all other costs arising out of such claims, lawsuits, actions or liabilities.

11.2.2 The Contractor shall not make any settlement or compromise of a lawsuit or claim, or fail to pursue any available avenue of appeal of any adverse judgment, without the approval of the Village and any other indemnified party. The Village or any other indemnified party, in its or their sole discretion, shall have the option of being represented by its or their own counsel. If this option is exercised, then the Contractor shall promptly reimburse the Village or other indemnified party, upon written demand, for any expenses, including but not limited to court costs, reasonable attorneys' and witnesses' fees and other expenses of litigation incurred by the Village or other indemnified party in connection therewith.

ARTICLE 12: PERFORMANCE AND PAYMENT BONDS

~~12.1 The Contractor shall furnish Performance and Payment Bonds acceptable to the Village in the full amount of the Contract. Bonds shall be from a surety licensed to do business in Illinois and said surety shall have a minimum A.M. Best rating of A-V. Each Bond shall require a time period during which the Bond can be called limited only to the extent required by Illinois law.~~

ARTICLE 13: EXECUTION OF CONTRACT

13.1 Execution of the Contract between Village and Contractor is contingent upon receipt of required Certificates of Insurance, required signed certifications and required Performance and Payment Bonds.

ARTICLE 14: CHANGES IN THE WORK

14.1 All changes in the Work must be approved by the Village in a written document. Any change order or series of change orders that increase or decrease the Contract Sum by a total of \$10,000 or more or that increase or decrease the Contract Time by thirty (30) days or more must be accompanied by a written determination signed by the Village or its designee finding that the change was not reasonably foreseeable at the time the contract was signed, the change is germane to the Contract or the change is in the best interest of the Village. New Requests for Proposals must be issued by the Village as required by law for any change increasing the original Contract Sum by fifty percent (50%) or more.

ARTICLE 15: TERMINATION

15.1 The Village may, at any time, terminate the Contract for the Village's convenience and without cause upon written notice to the Contractor and payment for all Work directed to be performed prior to the effective date of termination along with reasonable overhead and profit.

Asbestos Survey & Demolition Proposal
13550 86th Avenue
Orland Park, Illinois
EPI Proposal No. 09-185
March 31, 2009

Scope of Work

Asbestos Survey

The Asbestos Survey will be performed in accordance with all State and Federal regulations. The sampling will be conducted by an Illinois Department of Public Health (IDPH) licensed inspector and in accordance with the National Emission Standards for Hazardous Air Pollutants (NESHAP). The proposal includes sampling and testing, by Polarized Light Microscopy (PLM) and dispersion staining analysis methods USEPA 600/R-93/116. The testing will be performed by a National Voluntary Laboratory Accreditation Program (NVLAP) accredited laboratory. The Asbestos Survey will consist of sampling suspect asbestos-containing materials throughout the site building, in accessible areas.

Three samples of each homogeneous suspect material identified will be collected for PLM testing. Occupational Safety and Health Act (OSHA), IDPH, and Environmental Protection Agency (EPA) standards requiring multiple sampling will be followed. This proposal includes up to sixty (60) samples. The cost to perform the work described herein is \$950.00.

It should be noted that if materials are positive for asbestos content using the PLM method and are around 1 to 2%, additional testing may be warranted to determine if this material is actually less than 1% asbestos and can be left in place as demolition debris. Additional testing will only be performed following client authorization and the cost for each additional sample will be \$100.00/sample.

Demolition

Environmental Protection Industries, Inc. (EPI) proposes to provide all supervision, manpower and equipment to demolish the existing residential dwelling. Concrete slabs, foundations, crawl spaces and footings will be removed (including restoration of established grade).

All applicable utilities will be disconnected. Sewer and water disconnects will not be performed at the "mains." These disconnections will be performed at the property line, junction or Buffalo box.

Silt fencing will be installed around the perimeter of the property (~410 feet).

Upon completion, the site will be left in a clean and safe condition.

Assumptions

- 1) Provide, erect, and maintain through the duration of the demolition project, all required OSHA-compliant hand rails, and any other safety devices necessary to protect EPI employees and any authorized 3rd party entrant from injury.
- 2) Demolish and completely remove the above-captioned buildings, including slab and footings to a depth of five (5) feet below grade.
- 3) Load, haul and legally dispose of all building components and other material generated in the course of the subject demolition, in compliance with all local, state, and federal regulations.
- 4) Schedule work between the hours of 7:00 am and 4:30 pm on a single shift basis 5 days a week.
- 5) Includes all required demolition permits, and the cut-off and capping of one water service and one sewer service.
- 6) .

Exclusions

- 1) The identification, marking, or rerouting of onsite utilities which must remain live during demolition.
- 2) Handling, removal, or disposal of any asbestos containing material, hazardous, toxic, controlled/regulated, or personal rubbish waste remaining in the building.
- 3) Safety fencing barricades required for the above-referenced area.
- 4) Payment of any unpaid utility bills.
- 5) Due to the weight of equipment and trucks, EPI shall not be held responsible for any damage that may occur to sidewalks, curbs, driveways, asphalt, or concrete pavement designed to remain. EPI will take caution to keep any such damages to a minimum.
- 6) Repair or replacement of any undisclosed utilities which may be encountered

Proposed Cost

EPI proposes to perform the above described work as detailed below:

ASBESTOS SURVEY	\$950.00
DEMOLITION ACTIVITIES:	\$11,750.00
SEWER & WATER DISCONNECTS (BUFFALO BOX)	\$1,100.00
SILT FENCINIG	\$500.00
TOTAL	\$14,300.00

It should be noted that if materials are positive for asbestos content using the PLM method and are around 1 to 2%, additional testing may be warranted to determine if this material is actually less than 1% asbestos and can be left in place as demolition debris. This is done to minimize the materials that would require being removed as "Asbestos" waste. Additional testing will only be performed following client authorization and the cost for each additional sample will be \$100.00/sample.

Terms and Conditions

The contract amount will be invoiced on a periodic basis to be agreed upon, and payment is due in accordance with the general Terms and Conditions of this proposal.

See attached General Terms and Conditions.

Terms and Conditions

The Client authorizes EPI to perform the Scope of Work described herein (Contract/Proposal #09-185). The Client agrees that "Proposal" means this document and the Terms and Conditions described herein, together with all documents attached hereto and all documents incorporated by reference, and that such documents constitute the entire Proposal. The documents are intended to be construed consistently and as a whole, and anything that is required by one document shall be deemed to be required by all.

All changes in the Scope of Work, including increases and decreases thereto, must be set forth in written Change Orders accepted by both the Client and EPI. The Client shall approve or disapprove any Change Order proposed by EPI within two (2) business days of receipt of same. EPI's tender of the Change Order and the Client's response may be made by telefax.

Client shall pay all applicable federal, state and municipal taxes, including any state late registration fees for existing unregistered tanks. EPI can not begin or perform any work until all required permits have been secured. Client is required to provide a plat of survey and/or site drawing for the purposes of securing permits, if required. The costs of any surety, performance bonds or any special insurance that may be required is not included in this contract.

This proposal is based upon normal soil conditions. In the event any underground structures, including but not limited to rubble, gas lines, poles, cables, conduit, catch basins, tanks, rock, water, frost, running sand, sewers, drain tiles, contaminated materials or any unforeseen or unmarked conditions are encountered, or damaged; and as a result, there is a delay in the job progress, or additional costs or labor are incurred, such costs and expenses will be billed by EPI as an extra to the contract. EPI will not be held liable or responsible for any damage to any underground structure as described above. Restoration of this damage will be the responsibility of the Client. Client agrees that EPI shall not be held responsible or liable for any consequential damages or losses caused as the result of any of the conditions listed above and these will be the responsibility of the Client. Excavations left open during project work will be barricaded by EPI. Client agrees to accept all responsibility for and defend, protect and indemnify EPI from any and all claims or actions as a result of injury, death or accidents due to open excavations.

This contract is based upon a "No Water" condition, unless discussed and described elsewhere in the document. Client acknowledges that the presence of water in tanks or excavations may require removal. Water encountered that requires removal to complete the Scope of Work not already accounted for in this contract will be charged as an extra.

All prices contained herein are based upon "No Frost" conditions unless specifically stated otherwise. Any delays in the progress of the project caused by frost conditions in electrical conduits, piping, soil to be excavated or to be stored above grade for use as backfill or for disposal shall be billed as an extra.

Third Party Beneficiaries – No term or provision of this Agreement is intended to be, or shall be, for the benefit of any person, firm, organization or corporation not a party hereto, and no such other person, firm, organization or corporation shall have any right or cause of action hereunder.

Force Majeure - Costs and schedule commitments shall be subject to negotiation for delays caused by Client's failure to provide information or access to the site as required, the Client's failure to timely respond to a Change Order request, or for delays caused by changes in the waste stream, unforeseen conditions at the site, unpredictable occurrences of force majeure events, such as fire, floods, strikes, riots, unavailability of labor or materials or services, bad weather, or action, inaction, or regulations of any governmental agency. Work stoppage or interruption caused by any of the above that result in additional cost and time to complete the Scope of Work, beyond that set forth in the Proposal, entitles EPI to an adjustment, by Change Order, to the cost and work schedule.

EPI guarantees workmanship for the project for a period of one year from the start of the project. The equipment furnished in this proposal is subject to the manufacturer's warranty. These warranties are passed from EPI to the Client, based upon the manufacturer's policy.

For performance of the services provided for herein, EPI shall be compensated by the Client upon receipt of invoice and/or as described elsewhere in the Proposal document. The Client understands that the fee is not contingent upon the closing of a transaction or the ability to receive financing for the property. Payment for services is not contingent upon reimbursement from any local, state or federal program, and EPI does not guarantee full reimbursement under any program. ~~Unpaid balances shall be subject to interest at the rate of 1.5% per month, or the maximum permissible under state law, whichever is less, commencing thirty (30) days from the invoice date.~~ The Client agrees to reimburse EPI for any reasonable collection fees including administrative and attorney's fees that EPI may incur in collecting its fees and expenses.

Client agrees to indemnify and hold harmless EPI, its agents, officers, employees, and its subcontractors, and assigns, from any and all claims, suits and causes of action relating in any way to loss, damage, injury and/or death to persons and property on or about the job site caused in whole, or in part, by the negligent, willful or intentional acts of the Client, its representatives, agents and employees or the property owner. EPI agrees to indemnify and hold harmless Client from all claims as described above where the claim arises out of the negligent, willful or intentional acts of EPI.

Should the Proposal be accepted and the project canceled after it is initiated, the project will be billed on a percentage completed basis, and the information collected will be submitted to the Client, upon request.

This Proposal is active for 30-60 days.

EQUAL EMPLOYMENT OPPORTUNITY

Section I. This EQUAL EMPLOYMENT OPPORTUNITY CLAUSE is required by the Illinois Human Rights Act and the Rules and Regulations of the Illinois Department of Human Rights published at 44 Illinois Administrative Code Section 750, et seq.

Section II. In the event of the Contractor's noncompliance with any provision of this Equal Employment Opportunity Clause, the Illinois Human Right Act, or the Rules and Regulations for Public Contracts of the Department of Human Rights (hereinafter referred to as the Department) the Contractor may be declared non-responsible and therefore ineligible for future contracts or subcontracts with the State of Illinois or any of its political subdivisions or municipal corporations, and this agreement may be canceled or avoided in whole or in part, and such other sanctions or penalties may be imposed or remedies involved as provided by statute or regulation.

During the performance of this Agreement, the Contractor agrees:

A. That it will not discriminate against any employee or applicant for employment because of race, color, religion, sex, national origin or ancestry; and further that it will examine all job classifications to determine if minority persons or women are underutilized and will take appropriate affirmative action to rectify any such underutilization.

B. That, if it hires additional employees in order to perform this Agreement, or any portion hereof, it will determine the availability (in accordance with the Department's Rules and Regulations for Public Contracts) of minorities and women in the area(s) from which it may reasonably recruit and it will hire for each job classification for which employees are hired in such a way that minorities and women are not underutilized.

C. That, in all solicitations or advertisements for employees placed by it or on its behalf, it will state that all applicants will be afforded equal opportunity without discrimination because of race, color, religion, sex, marital status, national origin or ancestry, age, or physical or mental handicap unrelated to ability, or an unfavorable discharge from military service.

D. That it will send to each labor organization or representative of workers with which it has or is bound by a collective bargaining or other agreement or understanding, a notice advising such labor organization or representative of the Contractor's obligations under the Illinois Human Rights Act and Department's Rules and Regulations for Public Contract.

E. That it will submit reports as required by the Department's Rules and Regulations for Public Contracts, furnish all relevant information as may from time to time be requested by the Department or the contracting agency, and in all respects comply with the Illinois Human Rights Act and Department's Rules and Regulations for Public Contracts.

F. That it will permit access to all relevant books, records, accounts and work sites by personnel of the contracting agency and Department for purposes of investigation to ascertain compliance with the Illinois Human Rights Act and Department's Rules and Regulations for Public Contracts.

G. That it will include verbatim or by reference the provisions of this Equal Employment Opportunity Clause in every subcontract it awards under which any portion of this Agreement obligations are undertaken or assumed, so that such provisions will be binding upon such subcontractor. In the same manner as the other provisions of this Agreement, the Contractor will be liable for compliance with applicable provisions of this clause by such subcontractors; and further it will promptly notify the contracting agency and the Department in the event any subcontractor fails or refuses to comply therewith. In addition, the Contractor will not utilize any subcontractor declared by the Illinois Human Rights Department to be ineligible for contracts or subcontracts with the State of Illinois or any of its political subdivisions or municipal corporations.

Section III. For the purposes of subsection G of Section II, "subcontract" means any agreement, arrangement or understanding, written or otherwise, between the Contractor and any person under which any portion of the Contractor's obligations under one or more public contracts is performed, undertaken or assumed; the term "subcontract", however, shall not include any agreement, arrangement or understanding in which the parties stand in the relationship of an employer and an employee, or between a Contractor or other organization and its customers.
