2021-0068 Adding any negligent, intentional, or malicious acts to the Disruption of Utility Service - Recommended Amended Ordinance

The Police Department is seeking to amend Title 6, Chapter 7, Section 6-7-2, of the Orland Park Village Code with regard to amending the disruption of utility service to include "or any other negligent, intentional or malicious acts." Currently,

by ordinance, a violation of the disruption of utility service only occurs when utilities are interrupted during excavation.

The Orland Park Police Department has crucial public safety (i.e. radio communication system) equipment installed on Village of Orland Park Property that is above ground and essential to police operations. Private sector companies often place equipment on the same village owned locations as the Police Department. This enacted ordinance will assist in ensuring that public safety equipment continues to operate without interference or obstruction.

Mayor Pekau made comments. (refer to audio)

Village Manager George Koczwara presented the item. (refer to audio)

I move to recommend to the Village Board to approve an ordinance entitled: AN ORDINANCE AMENDING TITLE 6, CHAPTER 7 SECTION 6-7-2 OF THE ORLAND PARK VILLAGE CODE IN REGARD TO DISRUPTION OF UTILITY SERVICE

A motion was made by Trustee Milani, seconded by Trustee Nelson Katsenes, that this matter be RECOMMENDED FOR PASSAGE to the Board of Trustees. The motion carried by the following vote:

Aye: 7 - President Pekau, Trustee Fenton, Trustee Dodge, Trustee Calandriello, Trustee Healy, Trustee Nelson Katsenes, and Trustee Milani

2021-0080 Ballfield Fence Banner Sponsorship Program

The Recreation and Parks Department offers a Ballfield Banners Sponsorship Program through the Special Events Sponsorship Packet (attached to the Committee packet).

Staff seeks to increase participation in this program by utilizing both Centennial Park and John Humphrey complex homerun fences instead of the scoreboards. This would provide more visibility for sponsor banners.

Additionally, staff is evaluating sponsorship rates, including potentially lowering the fee to a more affordable cost to Orland Park businesses. The cost to produce a 4' x 8' banner is \$125.

The lower cost and the move to outfield fences at Centennial Park may create a more commercial appearance of fields as compared to the past.

Trustee Dodge made comments and asked a question. (refer to audio)

2021-0028 Remote Virtual Inspections

As restrictions associated with COVID-19 continue, municipalities throughout the country are utilizing alternative forms of service delivery to help assist and accommodate the business community. One such program is conducting Remote Virtual Inspections (RVI). The International Code Council (ICC) has provided guidance on RVI and set a template for municipalities to follow. RVI is a method of inspection that allows the needed inspections to proceed in a timely manner by the owner or contractor located on the jobsite and the inspector or inspection teams performing the inspection remotely.

Examples of jurisdictions utilizing RVI include but are not limited to:

Algonquin, IL - Allows as option for certain inspections

Arlington, VA - Allows as option for all inspections, with Building Official approval

San Bernardino County - Allows for certain inspections, with Building Official approval

Naperville, IL - Allows for certain inspections, with Building Official approval

The proposed guidelines for RVI are attached to the Committee packet to this document and as summarized below:

All RVI requests must be scheduled at least 2 business days prior to the requested date. The owner/contractor will have the ability to select the RVI as an option.

Village of Orland Park Building Official will determine if the request is eligible for RVI and contact the applicant. The inspector(s) involved with the inspection will determine the appropriate timing with the contractor and schedule an agreed upon time for the virtual inspection.

The jobsite must have high-speed Wi-Fi connectivity or minimum 4G cellular service with a strong signal. The contractor/owner must have a device capable of completing the inspection (smartphone/tablet)

If at any point the inspector believes that the remote inspection process is not allowing them to properly assess compliance, they may require that a site inspection be required at a future date at the sole discretion of the inspector/Building Official.

The following inspection types can be conducted via RVI:

Residential A/C Final

Residential Alarm System
Residential Driveway Final
Residential Fence Final
Residential Fire Pit
Residential Patio Final
Residential Paver Base Final
Residential Pergola Final
Residential Retaining Wall Final
Residential Demolition of Accessory Structures
Commercial Lawn Sprinkler
Sewer/Water Service Repair
Residential Shed Final
Residential Sidewalk Final
Residential Siding Final
Residential Solar Panel Final
Residential Hot Tub/Spa Final
Residential Stoop Final
Commercial Roof Final
Residential Roof Final
Residential Windows/Doors Final

The inspection will be scheduled online or in-person, the same process in place for current inspections.

In anticipation of this program, the Village conducted sample RVIs. A similar learning curve is anticipated for this program.

Based on discussions with other jurisdictions, RVI can work to accommodate certain inspection types however, it does have some limitations. The time an inspection takes could be significantly increased because there are additional steps necessary to verify the location is accurate and other details. In addition, it will take time for inspectors to adjust to this type of inspection procedure.

Based on staff research, RVI can be used as requested by a homeowner for less complicated inspections, where accuracy can be maintained. In order to ensure accuracy, more complex inspections may not be appropriate for virtual inspection at this time. RVI can assist in offering alternatives for building permit inspection for those that are weary of an in-person inspection.

Staff is looking for direction to implement a RVI program as outlined in the above and attached to the Committee packet. The discussion and recommendation will be forwarded to the Village Board for approval.
