Title/Name/Summary

Class Eight (8) Kenworth T480 Tandem Axle Chassis and Plow/Dump Body - Purchase

History

The Village currently operates twenty-five (25) Class Seven (7) and Class Eight (8) heavy duty plow and dump body trucks. The equipment is vital to Public Works' snow fighting efforts, and supports Public Works projects throughout the year.

The Board previously approved the purchase of six (6) Peterbilt Model 548 trucks with

Henderson dump bodies. One of the six (6) trucks was a tandem axle plow truck with a wing plow. Initially, the expected delivery for the chassis was 2nd to 3rd quarter of 2023. Village staff was notified by our Peterbilt representative that, due to vocational hood production issues and the allocation of Allison transmissions, the Peterbilt 548 chassis that we had spec'd would not be built in 2023, and they could not provide any time frame for production of those trucks for 2024.

Henderson Products presented the Village with the opportunity to purchase one (1) new, 2023 Kenworth T480 tandem axle chassis with Henderson Mark E, stainless steel dump body, front and wing plow, and slip in v-box spreader with pre-wet system installed.

The new tandem axle truck would replace a 2003 Sterling LT8500.

Kenworth and Peterbilt are both Paccar companies, and have similar chassis. The Kenworth T480 chassis, available from Henderson, are equipped with the same engine and transmission that were selected on the Peterbilt 548 chassis. The stainless steel Henderson Mark E dump body had been spec'd on the Peterbilt 548 builds as well.

Staff would like to proceed with the purchase of one (1) tandem axle Kenworth T480 chassis equipped with Henderson stainless steel Mark E dump body, front and wing plow, and v-box for the price of \$362,462.00.

This truck would be completed and ready for use for the 2023-2024 snow and ice season.

This agenda item is being considered by the Committee of the Whole and the Village Board of Trustees on the same night.

Financial Impact

Funds for one (1) tandem axle plow truck were approved as part of the FY 2022 and FY 2023 budget and are available in 3008040-570200.

Recommended Action/Motion

I move to approve the use of Sourcewell contract # 080818-HPI for the purchase of one (1) tandem axle Kenworth T480 with Henderson Mark E dump body, front and wing plow, and v-box for an amount of \$362,462.00 per Henderson Products, Inc. quote #174137 dated July 20, 2023.

AND

Authorize the Village Manager to execute all related contracts, subject to Village Attorney review.
