Public Works Pond Maintenance - Proposal

Project Approach

Cardno would provide three years of maintenance on the basin buffer using herbicide application, spot mowing, hand wicking, and hand pulling, with a prescribed burn on a date to be determined jointly with the Village. The prescribed burn price includes a burn permit as well as all fire preparations such as burn breaks and supplemental water. Supplemental seeding could be used for filling in any bare areas, and adding species diversity throughout the sites.

Scope of Work and Cost

Cardno
